**A Bartender's Guide to the World** Lauren Mote, James O.

Fraioli, 2022-10-25 Transport your glass around the globe with more than 75 cocktail recipes from one of the world's premier bartenders. Grab your glass and let's go! For over 20 years, Lauren Mote has tended bars and traveled the world, often as one of the only women in a male-dominated industry. She's developed cocktail recipes, sought out new ingredients, and gathered stories along the way. Now, in her first book, Lauren is inviting readers and home bartenders to pack their suitcases and come with her on an international cocktail adventure. Few bartenders can match Lauren's encyclopedic knowledge of spirits, liqueurs, and tinctures, not to mention her originality for blending them into a perfectly-balanced drink. Once you've gotten a handle on the basics of bartending, and gathered your cocktail shaker along

with a few other pieces of equipment, you'll be raising your glass in no time. The recipes are organized by their star ingredients, such as agave, gin, whiskey, rum, vodka, and more. Every drink is given its own designation of standard, mid, low, or zero proof, and you'll find a whole chapter on nonalcoholic cocktails, because Lauren feels strongly that all drinks should be prepared with care, whether they include alcohol or not. Once you've narrowed down the base that you're in the mood for, let Lauren's magnetic storytelling and gift of the gab continue to guide you. In each chapter, you'll find a collection of Mise en Place Recipes to help you build up your bar's basic ingredients and make Lauren's techniques your own. With beautiful storytelling and photography, and cocktail recipes you won't find elsewhere, *A Bartender's Guide to the World* is as much a pleasure to read as it is to imbibe from.

The Ultimate Cocktail Book Owen Warrtidge, 2020-08 Have you always wanted to learn how to make expensive-looking and stylish cocktails but you were afraid the whole subject was too hard to learn? Good news is coming your way - it's entirely possible to make delicious, professional cocktails in the comfort of your own home. Impress your guests with vodka, gin, whiskey, rum, and even non-alcoholic cocktails and forget having to wait at the bar any longer. There are some basic techniques to learn when it comes to cocktail making, or mixology as it is better known. However, these aren't too hard to learn and once you have the right equipment in place, you'll be able to quickly master the techniques that will allow you to mix and muddle your way to cocktail heaven. The downside of cocktail making is that you need to have a stock of ingredients on hand in order to whip up a batch of your favourite drink. For the most part, this is quite easy, as vodka, rum, whiskey, etc, are all quite easy to find. The mixers are often the difficult part, but in most supermarkets, you will find the ingredients you need. However much buying the ingredients costs you, it will never be as much as several rounds of cocktails in a high quality bar. Whether you want to relax at home with a drink in hand, or you have an upcoming event you need to cater for, learning how to make your favourite cocktails is never a waste of time. Your guests will be suitably impressed and if you have children or non-drinkers in attendance, you can learn about non-alcoholic cocktails very easily too. These cocktails simply omit the alcohol but use the same mixing techniques. This Cocktail Cookbook is going to teach you the basics and then take you through 50 delicious and easy cocktail recipes to replicate for yourself. The only question is, which will you start with?

**Liquid Intelligence: The Art and Science of the Perfect Cocktail** Dave Arnold, 2014-11-10 Winner of the 2015 James Beard Award for Best Beverage Book and the 2015 IACP Jane Grigson Award. A revolutionary approach to making better-

looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With *Liquid Intelligence*, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, *Liquid Intelligence* begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. *Liquid Intelligence* is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making,

Liquid Intelligence is the ultimate standard—one that no bartender or drink enthusiast should be without.
