**Banking in the New Millennium** W. Goosen, A. Pampallis, Amelia Van Der Merwe, L. Mdluli, 1999 Looking beyond the year 2000, this text forecasts the impact of technology transfer and information technologies on South African banking. Integrated banking and economic concepts are presented which explore the origins of money, the development of banking and the inevitability of interest rates.

**Financial Sector Development and the Millennium Development Goals** Stijn Claessens, Erik Feijen, 2007 This study investigates the relationship between financial sector development and progress in reaching the Millennium Development Goals (MDGs). It assesses the contribution of countries' financial sector development to achieving the MDGs. The focus is on the relationships between financial development and economic welfare and growth, and the following four MDG-themes: Poverty, Education, Health, and Gender Equality. In doing so, the book reviews the theoretical channels, surveys existing empirical evidence - both cross-country and case study evidence, and provides new evidence. Financial Sector Development and the Millennium

Development Goals finds that financial development is an important driver for economic welfare in that it reduces the prevalence of income poverty and undernourishment. In addition, new evidence is provided of a positive association between financial development and health, education, and gender equality.

**Acquisition Strategies in European Emerging Markets** K. Meyer, S. Estrin, 2006-11-28 This study investigates mergers and acquisitions in emerging economies. Combining a questionnaire survey with eleven case studies in Poland, Hungary and Lithuania, it develops a dynamic perspective of international acquisitions, and a refined acquisition typology. Implications are derived for managers and policy makers, and for scholarly research.

**The Millennium Development Goals for Health** Adam Wagstaff, 2004-01-01 Annotation Provides information on progress and trends, including poor/nonpoor disparities; health systems reform as a means of laying building blocks for

the efficient and equitable delivery of effective interventions; the financing of health spending through domestic resources and aid; and improving the effectiveness of development assistance in health. Linking the health Millennium Development Goals? agenda with the broader poverty-reduction agenda, this book is a valuable resource for policymakers in developing countries and development practitioners working in the health, nutrition, and population sector as well as students and scholars of public health.

*Corporate Social Responsibility in Poland* Aneta Długopolska-Mikonowicz, Sylwia Przytuła, Christopher Stehr, 2018-12-19 This book examines the development and adoption of corporate social responsibility (CSR) in Polish businesses and social and environmental organizations, and analyzes the corresponding impact at the strategic and operational level in these fields. It presents the status quo of CSR in Poland from three main perspectives: The first presents theoretical works based on current research and recent advances, while the next takes a closer look at empirical findings in the different fields of CSR (e.g. finance, reporting, law) and presents best practices from major international companies operating on the Polish market. Lastly, it presents a range of case studies from small and medium companies and NGOs in Poland and gives an outlook on the future development. Readers will benefit from an in-depth discussion of the opportunities and challenges that businesses and organizations in Poland are currently facing with regard to traditional national values and the influx of new cultural and social dimensions and patterns produced by international businesses entering the Polish market. Taken together, the lessons learned, case studies and snapshots of the latest developments provide a comprehensive overview of the

state of the art of CSR in Poland, as well as a blueprint that can be applied to other Eastern European countries.

*Banking in Portugal* Anabela Sérgio, 2016-01-26 This book explains how banking institutions in Portugal were able to maintain their strength and solubility while undergoing a demanding Program of Financial Assistance from the International Monetary Fund, the European Central Bank and the European Commission from May 2011 and May 2014.

**Encyclopedia of New Year**»s Holidays Worldwide William D. Crump, 2014-04-25 Among the world's myriad cultures and their associated calendars, the idea of a "New Year" is relative and hardly specifies a universal celebration or even a universal point in time. Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods, music, dancing, noisemaking, fireworks and drinking. This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year, beyond its traditional Western associations with Christmas. National or regional entries detail the principal traditions and customs of 130 countries, while 27 entries discuss major calendar systems in current use or of significant historical interest. The remaining entries cover a wide variety of subjects including literary works, movies, and television specials; the customs of specific ethnic groups; universal customs such as toasting and drinking; football bowl games and parades; and the New Year celebrations at the White House and the Vatican.

Retail Banking in Greece - New perspectives through customer orientation in a slowly saturated market Niko Mikopoulos, 2012-04-13 Bachelor Thesis from the

year 2008 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, grade: 2, University of Applied Sciences Zurich, language: English, abstract: The Greek retail-banking sector has generated over the last couple of years excellent revenues with their branches network and expansion strategy to the neighbouring Balkan markets. The private sector and households mainly demanded banking products as deposits, consumer credits, mortgages- and building loans, credit cards and services as customer advisory, phone banking and Internet banking. Especially a strong competition between the traditional Greek retail banks (e.g. National Bank of Greece, Alpha Bank, Piraeus Bank etc.) the new retail bank entrants (e.g. Proton Bank, Millennium, Marfin Popular Bank etc.) and the indications for a slowly saturated market will force the Greek retail banks to focus more and more on new perspectives through customer orientation. The target of the thesis is to give on a transparent and structured way valuable knowledge what new perspectives through customer orientation are and what relation exist between customer-orientation process and a CRM framework in the Greek Retail Banking sector and how this can be used in a practical and methodical way.

**Red Bank in the Twentieth Century** Randall Gabrielan, 1997-11-01 The twentieth century can truly be said to have been America's century. As the

nation reached the position of world leader, her towns and cities changed at an unprecedented pace. With the approach to the millennium, the topic of change is on everyone's mind--how our communities and lifestyles have changed over the past century, and how we can endeavor to preserve the past while facing the future in which the world seems to change ever faster. The American Century series documents and celebrates our most recent history--featuring images of faces and places which were taken within living memory and yet that already seem to belong to a long-past era.
