Defiant Dave Bara,2017-12-05 With his critically acclaimed military science fiction debut series, Dave Bara launched readers on a star-spanning journey of discovery, diplomacy, and danger. Peter Cochrane and his new wife, Karina, have been married less than a year. And although things have been quiet in relation to the old Empire during that time, they're about to get a lot hotter. Peter and Karina have embarked on a diplomatic mission to Sandosa, an old ally of Pendax, the newest member of the Union. But during their mission the government of Sandosa attacks Peter's new command, Defiant, and tries to assassinate Karina and him. Peter responds the only way he can, with all the power at his disposal to protect both his wife and Defiant. Then suddenly Defiant is called away to Skondar, where Peter's old flame Dobrina Kierkopf and her new ship Impulse II have come under attack by the Butcher of Carinthia, Prince Arin. Though Defiant chases away the prince, it is not before some pretty devastating events have occurred. And soon Peter finds himself racing toward the mysterious world of Altos, where he discovers an unpleasant truth about the Union's allies, the Historians of Earth. Each encounter with Arin and his allies leaves Peter and the Union Navy fleet reeling, even as they continue to pursue this elusive enemy. But all of this can only have one conclusion, a final confrontation in which Peter and Arin will battle over the future of humanity—Union or Empire.

Bara U.R. Ananthamurthy,2016-08-25 Ajji, can I have some water? ... Just a few drops will do, Ajji. With the searing sky above and the blistering earth below, like cactus the people of this parched terrain are determined to stay alive. Emaciated children scurry along, dejected farmers pawn their ploughs, weary women sleep on empty stomachs.... Would those perishing now have died anyway? Or is hunger calling them away prematurely? Filled with social concern, Satisha, the district commissioner, wants to help the afflicted. But he is caught between the politicians who are unwilling to declare the district drought-hit and the murky local realities where a religious outfit strives to protect cows, the desperate youth hold a deity responsible for the failed rains and petty activists seek to secure their own interests. Can the idealist Satisha win the game where corrupt politicians are rolling the dice and stand by his conviction to help the afflicted? Written during the Indian Emergency, Bara depicts the tortuous realities of Indian democracy and captures the political and moral dilemmas of the educated middle class.

The Choice Michael Bara,Mike Bara,2010-10 You've probably heard of The Secret. Now it's time to make The Choice. There is a great shift coming in the near future. We can all feel it. But what does it truly herald for the planet we inhabit? Is there reason for concern about the apocalyptic prophecies of the Mayan calendar, and is there an underlying physics driving these changes? How do planetary alignments and astronomical events such as the ones predicted for 2012 affect your consciousness? And most importantly, what can each of us do to influence this coming shift in both consciousness and physical reality? New York Times best-selling author Mike Bara examines all these questions and many more in The Choice, which also includes: Detailed descriptions of a revolutionary new theory of physics that proves the theory behind The Secret How to use your own inner light--the power of your mind and spirit--to influence the physical world How governments the world over are preparing for the coming decade of change How to determine your place in the Next Age If we can truly can make this world into anything we want, which path will we choose?

Vamp Eve Golden,1998-05-05 Theda Bars's remarkable life as told by Eve Golden's heartfelt account is short of discovering a means of traveling through time and as close as we are ever likely to get to meeting the screen's great Vamp!

Theda Bara Ronald Genini,2013-02-08 Despite being a mediocre actress with less than classic beauty, Theda Bara was one of Hollywood's leading performers in the early years of cinema. Her success was mostly due to Fox Studio's publicity: they made her a screen vamp and used her to titillate the public. And Theda Bara, ambitious and nearing 30 when she made her first film, enthusiastically played the role. In real life, Theodosia Goodman bore little resemblance to the vampish Theda Bara character. But the studio-created persona, with the invented name, evil personality and fictional history, was a major star. Though her films were often trite, poorly acted,

extravagant and crude, the public packed movie houses. But her film career ended once the public tired of the persona. Through contemporary newspaper accounts, film reviews, interviews and other sources, this is a comprehensive account of the life and times of one of Hollywood's first female stars.

Starbound Dave Bara, 2017-01-03 With his critically acclaimed military science fiction debut series, Dave Bara launched readers on a star-spanning journey of discovery, diplomacy, and danger. The Lightship H.M.S. Impulse is gone, sacrificed in a battle against First Empire ships. And though the fragile galactic alliance has survived the unexpected invasion, the Union forces might not prove victorious against a full onslaught by this legendary enemy. For Peter Cochrane, serving as an officer aboard his world's flagship, H.M.S. Starbound is a dream come true. Tasked with investigating a mysterious space station in a rediscovered star system, Peter and Starbound face a surprise attack by unknown forces and suffer terrible losses. But there is no time to grieve or even regroup as Peter is thrust into a new crisis, a potential civil war on the Union world of Carinthia. Caught between his rank in the navy and his status as a royal heir, Peter is put on trial for the loss of Impulse, used as a political pawn as Carinthia stands on the brink of a devastating conflict. Peter escapes but faces the prospect of interstellar war when he learns of a possible alliance between the First Empire and Carinthia, a coalition which could tear the Union apart!

Trinity's Children Dave Bara, 2022-11-01 ONCE DEFECTED, NOW A LEADER, JARED CLEMENT MUST RISE TO THE OCCASION OR BE RESPONSIBLE FOR GENOCIDE Jared Clement has returned to Trinity, not as a mere ship captain but as a Five Suns Fleet Admiral. With his promotion comes increased responsibility that weighs heavy on his shoulders: 30,000 settlers are leaving the dying planets of the Rim, his home, and resettling next to the natives of the planet Bellus. Clement is responsible for those lives and the lives of the natives, Trinity's children, and for building a better future for them all. But when his migrant fleet arrives in the Trinity system, they are faced with enemies both old and new. Former Fleet Admiral Elara DeVore has escaped her exile on the planet Alphas and vanished into parts unknown. Soon, however, Clement discovers she has a new fleet and a new ally, the Solar League from Earth. The Solar League has arrived with a massive fleet and plans on taking Trinity for itself, forcing the Five Suns to surrender. With just a small military fleet to accompany the migrants, Clement is faced with the almost impossible task of defending both his people and the natives from becoming slaves of the Solar League. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Trinity: "[A] rousing. . . far-future tale, taking hard-drinking former Rim Confederacy Navy Capt. Jared Clement of the gunship Beauregard into a whopper of a galactic confrontation. . . Theda Bara Roy Liebman, 2023-08-16 Although a major star in the 1910s, Theda Bara--known as The Vamp--was largely neglected until the 1990s, when her fame began to resurface. Since then, there have been biographies, documentaries and other works that have brought the silent film actress back into the spotlight, including a painstaking stills reconstruction of her lost epic Cleopatra. This is a complete examination of Bara's more than 40 films, as well as her theater and radio appearances, down to the smallest detail. With the vast majority of Bara's films considered lost, it is a particularly valuable resource for fans and scholars, and includes information about each film's genesis, director, plot, censorship problems, and critical and public reactions. Also included is a biographical overview,

with many illuminating anecdotes.

Ancient Aliens on the Moon Mike Bara, 2012-03-27 Best-selling author and Secret Space Program researcher Bara brings us this lavishly-illustrated volume on alien structures on the Moon. He looks into the history of lunar anomalies and the early NASA programs. He gives us an examination of ruins on the Moon in the Sinus Medii region using images from the Surveyor, Lunar Orbiter and Ranger missions. He looks at the Apollo lunar missions to the Moon and the photographic evidence supporting the theory that transparent domes exist at the edge of craters on the orb. Did the domes encompass settlements of humans or other beings who lived there? He looks at further anomalies in the Mare Crisium region, including the hexagonal shape of the Crisium region itself. In this area, domes over the craters resemble watch-crystals. See the evidence in pictures of Cleomedes F and Cleomedes F/a, and an historical image of a giant shard of transparent material that was whitewashed from later versions of the same image. Bara discusses the popular theory that the film "2001 -A Space Odyssey" was used as a training ground for Stanley Kubrick to develop the technology to fake the footage of the moon landings. He also explores the curious mission of Apollo 17-possibly a technology salvage mission, primarily concerned with investigating an opening into a massive hexagonal ruin near the landing site. Bara details how the astronauts managed to get nearly 30 minutes of "off camera" time to investigate an entrance into the ruin and then later proceeded to a nearby crater to retrieve technological objects. He examines evidence from the Russian Zond series of lunar probes, as well as the more current Clementine and Lunar Reconnaissance Orbiter data, including an in-depth study of strange objects in Tycho crater. Also included: a look at the current politics of the new race to return to the Moon and what hidden agendas may be behind it. Finally, Bara looks at the various arguments that the entire Moon is an artificial object. Bara shows how the Moon would have been an ideal place for an alien species involved in genetic experimentation on Earth to have set up a base. 292 Pages. 6x9 Paperback. Illustrated. Impulse Dave Bara, 2015-02-03 With his critically acclaimed military science fiction debut series, Dave Bara launched readers on a star-spanning journey of discovery, diplomacy, and danger. Lieutenant Peter Cochrane of the Quantar Royal Navy believes he has his future clearly mapped out. It begins with his new assignment as an officer on Her Majesty's Spaceship Starbound, a Lightship bound for deep space voyages of exploration. But everything changes when Peter is summoned to the office of his father, Grand Admiral Nathan Cochrane, and given devastating news: the death of a loved one. In a distant solar system, a mysterious and unprovoked attack upon Lightship Impulse resulted in the deaths of Peter's former girlfriend and many of her shipmates. Now Peter's plans are torn asunder as he is transferred to a Unified Space Navy ship under foreign command, en route to an unexpected destination, and surrounded almost entirely by strangers. To top it off, his superiors have given him secret orders that might force him to become a mutineer. The crisis at hand becomes a gateway to something much more when the ship's Historian leads Peter and his shipmates into a galaxy of the unknown -- of ancient technologies, age-old rivalries, new cultures, and unexpected romance. It's an overwhelming responsibility for Peter, and one false step could plunge humanity into an apocalyptic interstellar war....

BARA -The hidden mystery of Genesis 1. Book I Metanoia, 2023-11-19 Bara Cohen grew up in a non-practicing Jewish home, was a child prodigy with an unusual love of plants, but now, at the age of twenty-one, is the youngest professor of physics at Yale University in America, and a bordering atheist. And yet, Bara wanted to believe that there is more to life than mere scientific facts. Facts, he knew, which often must be adjusted as new discoveries are made. At the age of fourteen Bara had an unexpected vision which made him fear for his sanity, but rather resulted in a change of studies, from botany to physics. A call from Michael, an older friend who used to study botany with him, led to them

going to Israel, where, in a most unusual manner, Bara came across a treasure buried in the side of a riverbank. It was an ancient ring with an inscription in an archaic form of the already archaic Paleo-Hebrew on the inside. This ring with its unusual inscription would put Bara on an exhilarating journey discovering the amazing hidden mystery of the Story of Creation in Bereisheet of the Jewish Torah, or Genesis 1 in the Christian Holy Bible. Thanks to the ring Bara found, he, together with Doctor Abdiel Ben-Ezra, a Messianic-Jew, and head of Archaeology at Jerusalem Museum, and later joined by Shesh Yamim, a student of Doctor Ben-Ezra, found a completely new way of looking at the Story of Creation, which left them breathtakingly stunned right from the start. Bara's name means "he (meaning the masculine God) created, or creating," and Bara ended up where you never thought he'd be...! Metanoia was born in 1959 in a hospital in Lichtenburg, South Africa, even though her parents stayed in a small town, Sannieshof, not far from Lichtenburg. In 1994 she pleaded with God in tears to please teach her the Truth after serious errors in the Bible came to her attention and unbelievable as it may sound, God did teach her the Truth over a period of many years. Only at the end of 2022 did He open the door for this Truth to be made public. She has three children and now stays with her fourth husband in Zeerust, South Africa.

The Director's Cut Christopher DiGrazia, 2011-01-15 I wanted a job. I got a murder. When makeup artist Toby Swanson joined the Fox Film Corporation in 1914, he hoped to sneak a kiss from the studio's newest star, the seductive vamp Theda Bara. But when a scene goes horribly wrong, Bara's film is canceled and her dreams of stardom crushed. Unless she can prove what looked like an accident was really murder. So together, Theda and Toby dive into showbiz New York, from dancing with a young Rudolph Valentino to sharing the vaudeville stage with Sophie Tucker and learning lockpicking secrets from Harry Houdini, all leading to a long-forgotten church crypt holding a desperate secret. It's New York at the dawn of the twentieth century, a time of big bridges, big skyscrapers and big money. And it's a time when movies - the biggest new business of them all - joins hands with the oldest. The Director's Cut is the first of the Theda Bara Mysteries.

Trinity Dave Bara, 2021-10-05 SPACE BATTLES AND GRIT FROM MASTER OF STARFARING ADVENTURE AND MILITARY SCIENCE FICTION DAVE BARA, AUTHOR OF THE LIGHTSHIP CHRONICLES SERIES. REDEMPTION AT TRINITY The Rim rebellion was glorious—and doomed from the start. Brilliant Rim Confederation Navy space ship captain Jared Clement skuttled his career and professional life by joining the rebels against the overwhelming force of the 5 Suns Alliance. The rebel cause was just. That didn't matter. Ten years later, Clement regrets nothing, but would prefer to be left alone to his thoughts and drink. But a new chance to command a ship of incredible potential is thrust in his lap—humanity's first truly faster-than-light vessel. The destination: Trinity, a newly discovered star system where strange signs of possible space farers may lead to humanity's first alien encounter. Or to interstellar war. Humanity is on the brink of a new age, and everything depends on one crusty star ship captain, his gritty crew, and the Beauregard, a ship that was never meant to wage war turned into a weapon-bristling battleship that will either propel humanity to ultimate destruction—or into a new starfaring age of exploration and conflict. And along the way, a noble lost cause—one Captain Jared Clement—may finally get his revenge. And find his redemption. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Trinity: "[A] rousing. . . far-future tale, taking hard-drinking former Rim Confederacy Navy Capt. Cognitive Pragmatics Bruno G. Bara, 2010-05-28 An argument that communication is a cooperative activity between agents, who together consciously and intentionally construct the meaning of their interaction. In Cognitive Pragmatics, Bruno Bara offers a theory of human communication that is both formalized through logic and empirically validated through experimental data and clinical studies. Bara argues that communication is a cooperative activity in which two or more agents together consciously and intentionally construct the meaning of their interaction. In true communication (which Bara distinguishes from the mere transmission of information), all the actors must share a set of mental states. Bara takes a cognitive perspective, investigating communication not from the viewpoint of an external observer (as is the practice in linguistics and the philosophy of language) but from within the mind of the individual. Bara examines communicative interaction through the notion of behavior and dialogue games, which structure both the generation and the comprehension of the communication act (either language or gesture). He describes both standard communication and nonstandard communication (which includes deception, irony, and as-if statements). Failures are analyzed in detail, with possible solutions explained. Bara investigates communicative competence in both evolutionary and developmental terms, tracing its emergence from hominids to Homo sapiens and defining the stages of its development in humans from birth to adulthood. He correlates his theory with the neurosciences, and explains the decay of communication that occurs both with different types of brain injury and with Alzheimer's disease. Throughout, Bara offers supporting data from the literature and his own research. The innovative theoretical framework outlined by Bara will be of interest not only to cognitive scientists and neuroscientists but also to anthropologists, linguists, and developmental psychologists.

Hidden Agenda Mike Bara, 2016-08-28 Space expert Bara delves into the secret space program, examining the possibility that there are secret bases on the Moon, and exploring the many other rumors surrounding the military's secret projects in space. Starting with the mysterious airship flap of 1897, tracing its possible origin to a 19th century Prussian secret society, Bara posits that man has had anti-gravity technology for quite a long time. What else doesn't the public know? Bara brings to light a lot of evidence showing that there is plenty. • On June 8, 1959, a group at the Army Ballistic Missile Agency produced for the U.S. Army a report entitled Project Horizon, a "Study for the Establishment of a Lunar Military Outpost." The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Did this happen? • The Brookings Report drawn up at the inception of NASA said we could expect to find alien artifacts in our exploration of space. Did NASA and the Pentagon find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the mission's TV cameras in order to hide their explorations of one of these bases? • Does hacker Gary Mackinnon's discovery of defense department documents identifying "non-terrestrial officers" serving in space mean that the U.S. has clandestine space platforms designed to fight a war with an alien race? And, have civilian observers here on Earth photographed these secret military space platforms? Bara explores the evidence surrounding these questions and more in this explosive book. He maintains that aside from the actual secret space program, even the public space program—NASA—has at its core a secret agenda. Bara also examines the many allegations that the government has long been clandestinely working with aliens in various covert programs.

Cognitive Science Bruno G. Bara, 2016-07-07 Originally published in 1995, this book is about the conduct of cognitive science rather than what cognitive science is. It has three main objectives. First, it describes the birth of cognitive science. Second, it outlines the method of enquiry which characterises and defines cognitive science. This method uses the techniques of artificial intelligence based on the assumption that mental activity can, in principle, be reproduced by a computer program. Third, the book describes the state of the art in relevant areas, with particular attention to

application fields such as pedagogics, human-machine interaction, and psychotherapy. The developmental approach is emphasised and highlights the fact that developmental aspects are essential in order to comprehend the steady mode of functioning achieved once a person has reached total maturity. Cognitive science is not presented as a definitive method for the analysis of the mind, though the author's conclusion is that it is the best of all possible methods today. At the time of publication this book would have been useful as an advanced textbook for students on courses specialising in cognitive science, and as a source of further information for those working in related areas such as cognitive psychology, linguistics, and computer science. It will still be of interest to experts and students in the field of cognitive science.
