Coastal Environments in Popular Song Glenn Fosbraey, 2022-12-30 This book examines how popular music is able to approach subjects of bio-politics, climate change, solastalgia, and anthropomorphisation, alongside its more common diet of songs about love, dancing, and break-ups – all while satisfying its primary remit of being entertaining and listenable. Nearly a thousand books have been published on bioethics since Van Rensselaer Potter's *Bioethics Bridge to the Future* (1971), with a marked increase in the past 20 years. However, not one of these books has focused itself on popular music, something Christopher Partridge describes as 'central to the construction of [our] identities, central to [our] sense of self, central to [our] well-being and, therefore, central to [our] social relations'. This edited collection examines popular music through a range of topics, from romance to climate change. *Coastal Environments in Popular Song* is perfect for students, scholars, and researchers alike interested in bioethics, social history, and the history of music.

Representations of Classical Greece in Theme Parks Filippo Carlà-Uhink, 2020-04-16 Theme park studies is a growing field in social and cultural studies. Nonetheless, until now little attention has been dedicated to the choice of the themes represented in the parks and the strategies of their representation. This is particularly interesting when the theme is a historical one, for example ancient Greece. Which elements of classical Greece find their way into a theme park and how are they chosen and represented? What is the "entertainment" element in ancient Greek history, culture and myth, which allows its presence in commercial structures aiming to people's fun? How does the representation of Greece change against different cultural backgrounds, e.g. in different European countries, in the USA, in China? This book frames a discussion of these representations within the current debates about immersive spaces, uses of history and postmodern aesthetics, and analyses how ancient Greece has been represented and made "enjoyable" in seven different theme parks across the world, providing an original and ground-breaking contribution to theme park studies and classical reception.

Encyclopedia of Film Themes, Settings and Series Richard B. Armstrong, Mary Willems Armstrong, 2015-07-11 The first edition was called "the most valuable film reference in several years" by Library Journal. The new edition published in hardcover in 2001 includes more than 670 entries. The current work is a paperback reprint of that edition. Each entry contains a mini-essay that defines the topic, followed by a chronological list of representative films. From the Abominable Snowman to Zorro, this encyclopedia provides film scholars and fans with an easy-to-use reference for researching film themes or tracking down obscure movies on subjects such as suspended animation, viral epidemics, robots, submarines, reincarnation, ventriloquists and the Olympics ("Excellent" said Cult Movies). The volume also contains an extensive list of film characters and series, including B-movie detectives, Western heroes, made-for-television film series, and foreign film heroes and villains.

Amy Beach, Passionate Victorian Adrienne Fried Block, 1998-12-17 Amy Marcy Cheney Beach (1867-1944), the most widely performed composer of her generation, was the first American woman to succeed as a creator of large-scale art music. Her Gaelic Symphony, given its premiere by the Boston Symphony Orchestra in 1896, was the first work of its kind by an American woman to be performed by an American orchestra. Almost all of her more than 300 works were published soon after they were composed and performed, and today her music is finding new advocates and audiences for its energy, intensity, and sheer beauty. Yet, until now, no full-length critical biography of Beach's life or comprehensive critical overview of her music existed. This biography admirably fills that gap, fully examining the connections between Beach's life and work in light of social currents and dominant ideologies. Born into a musical family in Victorian times, Amy Beach started composing as a child of four and was equally gifted as a pianist. Her talent was recognized early by Boston's leading musicians, who gave her unqualified support. Although Beach believed that the life of a professional musician was the only life for her, her parents had raised her for marriage and a career of amateur music-making. Her response to this parental (and later spousal) opposition was to find creative ways of reaching her goal without direct confrontation. Discouraged from a full-scale concert career, she instead found her métier in composition. Success as a composer of art songs came early for Beach: indeed, her songs outsold those of her contemporaries. Nevertheless, she was determined to separate her work from the genteel parlor music women were writing in her day by creating large-scale works--a Mass, a symphony, and chamber music--that challenged the accepted notion that women were incapable of creating high art. She won the respect of colleagues and the allegiance of audiences. Many who praised her work, however, considered her an exception among women. Beach's reaction to this was to join with other women composers of serious music by promoting their works along with her own. Adrienne Fried Block has written a biography that takes full account of issues of gender and musical modernism, considering Beach in the contexts of her time and of her composer contemporaries, both male and female. *Amy Beach, Passionate Victorian* will be of great interest to students and scholars of American music, and to music lovers in general.

EYE FOR AN EYE Barney Smith, 2024-02-20 Orange County, Florida, has experienced a significant rise in the higher levels of 'Crimes Against Persons,' specifically, 'Murders.' This placed more investigative responsibility on the Orange County Sheriff's Office [OCSO] Homicide Unit, specifically, Sgt. Jake Jacoby and Detective Ed Rollins, one of five Homicide Teams at the OCSO. Early, on a Wednesday morning, the Homicide Unit was notified, by their communications Center, that an unconscious male was found lying in an orange grove. An ambulance was dispatched to the scene, as well as the zone deputy. The deputy was dispatched to do an initial investigation. The ambulance arrived at the scene and declared the adult male, to be deceased. Further search of the area, located two additional victims; a male and a female. The female was deceased and the male was transported to the hospital, where he later died. Sgt. Jacoby and Det. Rollins were assigned to the case. Arriving at the scene; they joined the patrol deputy, who was the first to arrive; and conducted a search of the area. Large tire tracks were discovered, which were made by a large vehicle. Plaster casts were made of the tire tracks and later verified to have been on a large Dodge Truck, which later became significant. Identity of the three victims revealed; one male was a civilian, and the other two were Navy Personnel who were attending the Submarine School at the Naval Training Center [NTC], in Orlando. Consequently, the case became a joint responsibility of the OCSO and the NTC. Naval Students were frequenting the 'High Hopes Bar' on their weekend liberty. One afternoon, following an argument, a fight ensued between the civilian male victim and a member of a small group. This was a result of the civilian victim not paying the other male money he owed. A few days later, the victim's vehicle was found abandoned near an intersection in the county. It was verified that the vehicle had been abandoned three days after the murders had been committed. Shortly; a male [from the group] was interviewed, away from the Bar, by Sgt. Jacoby. During the interview, they had coffee. Sgt. Jacoby retained the male's cup for processing. Processing results from the cup; verified, by his DNA and Fingerprints, that he was the person who had abandoned the vehicle. The Dodge Truck which had been at the orange grove was located and taken in as evidence. The male suspect's DNA matched DNA from small blood splatters found in the Dodge Truck. Processing of the victim's abandoned vehicle, revealed powder on the tire, in the trunk. Removal of the tire disclosed heavier amounts of powder. Processing identified the powder as cocaine. Several, rather important, issues were developed to include: Identity of persons involved in area drugs, identity of the murder suspects, determination of victim's cause of death, persons involvement with the Dodge Truck, and surprisingly, who owned it.

Windows 10 for Seniors: The Complete Guide Mark Lancer, 2015-09-03 Microsoft as the leader of software for operating systems has now released the new Windows 10. It was released on the Twenty Ninth of July 2015. The new and improved computer program has been praised with honors and great reviews for its ability to meet needs while maintaining new trends. Critics have suggested that one major strength of Windows 10 is the fact that it is a made up of all the previous strengths from earlier Windows systems. This indicates that Microsoft has taken the bold initiative to forever be the leader in their field and this will be linked to all the positives of their existing

systems combined in one. One amazing way they used to ensure customer satisfaction, was to release a preview version before their formal release. This was done so users could preview the system and give their feedback and possible suggestions on improvements.

American Film Musical Themes and Forms Michael Dunne, 2004-08-25 The musical has been called the most popular form of entertainment in the world. This work examines the subjects, themes, and contemporary relevance of Hollywood musicals through their long popularity, placing each show in historical and political context and analyzing it in detail. A chapter is devoted to how Goldddiggers of 1933 (1933) and Stand Up and Cheer (1934) deal with the economic crises of the Depressions. Another addresses race issues by examining the prevalence of blackface minstrelsy in the 1930s and 1940s, looking at productions like Swing Time (1936) and Dixie (1943). Rock and roll culture, which started in the 1950s and threatened America with teenage sex and rebellion, is addressed through such hits as Girl Crazy (1943), Bye Bye Birdie (1963), and Grease (1978). The work also explores dance as a signifier of character, the geography of musicals (such as New York or the South), fantasy settings, Fred Astaire and Gene Kelly, and the musical biopic (mentioning biographies of such figures as Ziegfeld, Cohan, Rogers and Hart, Cole Porter, and Jerome Kern). A later chapter discusses intertextuality in such shows as Singin' in the Rain (1952), which refers to many earlier musicals; Kiss Me Kate (1953) which refers to Taming of the Shrew; and All That Jazz (1970) which refers to the life and work of Bob Fosse. The work concludes with an examination of the continuing popularity of the musical with such hits as Moulin Rouge (2001) and Chicago (2002). Instructors considering this book for use in a course may request an examination copy here.
