The Persistence of the Color Line Randall Kennedy, 2012-04-17 A “provocative and richly insightful new book” (The New York Times Book Review) that gives us a shrewd and penetrating analysis of the complex relationship between the first black president and his African-American constituency. Renowned for his insightful, common-sense critiques of racial politics, Randall Kennedy now tackles such hot-button issues as the nature of racial opposition to Obama; whether Obama has a singular responsibility to African Americans; the differences in Obama’s presentation of himself to blacks and to whites; the challenges posed by the dream of a post-racial society; the increasing irrelevance of a certain kind of racial politics and its consequences; the complex symbolism of Obama’s achievement and his own obfuscations and evasions regarding racial justice. Eschewing the critical excesses of both the left and the right, Kennedy offers an incisive view of Obama’s triumphs and travails, his strengths and weaknesses, as they pertain to the troubled history of race in America.

The Button William J. Perry, Tom Z. Collina, 2020-06-30 The President has the power to end the world in minutes. Right now, no one can stop him. Since the Truman administration, America has been one push of a button away from nuclear war—a decision that rests solely in the hands of the President. Without waiting for approval from Congress or even the Secretary of Defense, the President can unleash America's entire nuclear arsenal. Almost every governmental process is subject to institutional checks and balances. Why is potential nuclear annihilation the

exception to the rule? For decades, glitches and slip-ups have threatened to trigger nuclear winter: misinformation, false alarms, hacked warning systems, or even an unstable President. And a new nuclear arms race has begun, threatening us all. At the height of the Cold War, Russia and the United States each built up arsenals exceeding 30,000 nuclear weapons, armed and ready to destroy each other—despite the fact that just a few hundred are necessary to end life on earth. From authors William J. Perry, Secretary of Defense in the Clinton administration and Undersecretary of Defense for Research and Engineering in the Carter administration, and Tom Z. Collina, the Director of Policy at Ploughshares Fund, a global security foundation in Washington, DC, *The Button* recounts the terrifying history of nuclear launch authority, from the faulty 46-cent microchip that nearly caused World War III to President Trump's tweet about his much bigger & more powerful button. Perry and Collina share their firsthand experience on the front lines of the nation's nuclear history and provide illuminating interviews with former President Bill Clinton, former Secretary of Defense Jim Mattis, Congressman Adam Smith, Nobel Peace Prize winner Beatrice Fihn, senior Obama administration officials, and many others. Written in an accessible and authoritative voice, *The Button* reveals the shocking tales and sobering facts of nuclear executive authority throughout the atomic age, delivering a powerful condemnation against ever leaving explosive power this devastating under any one person's thumb.

President Barack Obama John K. Wilson, 2019-11-11
Barack Obama's improbable quest has become a fact of American life and a benchmark in American history. Striving now toward a more perfect union, Obama and the nation confront obstacles unforeseen at the outset of the 2008 electoral campaign. John K. Wilson tracks the sweep of this progress from the beginning of Obama's political career through his move into the White House. With his critical journalistic eye and his sympathetic native son perspective, Wilson shows us a side of Obama we haven't seen as well as a view of the media we need to understand—even more now as the Obama administration begins to govern. The paperback edition of this popular book includes a new introduction, updates throughout, and two new chapters on the electoral victory and the transition from campaigning into governing. New photos and new insights include a focus on the continued importance of race in American politics.

Barack Obama Beatrice Gormley, 2015-09-08
Highlights the life and achievements of the Harvard Law School graduate, legislator, and civil rights lawyer who became the forty-fourth president of the United States and describes his accomplishments since taking office in 2009.

Barack Hussein Obama Steven Weissman, 2012-10-10
What does it mean to live in America today? If you know there's no right answer to that question, you'll want to read Barack Hussein Obama — a book about you; about

your country, your family, your president. Barack Hussein Obama is not a graphic novel. It's neither a biography nor an experiment, but a whole, fully realized parallel America, a dada-esque, surrealist satirical vision that is no more cockeyed than the real thing, its weirdness no more weird, its vision of the world no more terrifying. The zombieesque simulacra of Joe Biden and Hillary and Newt and Obama wander, if not exactly through the corridors of power, through an America they made and have to live in, like it or not. American cartoonist Steven Weissman takes from the lives of the leaders of the free world, his friends, his family, his sworn enemies, and gives them a new life that is both withering and oblique, devastating and contemplative, chaotic and pellucid. Before you lose your will to vote, read Barack Hussein Obama.

Hopeless Jeffrey St. Clair, Joshua Frank, 2012-05-15
Those who feel that like lemmings they are being led over a cliff would be well-advised not to read this book. They may discover that they are right.—Noam Chomsky “Jeffrey St. Clair and Joshua Frank have skillfully smoked out the real Barack Obama . . . the technofascist military strategist disguised as a Nobel Peace Laureate, but owned, operated, and controlled by Wall Street, Corporate America, and the Pentagon.”—Thomas H. Naylor, co-author of *Affluenza, Downsizing the USA* “The writers assembled here hit hard, with accuracy, and do not pull punches.—Marcus Rediker, author of *The Slave Ship: A Human History* The Barack Obama revolution was over before it started, guttered by the politician's overweening desire to prove himself to the grandees of the establishment. From there on, other promises proved ever easier to break. Here's the book that dares not let Obama off the hook. It's all here: the compromises, the backstabbing, the same old imperial ambitions. Covering all major Obummer categories since

he took office, this fast-paced collection will delight the critical and offer food for thought for those contemplating the 2012 electoral circus—and beyond. Jeffrey St. Clair is co-editor of CounterPunch, author of *Born Under a Bad Sky* and *Been Brown So Long it Looked Green to Me*, and co-author of *Whiteout: The CIA, Drugs, and the Press*. Joshua Frank is an environmental journalist and co-editor of *Red State Rebels: Tales of Grassroots Resistance in the Heartland*. His investigative reports and columns appear in CounterPunch, Chicago Sun-Times, Common Dreams, and AlterNet.

Now or Never Jack Cafferty, 2009-04-08 In his bestselling *It's Getting Ugly Out There*, CNN's Jack Cafferty skewered the liars and losers who were trying to harm the nation and explained why Americans had to take their country back. While the Bush exit from the White House brings a certain sense of mission accomplished, for Cafferty that's only the beginning. In *Now or Never*, the curmudgeonly Cafferty applies his heat-seeking scrutiny to the hot-button issues that top the 2009 agenda, including the economy, China, Iraq, the war on terror, and our broken immigration, education, and healthcare systems. Will Obama turn things around or will it be business as usual? Will a hitherto spineless Democratic Congress hold

individuals accountable for abuses of power? Cafferty gives voice to the fears and hopes of Americans from all around the country; he also gets personal with moving stories of his experiences raising kids with values that seem to be disappearing in our culture. Powerful, provocative, and drawing on the latest news from America and around the world, *Now or Never* makes lively reading for Cafferty fans and everyone who cares about America today.

An American Story Barack Obama, David Olive, 2008
Bursting on the national scene at the Democratic National Convention in 2004, Barack Obama is favored to become the first African-American leader of a major industrialized country. And that might be the least interesting thing about this young, charismatic intellect, who seeks to restore America's reputation abroad, and the well-being of Americans at home.--BOOK JACKET.

Barack Obama Avery Krut, 2009
Yes, we can. On the night of November 4, 2008, Barack Hussein Obama addressed the nation as the first African-American to be elected president of the United States. It was the end of a race that had gripped the country more than any other in its history—a race of unprecedented firsts. This detailed scrapbook recreates one of the most inspiring presidential races in U.S. history. Tucked among the pages is a treasure trove of memorabilia: souvenir replicas such as buttons, bumper stickers, posters, tickets, and more are set against a vivid narrative, historical photographs, and images from the campaign trail. You'll read the full text of Senator Obama's electrifying keynote address at the 2004 Democratic National Convention, and his American Promise speech from 2008, when he accepted the Democratic nomination. The Barack Obama Vault: an unforgettable portrait of a candidate and a campaign, from its hopeful beginnings to its landmark conclusion.

Team of Vipers Cliff Sims, 2019-01-29 THE INSTANT NEW YORK TIMES BESTSELLER Sims's vivid portrait of Trump shrewdly balances admiration with misgivings, and his intricate, engrossing accounts of White House vendettas and power plays have a good mix of immersion and perspective. The result is one of the best of the recent flood of Trump tell-alls. —Publishers Weekly The first honest insider's account of the Trump administration. If you hate Trump you need the truth; if you love Trump you need the truth. After standing at Donald Trump's side on Election Night, Cliff Sims joined him in the West Wing as Special Assistant to the President and Director of White House Message Strategy. He soon found himself pulled into the President's inner circle as a confidante, an errand boy, an advisor, a punching bag, and a friend. Sometimes all in the same conversation. As a result, Sims gained unprecedented access to the President, sitting in on private meetings with key Congressional officials, world leaders, and top White House advisors. He saw how Trump handled the challenges of the office, and he learned from Trump himself how he saw the world. For five hundred days, Sims also witnessed first-hand the infighting and leaking, the anger, joy, and recriminations. He had a role in some of the President's biggest successes, and he shared the blame for some of his administration's worst disasters. He gained key, often surprising insights into the players of the Trump West Wing, from Jared Kushner and John Kelly to Steve

Bannon and Kellyanne Conway. He even helped Trump craft his enemies list, knowing who was loyal and who was not. And he took notes. Hundreds of pages of notes. In real-time. Sims stood with the President in the eye of the storm raging around him, and now he tells the story that no one else has written—because no one else could. The story of what it was really like in the West Wing as a member of the President's team. The story of power and palace intrigue, backstabbing and bold victories, as well as painful moral compromises, occasionally with yourself. *Team of Vipers* tells the full story, as only a true insider could.
