Syria's Secret Library Mike Thomson,2019-08-20 The remarkable story of a small, makeshift library in the town of Daraya, and the people who found hope and humanity in its books during a four-year siege. Daraya lies on the fringe of Damascus, just southwest of the Syrian capital. Yet for four years it lived in another world. Besieged by government forces early in the Syrian Civil War, its people were deprived of food, bombarded by heavy artillery, and under the constant fire of snipers. But deep beneath this scene of frightening devastation lay a hidden library. While the streets above echoed with shelling and rifle fire, the secret world below was a haven of books. Long rows of well-thumbed volumes lined almost every wall: bloated editions with grand leather covers, pocket-sized guides to Syrian poetry, and no-nonsense reference books, all arranged in well-ordered lines. But this precious horde was not bought from publishers or loaned by other libraries--they were the books salvaged and scavenged at great personal risk from the doomed city above. The story of this extraordinary place and the people who found purpose and refuge in it is one of hope, human resilience, and above all, the timeless, universal love of literature and the compassion and wisdom it fosters.

Our Subway Baby Peter Mercurio,2020-09-15 This gentle and incredibly poignant picture book tells the true story of how one baby found his home. Some babies are born into their families. Some are adopted. This is the story of how one baby found his family in the New York City subway. So begins the true story of Kevin and how he found his Daddy Danny and Papa Pete. Written in a direct address to his son, Pete's moving and emotional text tells how his partner, Danny, found a baby tucked away in the corner of a subway station on his way home from work one day. Pete and Danny ended up adopting the baby together. Although neither of them had prepared for the prospect of parenthood, they are reminded, Where there is love, anything is possible.

The BBC Tom Mills,2020-10-13 The BBC: the mouthpiece of the Establishment? The BBC is one of the most important institutions in Britain; it is also one of the most misunderstood. Despite its claim to be independent and impartial, and the constant accusations of a liberal bias, the BBC has always sided with the elite. As Tom Mills demonstrates, we are only getting the news that the Establishment wants aired in public. Throughout its existence, the BBC has been in thrall to those in power. This was true in 1926 when it stood against the workers during the General Strike, and since then the Corporation has continued to mute the voices of those who oppose the status quo: miners in 1984; anti-war protesters in 2003; those who offer alternatives to austerity economics since 2008. From the outset much of its activity has been scrutinised by the secret services at the invitation of those in charge. Since the 1990s the BBC has been integrated into the market, while its independence from government and big business has been steadily eroded. The BBC is an important and timely examination of a crucial public institution that is constantly under threat.

The Origins of the Koran Ibn Warraq, 2010-10-05 Scholars of Islam are familiar with the Koran's many errors and contradictions, but these have rarely been revealed to a wider public. THE ORIGINS OF THE KORAN is an attempt to remedy this deficiency by bringing together classic critical essays which raise key issues surrounding Islam's holy book. Indispensable to scholars and all those interested in the textual underpinning of one of the fastest growing religions in the world.

Teach Like Finland: 33 Simple Strategies for Joyful Classrooms Timothy D. Walker, 2017-04-18 Easy-to-implement classroom lessons from the world's premier educational system. Finland shocked the world when its fifteen-year-olds scored highest on the first Programme for International Student Assessment (PISA), a set of tests touted for evaluating critical-thinking skills in math, science, and reading. That was in 2001; but even today, this tiny Nordic nation continues to amaze. How does Finnish education—with short school days, light homework loads, and little standardized testing—produce students who match the PISA scores of high-powered, stressed-out kids in Asia? When Timothy D. Walker started teaching fifth graders at a Helsinki public school, he began a search for the secrets behind the successes of Finland's schools. Walker wrote about several of those discoveries, and his Atlantic articles on this subject became hot topics of conversation. Here, he gathers all he learned and reveals how any teacher can implement many of Finland's best practices. Remarkably, Finland is prioritizing the joy of learning in its newest core curricula and Walker carefully highlights specific strategies that support joyful K-12 classrooms and integrate seamlessly with educational standards in the United States. From incorporating brain breaks to offering a peaceful learning environment, this book pulls back the curtain on the joyful teaching practices of the world's most lauded school system. His message is simple but profound: these Finland-inspired strategies can be used in the U.S. and other countries. No educator—or parent of a school-aged child—will want to miss out on the message of joy and change conveyed in this book.

From Our Own Correspondent Tony Grant, 2010-07-09 The flagship Radio 4 programme *From Our Own Correspondent* gives Britain's most celebrated reporters the chance to describe much more than they can in a normal report: context, history and characters encountered en route. And for the fiftieth anniversary of the programme Profile collected together the programme's best pieces. *From Our Own Correspondent* has been one of BBC Radio 4's flagship programmes for fifty years. And this book, containing dispatches from all around the world, shows why FOC, as it is affectionately known, has become such a well-known and much-loved institution. It contains not only the observations of journalists covering the big news events of the day, but also their personal insights into how people around the world live their lives. There are dispatches from Misha Glenny in Russia, Mark Tully in India, Charles Wheeler in the USA, Jeremy Vine in the Congo, Ben Brown in Zimbabwe and Orla Guerin in the West Bank. All offer a unique perspective describing the background to events around the world as they happen.

Television News Ivor Yorke, 2013-04-03 A straightforward account of the editorial and production processes used by journalists to bring television news to the viewer. It is an invaluable text for students on journalism courses, print and radio journalists moving into television and TV journalists wishing to update their knowledge. Takes into account the latest practices and issues in the television industry. This fourth edition has been thoroughly updated to take account of the latest practices and issues in the television industry. It includes new illustrations of developments from both a technological and an editorial perspective. In a changing broadcasting environment, newcomers to television journalism are finding themselves entering a world in which an empathy with technology is as important as a way with words. The newsroom itself is now completely computerized and consequently new skills and working methods need to be mastered to take account of the revolutionary advances.

Social Media at BBC News Valerie Belair-Gagnon, 2015-02-11 Since the emergence of social media in the journalistic landscape, the BBC has sought to produce reporting more connected to its audience while retaining its authority as a public broadcaster in crisis reporting. Using empirical analysis of crisis news production at the BBC, this book shows that the emergence of social media at the BBC and the need to manage this kind of material led to a new media logic in which tech-savvy journalists take on a new centrality in the newsroom. In this changed context, the politico-economic and socio-cultural logic have led to a more connected newsroom involving this new breed of journalists and BBC audience. This examination of news production events shows that in the midst of transformations in journalistic practices and norms, including newsgathering, sourcing, distribution and impartiality, the BBC has reasserted its authority as a public broadcaster. News from the BBC, CNN, and Al-Jazeera Leon Barkho, 2010 The three gigantic media corporations, the BBC, CNN and Al-Jazeera, are largely responsible for refining and shaping our views of events in the world. Their informational and communicative arm is unprecedented in the history of human communication. This book deals with their Middle East coverage, particularly the Israeli-Palestinian struggle and the war in Iraq.--[book cover].

The Noble Liar Robin Aitken, 2020-06-30 To some, it is the voice of the nation, yet to others it has never been clearer that the BBC is in the grip of an ideology that prevents it reporting fairly on the world. Many have been scandalised by its pessimism on Brexit and its one-sided presentation of the Trump presidency, whilst simultaneously amused by its outrage over 'fake news'. This punchy polemic galvanises the debate over how our licence-fee money is spent, and asks whether the BBC is a fair arbiter of the news, or whether it is a conduit for pervasive and institutional liberal left-wing bias.

Can We Trust the BBC? Robin Aitken, 2008-04-14 This book asks a big question: can we trust the BBC? As the most famous media brand in the world, the BBC is growing bigger and more powerful every year. Its reputation depends on honest and accurate journalism. But this book argues that the Corporation's own pervasive left wing political culture imperils its impartiality. It demonstrates how some groups and viewpoints get favourable treatment while others are left out in the cold. The book examines the concept of 'public sector broadcasting' and asks if that has come to mean simply radio and television free of commercial bias. It argues that there are other 'hidden persuaders' that we the audience should be alert to. Drawing on the author's twenty-five years as a BBC reporter and executive, the book blends analysis and sharp polemic to paint a vivid picture of life inside the news machine from a uniquely privileged point of view. It also tells the story of how the BBC responded to a dissident in its own ranks. With the future of the BBC the subject of a government White Paper, Robin Aitken responds to the criticism of the book by many ex-BBC employees through the media spectrum on its initial publication, and details his correspondence with current employees over his decision to publish. This book is a timely contribution to the ongoing debate about public broadcasting.

Can We Still Trust the BBC? Robin Aitken, 2013-05-23 The scandals that have rocked the BBC have touched the corporation from top to bottom. As the revelations about Jimmy Savile unfold and shock the nation, people may reasonably ask what possible trust they can have in this incomparable national institution, once the embodiment of truth and moral excellence. This book asks a big question: can we still trust the BBC? Drawing on his earlier book, *Can We Trust the BBC?*, Robin Aitken, a BBC reporter and executive for 25 years, argues that these most recent controversies are rooted in longstanding lapses and shortcomings in the BBC's doctrine of impartiality. In the wake of the Jimmy Savile scandal, he considers how 'public sector broadcasting' can survive now that public trust in the BBC has been jeopardized. This book blends analysis and sharp polemic to paint a vivid picture of life inside the news machine, as well as the Light Entertainment department, giving the reader unique insight into

the context in which the scandals revealed in 2012 unfolded. Everything Robin Aitken prophesised in his original book has come true. His analysis at least is to be trusted.

20 Things That Would Make the News Better Roger Mosey, 2022-06-21 A brilliant A-to-Z for the modern newsroom. – Jeremy Vine A must-read. – Julie Etchingam Highly recommended reading. – Justin Webb *** We are at a defining point in the history of news. Following a surge of fake news, clickbait and conspiracy theories, the 2020s have ushered in a welter of existential threats for public service broadcasting. So, where do we go from here? Former Today editor and head of BBC television news Roger Mosey thinks public service broadcasters must buck the trends and in this incisive book he offers twenty core ways in which the news can save itself by getting smarter, sharper, more diverse, more nuanced and less exposed to pummelling by politicians. Mosey sees two possible futures: one in which the incitements of populist demagogues and the passions of social media are ever dominant – or one where we fight hard to retain media that has an interest in the public good and preserves truth, fairness and evidence-based judgements. From one of British broadcasting's most experienced voices comes the definitive exploration of Britain's news output and what must change if we are to avoid a future of uninspiring news, uninformed decision-making and accountability-dodging politicians.
