Emerging Markets from a Multidisciplinary Perspective Yogesh K. Dwivedi,Nripendra P. Rana,Emma L. Slade,Mahmud A. Shareef,Marc Clement,Antonis C. Simintiras,Banita Lal,2018-04-11 This book examines prominent issues in the Emerging Markets (EM) from a variety of disciplines in order to make useful societal contributions through knowledge exchange. EMs offer enormous opportunities, but realizing them is both challenging and risky due to inherent uncertainties of such markets. EM's also have unique characteristics that makes them different from developed countries. This causes implications for both theory and practice. These markets necessitate substantial adaptations of developed theories and approaches employed in the Western world. This book investigates problems specific to emerging markets, and identifies new theoretical constructs, hypotheses (re)development, and emphasizes institutional contexts. The chapters in this book establish new conceptual and theoretical paradigms from multidisciplinary perspectives concentrated in the areas of information systems, electronic government, and digital and social media matters. The book focuses on topics in these areas such as digital enterprises, sustainability, telemedicine, and Information Communication Technology (ICT) and surveys the potential challenges and opportunities that may arise. These concepts and topics covered in this book are vital for making the global economy more equitable and sustainable.

The Report: Bahrain 2015 Oxford Business Group,2015-02-27 The kingdom rose to prominence as the region's financial hub in the 1970s and today, despite increasing competition from its neighbours, it is bolstering this position as it leads the way in the Islamic banking segment, hosting the highest concentration of Islamic financial institutions globally. The takaful segment represents one of the fastest growing segments in Bahrain's insurance sector, itself boasting the highest insurance penetration rate in the GCC. Meanwhile a rising population is driving housing and transport infrastructure in the country with private contractors benefitting as a result. Looking forward, these expansions to rail and air links should boost the kingdom's tourism offering, with tourism's contribution to GDP expected to grow significantly over the next 10 years, while elsewhere the projects will drive Bahrain's role as a regional logistics centre, with the kingdom aiming to position itself as a key entry point to the GCC moving forward.

The Report: Oman 2008 ,2008

The Business Year: Oman 2021/22 ,2021-11-15 Oman, for some time, has been a nation on the move. An integral part of the GCC, it is also seeking to extend its influence further afield via the development of port infrastructure that is set to make it a firm fixture on the East-West transport route. But Oman isn't developing unguided, instead sticking faithfully to Vision 2040, a wide-ranging, ambitious blueprint that foresees the development of a diverse, sustainable economy unshackled by a reliance on oil and gas, which currently plagues much of the region. In this edition, which features interviews with top business leaders from across the economy, as well as news and analysis,

we cover: diplomacy, finance, Vision 2040, 4th Industrial Revolution, digital innovation, sustainability, logistics, real estate, agribusiness, and tourism and retail.

The Report: Oman 2015 Oxford Business Group,2015-01-21 As with most of its neighbours in the GCC region, oil and gas remains a significant contributor to Oman's economy, accounting for around 50% of GDP. While the recent slump in oil prices is a concern, increased investment in enhanced oil recovery techniques in recent times has attempted to make up for this decline, with supply increasing as a result. Meanwhile, Oman's industrial sector, particularly the petrochemicals segment, is poised for large expansion with ongoing investment in downstream infrastructure and new facilities in the pipeline for the Sohar and Salalah industrial regions expected to contribute significantly to output before 2020. Added to this is the rapid development of Oman's ports, rail and airports, which is expected to drive its reputation as a regional logistics hub while developing the tourism sector, which is considered as key moving forward.

The Report: Oman 2012 ,2012

The Report: Oman 2016 Oxford Business Group,2016-01-12 Oman's GDP grew 4.6% between 2013 and 2014 according to the Oman Central Bank, with hydrocarbons the main driver of the economy at almost 50% of GDP. Although the dip in oil prices has put pressure on government revenues, authorities are pressing ahead with spending plans for the sector, particularly in the downstream segment. The country's infrastructure expansion plans are also moving forward, particularly at the country's three ports as the country seeks to leverage its strategic position on the Strait of Hormuz and establish itself as a global transport and logistics hub. Feeding off this development drive are the sultanate's banks, with project finance regarded as one of the most promising areas for lending growth. In the longer term, Oman Vision 2020 seeks to boost private sector participation in the economy and fuel SME growth in key sectors, including construction, retail, tourism and transport.
