EA Sports FIFA Raiford Guins, Henry Lowood, Carlin Wing, 2022-07-14 If there is anything close to a universal game, it is association football, also known as soccer, football, fussball, fútbol, fitba, and futebol. The game has now moved from the physical to the digital - EA's football simulation series FIFA - with profound impacts on the multibillion sports and digital game industries, their cultures and players. Throughout its development history, EA's FIFA has managed to adapt to and adopt almost all video game industry trends, becoming an assemblage of game types and technologies that is in itself a multi-faceted probe of the medium's culture, history, and technology. EA Sports FIFA: Feeling the Game is the first scholarly book to address the importance of EA's FIFA. From looking at the cultures of fandom to analyzing the technical elements of the sports simulation, and covering the complicated relations that EA's FIFA has with gender, embodiment, and masculinity, this collection provides a comprehensive understanding of a video game series that is changing the way the most popular sport in the world is experienced. In doing so, the book serves as a reference text for scholars in many disciplines, including game studies, sociology of sports, history of games, and sports research.

Encyclopedia of Sports Management and Marketing Linda E. Swayne, Mark Dodds, 2011-08-08 This four-volume set introduces, on the management side, principles and procedures of economics, budgeting and finance; leadership; governance; communication; business law and ethics; and human resources practices; all in the sports context. On the marketing side this reference resource explores two broad streams: marketing of sport and of sport-related products (promoting a particular team or selling team- and sport-related merchandise, for example), and using

sports as a platform for marketing non-sports products, such as celebrity endorsements of a particular brand of watch or the corporate sponsorship of a tennis tournament. Together, these four volumes offer a comprehensive and authoritative overview of the state of sports management and marketing today, providing an invaluable print or online resource for student researchers.

The Victory Machine Ethan Sherwood Strauss,2021-03-02 The Golden State Warriors are the envy of the modern NBA. Chasing their third consecutive championship, they have assembled an incredible wealth of athletic talent, lead the league in merchandise sales, and are planning to move into a glitzy new stadium next season. Their owner, Joe Lacob, regularly hosts the top CEOs and influencers of Silicon Valley in his box, fashioning himself into one of the most powerful men in the world. Yet inside the organization, there is considerably more strife. In this breakthrough work of reportage, star NBA reporter Ethan Sherwood Strauss investigates the team's culture, its financial ambitions and struggles, and the toll that being a super-team can take. In so doing, he not only rewrites the story of the Warriors, but reveals how the Darwinian business of NBA basketball really works. Reconstructing the deals that lured Steph Curry away from Nike and Kevin Durant away from Oklahoma City, Strauss shows how the smallest mistakes can define success or failure for years. And, as he looks ahead to the 2020 season, Strauss ponders whether this organization can survive its own ambitions--

Sample Book Insights: #1 The Ilocos region of Luzon is a dry, impoverished area that was settled by Ilocano tribes. The first European to visit the area was Spanish conquistador Juan de Salcedo, who established the settlement of Manila in 1571. #2 The Ilocano are a very superstitious people, and their family cell and blood clan are extremely important to them. They are extremely loyal to these two things, and will do anything for them. #3 The Ilocanos, as a people, have a long history of dreaming of escaping their hometowns. They have been historically employed as domestics and drivers, but many have emigrated to undeveloped Mindanao, the Middle East, and Hawaii. #4 Ferdinand's father, Fructuoso Edralin, was a relatively prosperous peasant who owned 80 hectares of irrigated rice land and coffee plantation along the river in the barrio of Dingras near Sarrat. His mother, Josefa Edralin, was a tough, resourceful woman who had to work hard because her husband was a spendthrift.
