Not What I Expected Rita Eichenstein PhD,2015-04-07 Finalist for a Books for a Better Life Award A pediatric neuropsychologist presents strategies to help parents of special-needs children navigate the emotional challenges they face. As diagnosis rates continue to rise for autism, ADHD, learning disabilities, and other developmental differences, parents face a maze of medical, psychological, and educational choices – and a great deal of emotional stress. Many books address children’s learning or behavior problems and advise parents what they can do to help their kids, but until Not What I Expected: Help and Hope for Parents of Atypical Children there were no books that explain what the parents are going through - and how they can cope with their own emotional upheaval – for their own sake, and for the wellbeing of the whole family. With compassion, clarity, and an emphasis on practical solutions, Dr. Rita Eichenstein's Not What I Expected: Help and Hope for Parents of Atypical Children walks readers through the five stages of acceptance (similar to the stages of grief, but modified for parents of special-needs kids). Using vivid anecdotes and suggestions, she helps readers understand their own emotional experience, nurture themselves in addition to their kids, identify and address relationship wounds including tension in a marriage and struggles with children (special-needs and neurotypical), and embrace their child with acceptance, compassion and joy.

Going to the Beach! Amanda Hembrow,2018-10-23 Mom talk about this book: Really helped my 2 kids in learning how to prepare themselves before going to beach!! have a 6 and 7 years old boys and we are active in going to beach 4-5 times a year. As a mother I want them to learn how they can organize their things whenever we go to the beach and luckily I have found this book in kindle and I download it, and I let them read it. 3 days later my 7 years old son Nathan told me that he now knows how what to bring and how he can prepare himself when we visit the beach next

time and promise me that he will teach his brother everything he knew. Great book and very helpful for kids! You can discuss and negotiate with your toddler about everything! Yes, you do! Hope this book will help you, because book describes typical mother-child interactions in everyday life. You are going somewhere with your toddlers, maybe to the beach. They are so excited and they are ready before you. They run to brush their teeth and wash. But you have one problem, your child wants to take all of his or her favorite toys. All! Of course, you don't want to take any extra things to the beach. And maybe you are like me and you think that you need to explain, not order, to the child to take only the necessary toys. I made this special book for this occasion. I hope it will make these routine easy for toddlers and their Moms and Dads. Catchy illustrations attract the attention of your sweet one. Child-friendly texts will help your toddler understand and ponder. You and your kids will love this book.

Children as Citizens Pauline Harris, Harry Manatakis, 2013-12-17 This book discusses how consultations with young children could signal a change of thinking about how children might influence policy and shape the development of a child-friendly state. While the consultations in this study were germane to political decisions, they took place as multi-modal dialogue with children in their educational settings. Framed by Australia's national early years learning framework which focuses on children's belonging and identity, the consultations saw unique partnerships formed among children, educators, families and policy officers, providing ways in which children's voices may be engaged in educational spaces throughout the world. Using a qualitative case study approach, these consultations were documented through observations, interviews, artefact collection and document analyses, allowing the authors to construct a framework for engaging children as citizens that is transferable to a variety of settings. Chapters provide: • an insight into the various aspects involved in children's consultations from conceptualizing and planning consultations with young children, to implementation and documentation, through to the uptake and consequence of children's messages; • factors that contribute to the effectiveness of consultations, challenges that arise, and areas for improvement when engaging with children's voices; • implications for children's participation as valued citizens and a framework for considering young children's voices in decision-making processes. This book offers fresh ideas for working with young children in the decision making process and will appeal to early childhood researchers, educators, policymakers and practitioners across various sectors, agencies and disciplines.
