Asian American Athletes in Sport and Society C. Richard King, 2014-10-24 For more than a century, sporting spectacles, media coverage, and popular audiences have staged athletics in black and white. Commercial, media, and academic accounts have routinely erased, excluded, ignored, and otherwise made absent the Asian American presence in sport. This book seeks to redress this pattern of neglect, presenting a comprehensive perspective on the history and significance of Asian American athletes, coaches, and teams in North America. The contributors interrogate the sociocultural contexts in which Asian Americans lived and played, detailing the articulations of power and possibility, difference and identity, representation and remembrance that have shaped the means and meanings of Asian Americans playing sport in North America. This volume will be of interest to students and scholars of the Asian American experience, ethnic relations, and the history of sport.

American Sport in International History Daniel M. DuBois, 2022-12-15 This book explores how American sports, especially basketball, baseball and American football, have projected the US into the world, and brought the world into America. Taking a chronological approach it traces the development

of American sports from the turn of the 20th century, highlighting how international forces such as immigration, geopolitics and war have influenced the trajectory of sport in the US, and thus the American experience. DuBois also considers the globalization of American sport and how this soft power shaped international relations throughout the American century. Addressing key questions about the role of sport in the rise of the United States, it frames themes that have come to define sports history; gender, race, economics and politics. It argues that while sport has not necessarily been a catalyst for change, it has often mirrored social issues, and sometimes served as an important tool of progress. Synthesizing major works alongside primary sources, the chapters study boxing, hockey, track and field and soccer alongside the 'big three' (basketball, baseball and American football) through a number of case studies to offer a novel interpretation of American sport history. Spanning early Native American sport, the export of baseball in the American empire, the role of basketball in the Cold War, the influence of immigrants and women in sports, and modern day sport culture, *American Sport in International History* asks what the role of sport has been and will be in a shifting international environment.

The essays in the book are wide-ranging, covering topics of interest for sports fans who enjoy the NFL and NASCAR as well as those who like tennis and watching the Olympics. American and British English Paul Baker, 2017-09-19 Is British English becoming more like American English? If so, why, and in what ways? This book compares examples of American and British language data from the 1930s, 1960s, 1990s and 2000s, to track the most important ways that both varieties are changing over time, and compares the extent to which they are following similar paths using a mixture of computer and human analysis. The analysis is carried out across several levels, including spelling differences (such as colour vs color), vocabulary (truck vs lorry), and a range of morphological, grammatical, semantic and pragmatic features. Baker explores the changing aspects of American and British society which help to explain the findings.

Abe Saperstein and the American Basketball League, 1960-1963 Murry R. Nelson, 2013-03-29 This book examines the American Basketball League and its short history, beginning with its conception in 1959-60 and its two seasons of play, 1961-1963. The league was the first to use a trapezoidal, wider lane and a 30-second shot clock, as well as the 3-point shot. With a team in Hawaii, the league created an adjusted schedule to accommodate the outsize distance. Many players such as Connie Hawkins and Bill Bridges and coaches such as Jack McMahon and Bill Sharman later found their way to the NBA after the collapse of the league, but it took more than 15 years for wide acceptance of the 3-point shot. John McLendon and Ermer Robinson were the first two African American coaches in a major professional league as they both debuted in the ABL.
