**Chinese Chess** H.T. Lau, 2011-12-20 Learn the ancient and fascinating game of Chinese Chess with this expert guide. Chinese chess, or elephant chess, has intrigued the powerful and the quizzical for centuries. Although its rules are similar to the well-known Western game, subtle and fascinating variations must be mastered in order to understand the strategies it requires. A great way to learn Chinese Chess, this book is simple enough for Chess beginners but contains a wealth of information and tips that experienced players will find useful as well. In Chinese Chess, author H.T. Lau explains the game's fundamentals--the rules, the board, and the basics with dozens of insightful diagrams. With the aid of 170 diagrams, Chinese Chess walks players through the board, the

movement and values of the pieces, basic rules for capturing and defeating an opponent, techniques and game-winning tactics. Once he's covered the basics, Lau introduces advanced tactics, methods for escaping difficult positions, and cunning strategies for winning. This book includes eighty mid- and end-game exercises designed to sharpen playing skills and strategy and concludes with two appendices devoted to the elegantly constructed games found in *The Secret Inside the Orange* and *The Plum-Blossom Meter*, two classic seventeenth-century works on Chinese chess.

**Mahjong** Annelise Heinz, 2021 *Mahjong: A Chinese Game and the Making of Modern American Culture* illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Mahjong narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it travelled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American pastime. This book also reveals the ways in which women leveraged a game for a variety of economic and cultural purposes, including entrepreneurship, self-expression, philanthropy, and ethnic community building. One result was the forging of friendships within mahjong groups that lasted decades. This study unfolds in two parts: the first half is focused on mahjong's history as related to consumerism, with a close examination of its economic and cultural origins. The second half of the book explores how mahjong interwove with the experiences of racial inclusion and exclusion in the evolving definition of what it means to be American. Mahjong players, promoters, entrepreneurs, and critics tell a broad story of American modernity. The apparent contradictions of the game - as both American and foreign, modern and

supposedly ancient, domestic and disruptive of domesticity - reveal the tensions that lie at the heart of modern American culture--

*What Board Games Mean To Me* Donna Gregory, Ian Livingstone, John Kovalic, Reiner Knizia, 2023-11-21 Celebrating the role that board games hold in our lives, celebrities, industry professionals and lifelong gamers share the remarkable and personal stories of their profound love for gaming. People want to feel good about their passions, their hobbies included. People want to talk about them, and to listen to others who share their enthusiasm. This book celebrates that sense of affinity while providing diverse perspectives on board games that will allow readers to reflect on what drives their passion in their own particular case. From uber-competitive players learning to lose with grace to the fascinating history of the very first games humans played, and bonding with far-away stepsiblings to the story of the first board game café in Africa, there's something here for everyone. WITH CONTRIBUTIONS FROM: Jervis Johnson, KC Ogbuagu, Allen Stroud, Gav Thorpe, Edoardo Albert, Will McDermott, Gabriela Santiago, Holly Nielsen, Fertessa Allyse Scott, Ian Livingstone, Alessio Cavatore, Sen-Foong Lim, John Kovalic, Reiner Knizia, Susan McKinley Ross, Leslie Scott, Geoff Engelstein, Calvin Wong, Jenn Bartlett, Cathleen Williams, Lynn Potyen, Matt Coward-Gibbs, Steve Jackson, Christopher John Eggett, James Wallis, Matt Forbeck, Donna Gregory, Jack Doddy

*Celebrating Board Games* Nina Chertoff, Susan Kahn, 2006 This beautiful and nostalgic pictorial celebration of board games will transport readers back to a simpler time, when child's play didn't involve video games or computer screens of any kind. More than 100 of the best are featured, from the 19th century until today, with pictures of both the boards and the various pieces. They include Animal Crackers, which dates from 1883; Across the Continent (1888); the ever-popular children's

favorite Candyland (1938); Nurse Ames (1944); the mystery game Clue (1950); Elvis (1958); and many more. Some are well-known, others more rare, but they will surely send readers scrambling to their old toy chests to play another round.

**Blind Savior, False Prophet** Joseph DeMarco, 2008-08 This is a real life espionage story. The author of this biography was lucky to live very unruly times in his country of origin, Cuba, during the last 71 years. He was able to see the history of those years from a different point of view: from his fight as a revolutionary to becoming a master spy. As a young man he experience the passion of making a revolution, and as a mature man he felt the moral depression that cause him the realization that the deaths of his comrades were in vain. In the process he discovered new, beautiful and rich countries and became homesick for many years. He saw himself as a hero, loved and admired by his family and his fellow citizens at the beginning of his adult life, and now sees himself as an old man waiting for death as a loner and deserter of his youth's ideals. This is a real life story about a human being trapped sometimes by his own decisions and in other occasions by the ironies of destiny, a person fighting to survive, and at the same time loving and taking care of his family the best he could. This is a real life story about political deceive and human miseries; about how one can fool oneself in life regarding what is right or wrong. But it is also the confirmation that at times one can achieve a goal if one does try hard.

**Heritage, Memory and Identity in Postcolonial Board Games** Michal Mochocki, 2023-08-04  
Heritage, Memory and Identity in Postcolonial Board Games is a unique edited collection that explores the interplay of heritage, memory, identity and history within postcolonial board games and their surrounding paratexts. It also examines critiques of these games within the gamer communities

and beyond. Drawing on a range of international contributions, examples and case studies, this book shows how colonialism-themed games work as representations of the past that are influenced by existing heritage narratives and discourses. It also considers the implications of using colonial histories in games and its impact on its audience, the games' players. *Heritage, Memory and Identity in Postcolonial Board Games* will be relevant to scholars and postgraduate students in the fields of game studies, game design or development, heritage studies, postcolonial criticism, media studies, and history. It will also be beneficial to practicing game developers.

**Lies, Half-Truths, and More Lies** Herb W. Reich, 2017-09-12 History is replete with stories of great people and extraordinary events that either never happened or didn't happen the way we were told they did. Such news or embellishment thereof are part of what we consider common knowledge - information taught in schools and passed down to us. And they are wrong. How about these gems: The winter of 1777-78 was the coldest winter in Valley Forge in years, and many Continental soldiers died from the sub-zero weather: LIE Mohandas Gandhi held a lifelong belief in nonviolence,

that characterized the struggle for Indian independence: LIE The atomic bombings of Hiroshima and Nagasaki were the most destructive air strikes against Japan during World War II: LIE Lies, Lies, and More Lies is a humorous, witty, and charming collection of anecdotes surrounding history, pop culture, and more. It is a book that will have readers questioning what they've learned or been told and, for these 250 facts anyway, the book advises you: Don't You Believe It!

*Honor Bound* Stuart I. Rochester, Frederick T. Kiley, 1998 *Honor Bound* is the result of a fruitful collaboration between Stuart I. Rochester and Frederick Kiley. In examining the lives of the prisoners in captivity, it presents a vivid, sensitive, sometimes excruciating, account of how men sought to cope with the physical and psychological torment of imprisonment under wretched and shameful conditions. It includes insightful analyses of the circumstances and conditions of captivity and its varying effects on the prisoners, the strategies and tactics of captors and captives, the differences between captivity in North and South Vietnam and between Laos and Vietnam, and analysis of the quality of the source materials for this and other works on the subject.

**The Magic of Ceramics** David W. Richerson, 2012-11-05 Most people would be surprised at how ceramics are used, from creating cellular phones, radio, television, and lasers to its role in medicine for cancer treatments and restoring hearing. *The Magic of Ceramics* introduces the nontechnical reader to the many exciting applications of ceramics, describing how ceramic material functions, while teaching key scientific concepts like atomic structure, color, and the

electromagnetic spectrum. With many illustrations from corporations on the ways in which ceramics make advanced products possible, the Second Edition also addresses the newest areas in ceramics, such as nanotechnology.
