**Housing Market Response to Sea-Level Rise in Florida** Risa Palm, Toby Bolsen, 2021-11-17 South Florida continues to attract new residents despite its susceptibility to sea-level rise. This book explores the views of real estate agent with respect to how prospective homebuyers assess the risk of flooding. It reports on their observations as to whether house prices are stagnant or falling in coastal areas vulnerable to flooding, and their conclusions after working with prospective homebuyers as to whether coastal south Florida is a good place to find a home or,

alternatively, a risky investment in a place that will eventually be submerged by rising seas. The book reports on a 2020 survey of real estate agents and concludes that it is not clear that the housing market has integrated flood risk either into reduced demand for housing or in reduced prices for houses susceptible to flooding. These conclusions have important implications for understanding how the risks of climate change and sea-level rise are reflected in the housing market both now and in the near-term future.

**All Real Estate Is Local** David Lereah, 2007-04-03 Whatever the national trends are with regard to real estate – whether they are booming or busting—what really matters is what the market conditions are in your region, town, or neighborhood. For as David Lereah points out, in the end, all real estate is local. What does that mean? Even during the real estate boom of 2001-2005, a great many cities and regions did not participate in the boom—they lagged behind, or even decreased in value. Similarly, when prices began to fall nationally, there were plenty of regions and locales where prices rose, and sales boomed. As Lereah makes clear, the most important factor in buying or selling a home isn't what is going on nationally—it is what is going on in your local market. Evaluating present and future trends and influences in your region or neighborhood is essential to creating long term wealth, whether you are in a buyer's or a seller's market. And David Lereah, as the Chief Economist for the National Association of Realtors, shows you how to determine the conditions in your neighborhood. Lereah reveals how to: Evaluate the DNA of homes in the town or county or region you are considering (every town has its own real estate DNA—the characteristics that make a region or city more or less desirable to live in). Determine whether property values in your targeted neighborhood are on the rise. Research future real estate influences and trends, from migration into or out of the region, to plans to attract or develop new businesses in the area. Understand the local factors that can affect your investment in the future. Countless books offer advice on how to buy and sell a home. But ALL REAL ESTATE IS LOCAL is the first book to explain how knowing the ins and outs of the local market you are targeting is essential to deciding when, where, and what to buy.

**Your Place at the Beach** Walter Clark, 1987

Underwater Ryan Dezember, 2020-07-14 Winner of the Bruss Real Estate Book Award His assignment was to write about a real-estate frenzy lighting up the Redneck Riviera. So Ryan Dezember settled in and bought a home nearby himself. Then the market crashed, and he became one of the millions of Americans who suddenly owed more on their homes than they were worth. A flood of foreclosures made it impossible to sell. It didn't help that his quaint neighborhood fell into disrepair and drug-induced despair. He had no choice but to become a reluctant and wildly unprofitable landlord to move on. Meanwhile, his reporting showed how the speculative mania that caused the crash opened the U.S. housing market to a much larger breed of investors. In this deeply personal story, Dezember shows how decisions on Wall Street and in Washington played out on his street in a corner of the Sunbelt that was convulsed by the foreclosure crisis. Readers will witness the housing market collapse from Dezember's perch as a newspaper reporter. First he's in the boom-to-bust South where a hot-air balloonist named Bob Shallow becomes one of the world's top selling real-estate agents arranging condo flips, developers flop in spectacular fashion and the law catches up with a beach-town mayor on the take. Later he's in New York, among financiers like Blackstone's Stephen Schwarzman who are building rental empires out of foreclosures, staking claim to the bastion of middle-class wealth: the single-family home. Through it all, Dezember is an underwater homeowner caught up in the mess. A cautionary tale of Wall Street's push to turn homes into assets, *Underwater* is a powerful, incisive story that chronicles the crash and its aftermath from a fresh perspective—the forgotten, middle-class homeowner.
