The Symphonic Repertoire, Volume V Brian Hart,2024-01-02 Central to the repertoire of Western art music since the 1700s, the symphony has come to be regarded as one of the ultimate compositional challenges. In his series The Symphonic Repertoire, the late A. Peter Brown explored the symphony in Europe from its origins into the 20th century. In Volume V, Brown's former students and colleagues continue his vision by turning to the symphony in the Western Hemisphere. It examines the work of numerous symphonists active from the early 1800s to the present day and the unique challenges they faced in contributing to the European symphonic tradition. The research adds to an unmatched compendium of knowledge for the student, teacher, performer, and sophisticated amateur. This much-anticipated fifth volume of The Symphonic Repertoire: The Symphony in the Americas offers a user-friendly, comprehensive history of the symphony genre in the United States and Latin America.

The European Symphony from Ca. 1800 to Ca. 1930 A. Peter Brown,2007 The third volume to appear in the magnum opus of A. Peter Brown takes as its topic the European symphony ca. 1800-ca. 1930 and is divided into two parts. Brown's series synthesises an enormous amount of scholarly literature in a wide range of languages.

The Symphonic Repertoire: pt. A. The European symphony from ca. 1800 to ca. 1930 : Germany and the Nordic countries A. Peter Brown,2002 The third volume to appear in the magnum opus of A. Peter Brown takes as its topic the European symphony ca. 1800-ca. 1930 and is divided into two parts. The first part focuses on the symphonies of Germany and the Nordic countries and discusses in great detail the symphonies of Weber, Spohr, Mendelssohn, Schumann, Lindblad, Berwald, Svendsen, Gade, Nielsen, Sibelius, Berlioz, Liszt, Raff, and Strauss. Volume 3B will appear in fall 2007 and will examine the symphonies of Great Britain, Russia, and France during the same period. Brown's series synthesizes an enormous amount of scholarly literature in a wide range of languages. It presents current overviews of the status of research, discusses important former or remaining problems of attribution, illuminates the style of specific works and their contexts, and samples early writings on their reception.

The Symphonic Repertoire, Volume IV A. Peter Brown,2024-03-29 Central to the repertoire of Western art music since the 18th century, the symphony has come to be regarded as one of the ultimate compositional challenges. Surprisingly, heretofore there has been no truly extensive, broad-based treatment of the genre, and the best of the existing studies are now several decades old. In this five-volume series, A. Peter Brown explores the symphony from its 18th-century beginnings to the end of the 20th century. Synthesizing the enormous scholarly literature, Brown presents up-to-date overviews of the status of research, discusses any important former or remaining problems of attribution, illuminates the style of specific works and their contexts, and samples early writings on their reception. The Symphonic Repertoire provides an unmatched compendium of knowledge for the student, teacher, performer, and sophisticated amateur. The series is being launched with two volumes on the Viennese symphony. Volume IV The Second Golden Age of the Viennese Symphony Brahms, Bruckner, Dvorák, Mahler, and Selected Contemporaries Although during the mid-19th century the geographic center of the symphony in the Germanic territories moved west and north from Vienna to Leipzig, during the last third of the century it returned to the old Austrian lands with the works of Brahms, Bruckner, Dvorák, and Mahler. After nearly a half century in hibernation, the sleeping Viennese giant awoke to what some viewed as a reincarnation of Beethoven with the first hearing of Brahms's Symphony No. 1, which was premiered at Vienna in December 1876. Even though Bruckner had composed some gigantic symphonies prior to Brahms's first contribution, their full impact was not felt until the composer's complete texts became available after World War II. Although Dvorák was often viewed as a nationalist composer, in his symphonic writing his primary influences were Beethoven, Schubert, and Brahms. For both Bruckner and Mahler, the symphony constituted the heart of their output; for Brahms and Dvorák, it occupied a less central place. Yet for all of them, the key figure of the past remained Beethoven. The

symphonies of these four composers, together with the works of Goldmark, Zemlinsky, Schoenberg, Berg, Smetana, Fibich, Janáček, and others are treated in Volume IV, *The Second Golden Age of the Viennese Symphony*, covering the period from roughly 1860 to 1930.

Pro Mundo - Pro Domo Bryan R. Simms, 2017-03-01 *Pro Mundo - Pro Domo: The Writings of Alban Berg* contains new English translations of the complete writings of the Viennese composer Alban Berg (1885-1935) and extensive commentaries tracing the history of each essay and its connection to musical culture of the early twentieth century. Berg is now recognized as a classic composer of the modern period, best known for his operas *Wozzeck* and *Lulu*. Berg, Anton Webern, and their teacher Arnold Schoenberg constitute the Second Viennese School, which played a major role in the transformation of serious music as it entered the modern period. Berg was an avid and skillful writer. His essays include analytic studies of compositions by Schoenberg, polemics on music and musicians of his day, and lectures and miscellaneous writings on a variety of topics. Throughout his considerable and diverse corpus of writings, Berg alternates between two perspectives: *Pro Mundo - Pro Domo*, meaning roughly speaking for all - speaking for myself, commenting at one moment on the general state of culture and the world, and the next moment on his own works. In his early years he also tried his hand at fictional writing, using works by Ibsen and Strindberg as models. This new English edition contains 47 essays, many of which are little known and have not been previously available in English.

The Symphonic Repertoire, Volume IV A. Peter Brown, 2003-08-07 This volume contains the symphonies of Brahms, Bruckner, Dvorák and Mahler, covering the period from roughly 1860 to 1930. Other contemporaries are discussed including Goldmark, Zemlinsky and Berg.
