**How Do You Live?** Genzaburo Yoshino,2021-10-26 The first English translation of the classic Japanese novel that has sold over 2 million copies—a childhood favorite of anime master Hayao Miyazaki (*Spirited Away*, *My Neighbor Totoro*, *Howl's Moving Castle*), with an introduction by Neil Gaiman. First published in 1937, Genzaburo Yoshino's *How Do You Live?* has long been acknowledged in Japan as a crossover classic for young readers. Academy Award-winning animator Hayao Miyazaki has called it his favorite childhood book and announced plans to emerge from retirement to make it the basis of his final film. *How Do You Live?* is narrated in two voices. The first belongs to Copper, fifteen, who after the death of his father must confront inevitable and enormous change, including his own betrayal of his best friend. In between episodes of Copper's emerging story, his uncle writes to him in a journal, sharing knowledge and offering advice on life's big questions as Copper begins to encounter them. Over the course of the story, Copper, like his namesake Copernicus, looks to the stars, and uses his discoveries about the heavens, earth, and human nature to answer the question of how he will live. This first-ever English-language translation of a Japanese classic about finding one's place in a world both infinitely large and unimaginably small is perfect for readers of philosophical fiction like *The Alchemist* and *The Little Prince*, as well as Miyazaki fans eager to understand one of his most important influences.
