

A Case of Exploding Mangoes Mohammed Hanif, 2010-10-29 Teasing, provocative, and very funny, Mohammed Hanif's debut novel takes one of the subcontinent's enduring mysteries and out of it spins a tale as rich and colourful as a beggar's dream. Why did a Hercules C130, the world's sturdiest plane, carrying Pakistan's military dictator General Zia ul Haq, go down on 17 August, 1988? Was it because of: 1. Mechanical failure 2. Human error 3. The CIA's impatience 4. A blind woman's curse 5. Generals not happy with their pension plans 6. The mango season Or could it be your narrator, Ali Shigri? Here are the facts: • A military dictator reads the Quran every morning as if it was his daily horoscope. • Under Officer Ali Shigri carries a deadly message on the tip of his sword. • His friend Obaid answers all life's questions with a splash of eau de cologne and a quote from Rilke. • A crow has crossed the Pakistani border illegally. As young Shigri moves from a mosque hall to his military barracks before ending up in a Mughal dungeon, there are questions that haunt him: What does it mean to betray someone and still love them? How many names does Allah really have? Who killed his father, Colonel Shigri? Who will kill his killers? And where the hell has Obaid disappeared to?

Islamic Law and the Law of Armed Conflict Niaz A Shah, 2011-03-03 Islamic Law and the Law of Armed Conflict: The Conflict in Pakistan demonstrates how international law can be applied in Muslim states in a way that is compatible with Islamic law. Within this broader framework of compatible application, Niaz A. Shah argues that the Islamic law of qital (i.e. armed conflict) and the law of armed conflict are compatible with each other and that the former can complement the latter at national and regional levels. Shah identifies grey areas in the Islamic law of qital and argues for their expansion and clarification. Shah also calls for new rules to be developed to cover what he calls the blind spots in the Islamic law of qital. He shows how Islamic law and the law of armed conflict could contribute to each other in certain areas, such as, the law of occupation; air and naval warfare; and the use of modern weaponry. Such a contribution is neither prohibited by Islamic law nor by international law. Shah applies the Islamic law of qital and the law of armed conflict to a live armed conflict in Pakistan and argues that all parties, the Taliban, the security forces of Pakistan and the American CIA, have violated one or more of the applicable laws. He maintains that whilst militancy is a genuine problem, fighting militants does not allow or condone violation of the law. Islamic Law and the Law of Armed Conflict will be of interest to students and scholars of international law, Islamic law, international relations, security studies and south-east Asian studies.

Diasporas and Diplomacy Marie Gillespie, Alban Webb, 2013 This volume links contemporary debates on cosmopolitanism to historical and comparative case studies on international broadcasting. The work of the BBC World Service 2008-09 Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2010-02-05 The Committee welcomes a strong performance by the BBC World Service across all media in 2008-09, particularly the unprecedented growth in online audiences. The report examines the overall performance, noting a global reach in radio and television of 185 million adults a week and the high regard for objectivity and relevance achieved by the Service in surveys of customers. Ratings for value and loyalty were also high in some countries. The report then reviews specific successes and problems in particular countries or services: BBC Arabic television; BBC Persian television; other language services; online and mobile technology; China; Russia; Sri Lanka; Rwanda; Azerbaijan; and administration. The Committee concludes that 2009-10 will be a difficult year for the BBC World Service and that further cuts in staff and services should be avoided. The World Service is of key importance in providing a source of high quality and politically independent broadcasting worldwide.

Tales from Bush House Hamid Ismailov, 2012

Media Imperialism in India and Pakistan Farooq Sulehria, 2018-01-02 Examining anew the notions of media imperialism and globalization of media, this book disrupts the generalised consensus in media scholarship that globalization of media has put an end to media imperialism. One elemental aspect of media imperialism is the structural dependency of television systems in the global South on the imperial North. Taking India and Pakistan as its case studies, this book views globalization of media as the unleashing of processes that have translated into the liberalization of air waves and privatization of television systems whereby commercialization of television is privileged over public interest television. Additionally, it argues that the globalization of media has contributed to corruption, tabloidization, and marginalization of subaltern classes in the Indian and Pakistani media.

Pakistan Rohan Gunaratna, Khuram Iqbal, 2012-01-01 As made abundantly clear in the classified documents recently made public by WikiLeaks, Pakistan is the keystone in the international fight against terrorism today. After the US-led coalition targeted terrorist groups operating in Afghanistan, these groups, including al Qaeda and the Taliban, relocated to the Federally Administered Tribal Area of Pakistan. From its base in this remote, inhospitable region of Pakistan, al Qaeda and its associated cells have planned, prepared, and executed numerous terrorist attacks around the world, in addition to supporting and waging insurgencies in Iraq, Afghanistan, Yemen, Somalia, and elsewhere. This book is the first detailed analysis of the myriad insurgent groups working in Pakistan. Written by well-known expert on global terrorism Rohan Gunaratna and Khuram Iqbal, a leading scholar in Pakistan, the book examines and reviews the nature, structure, and agendas of the groups, their links to activists in other countries, such as India and Iran, and the difficulties of defeating terrorism in this part of the world. Drawing on extensive field research and interviews with government officials and former terrorists, the authors argue that Pakistan faces grave and continuing pressures from within, and that without steadfast international goodwill and support, the threats of extremism, terrorism, and insurgency will continue to grow. This timely and necessary book argues that if the international community is to win the battle against ideological extremism and operational terrorism around the world, then Pakistan should be in the vanguard of the fight.

Dreams Interrupted Engin Yiğit, Advocates of Silenced Turkey, 2024-01-18 This book presents an earnest insight into the hardships faced by the PakTurk International Schools & Colleges and the dedicated Hizmet volunteers who contributed to make these educational institutions a success story in academics and social standing. South Asia Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2007-05-04 South Asia is inhabited by some 1.4 billion people, and is one of the world's most dynamic economic regions. This report focuses on India, the geopolitical centre of the region, the world's biggest democracy, and expected to overtake the UK as the fifth largest economy within a decade. It examines: political and economic developments in India and its growing importance; relations between India and Pakistan, and the question of Kashmir; India's role in the region and its links with its neighbours; India's contribution to the international system, including to the United Nations and other multilateral fora, such as the non-proliferation regimes; and the roles of the United Kingdom and the European Union in South Asia.

Countering Insurgencies and Violent Extremism in South and South East Asia Shanthie Mariet D'Souza, 2019-01-08 This volume of case studies examines the rise in violent extremism, terrorism and insurgency in South and South East Asia, and subsequent state responses. The South and South East of Asia has experienced various forms of extremism and violence for years, with a growing demand for academic or policy-relevant work that will enhance understanding of the reasons behind this. The violent challenges in this area have taken a variety of forms and are often exacerbated by lack of governance, tie-ins to existing regional criminal networks, colonial legacies and a presence of international terrorist movements. Written by experts with field experience, this volume analyzes the key element of successful response as the appropriate application of doctrine following nuanced assessment of threat. In practice, this often means counterinsurgency doctrine. The essays also analyze the need for irregular war

practitioners to systematically examine the changing character of intrastate violent irregular challenges. The volume fills a gap in the understanding of patterns, drivers, organizations and ideologies of various insurgent and terrorist groups, and state responses. It also provides a set of recommendations for addressing the unfolding situation. This book will be of much interest to students of terrorism and political violence, counterinsurgency and counterterrorism, Asian politics and security studies in general.

Social Media at BBC News Valerie Belair-Gagnon,2015-02-11 Since the emergence of social media in the journalistic landscape, the BBC has sought to produce reporting more connected to its audience while retaining its authority as a public broadcaster in crisis reporting. Using empirical analysis of crisis news production at the BBC, this book shows that the emergence of social media at the BBC and the need to manage this kind of material led to a new media logic in which tech-savvy journalists take on a new centrality in the newsroom. In this changed context, the politico-economic and socio-cultural logic have led to a more connected newsroom involving this new breed of journalists and BBC audience. This examination of news production events shows that in the midst of transformations in journalistic practices and norms, including newsgathering, sourcing, distribution and impartiality, the BBC has reasserted its authority as a public broadcaster. The Pashtun Question Abubakar Siddique,2014-06-15 Most contemporary journalistic and scholarly accounts of the instability gripping Afghanistan and Pakistan have argued that violent Islamic extremism, including support for the Taliban and related groups, is either rooted in Pashtun history and culture, or finds willing hosts among their communities on both sides of the Afghanistan-Pakistan border. Abubakar Siddique sets out to demonstrate that the failure, or even unwillingness, of both Afghanistan and Pakistan to absorb the Pashtuns into their state structures and to incorporate them into the economic and political fabric is central to these dynamics, and a critical failure of nation- and state-building in both states. In his book he argues that religious extremism is the product of these critical failures and that responsibility for the situation lies to some degree with the elites of both countries. Partly an eye-witness account and partly meticulously researched scholarship, *The Pashtun Question* describes a people whose destiny will shape the future of Pakistan and Afghanistan.

The UK's foreign policy approach to Afghanistan and Pakistan Great Britain: Parliament: House of Commons: Foreign Affairs Committee,Richard Ottaway,2011-03-02 In this report the Foreign Affairs Committee calls on the British Government to use its influence to persuade the US to engage more fully, and swiftly, with the process of political reconciliation in Afghanistan if the US wishes to disengage its forces there. Although the current international emphasis favours intense military pressure, aimed at defeating the insurgency, it is clear that military pressure alone is not enough to bring security and stability to Afghanistan. The evidence presented to the Committee has suggested that the current full-scale and highly-intensive ISAF counter-insurgency campaign is not succeeding. The Committee question the fundamental assumption that success in Afghanistan can be 'bought' through a strategy of 'clear, hold and build'. The distinction between al-Qaeda and the Taliban is crucial to generating appropriate policy responses in Afghanistan. The Committee says that despite the significant resources that have been invested in Afghanistan, and the enduring, wholehearted and admirable commitment and sacrifices of British personnel, the UK has not yet achieved its stated goals. There is also evidence that the core foreign policy justification for the UK's continued presence in Afghanistan, namely that it is necessary in the interests of UK national security, may have been achieved some time ago, given the apparently limited strength of al-Qaeda in Afghanistan. The security rationale behind the UK Government's decision to announce the 2015 deadline for the unconditional withdrawal of UK combat forces remains unclear and there are a number of potential risks inherent in such an approach.

Talibanistan Peter Bergen,Katherine Tiedemann,2013-02-14 Essays by experts exploring the intersection of geography, religion, foreign policy, and terrorism in Afghanistan and Pakistan.

The implications of cuts to the BBC World Service Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2011-04-13 The Foreign Affairs Committee believes the BBC World Service is of such value to the nation that its income should be ring-fenced against spending cuts. The Service has suffered a disproportionate reduction in its future Grant-in-Aid under the spending review settlement, by comparison with that of the 'core FCO': allowing for inflation, 16% as against 10% across the four years 2010-11 to 2014-15. High-level discussions between the Government and the BBC about a transfer of funding responsibility started only nine days before the formal announcement of the change. The report says that the decision to reduce World Service spending by 16% during the 2010 spending review period should be reversed, and resources made available for it to continue its operations at roughly the 2010-11 level of staffing and output. If the Service's funding is reduced in spite of this recommendation, the committee urges for damage limitation with an unreduced BBC Hindi and BBC China Mandarin shortwave service, and enhanced resources to BBC Arabic as required by the recent and continuing political developments in the region. Some of the activity of the World Service contributes to the wider aims of the Department for International Development, and a transfer of just 0.35% of DFID's resource budget over the next three years would compensate for the proposed 16% reduction in World Service funding. There is no reason why such a transfer should not be made if the political will to carry it out is present.

Trade Liberalisation and Regional Disparity in Pakistan Muhammad Shoaib Butt,Jayatileke S. Bandara,2008-12-04 Pakistan's military, which has directly controlled the country's affairs for more than half of its post-independence history and which often retained real political power even during periods of democratic rule, has played a significant role in trade liberalisation. Regional disparities have increased since the beginning of major trade liberalisation attempts in the 1980s and at present, regional conflicts and the associated regional disparities are extremely high. The authors critically review the country's post-independence political economy of trade liberalisation, the resulting structural change and the story of regional disparities, identifying possible relations with political regimes. Using a regional computable general equilibrium (CGE) model, the effects of trade liberalisation on regional disparities are quantitatively examined, with an emphasis on the key export industries at a national level and on the relative output and employment growth at a regional level. In the first study to distinguish a possible link between trade liberalisation and regional disparities under dissimilar political regimes, such as autocracy and democracy, Butt and Bandara use Pakistan as a case study to draw broader lessons for other developing countries. This book will be of interest to academics, economists, political analysts and policymakers interested in development economics in general and South Asia in particular.

The Making of Pakistani Human Bombs Khuram Iqbal,2015-10-30 Based on interviews with failed suicide bombers, officials of Pakistani law enforcement agencies involved in interrogating high-profile self-immolation attacks, and content analysis of Jihadi publications produced in local languages, this book offers the first empirically grounded analysis of suicide terrorism in Pakistan.
