Capture the Moment Sarah Wilkerson,2015-04-07 Turn everyday photos into stunning works of art, with this essential guide to photography Featuring gorgeous photographs taken by the members of the photography industry's largest social network of female photographers, Clickin Moms, this accessible and gift-worthy guide provides both the inspiration and skills every photographer needs to capture life's beautiful moments as frameable pieces of art—from breakfasts to birthday parties and first steps to first days of school. With big, bold images paired with short, easy-to-follow tips progressing from elementary to advanced, this book is perfect for amateurs and professionals alike, covering equipment, composition, posing, low light, natural light, black and white, still life, and lifestyle photography. Assignments for experimenting with lighting and shooting locations round out the chapters, and advice based on photographs from over 100 contributors include these priceless suggestions: • Channel the old masters—painters such as Rembrandt and DaVinci are great inspiration • Anticipate emotion—watch for laughter and surprise • Embrace harsh lighting, backlighting, dappled sunlight and shade and use them to your advantage • Emphasize texture and seek out patterns—repetition can be striking and bold • Shoot from unexpected angles—sometimes the best shot is from below, behind, or above Clickin Moms is contributing 100 percent of the royalties from Capture the Moment to the Ronald McDonald House, which provides accommodation for the families of seriously ill or injured children near the facility where a child is hospitalized.

Shooting with Soul Alessandra Cave,2013-12-01 *Shooting with Soul* is glorious and beautiful book for anyone who loves to take pictures. Whether you are an aspirational photographer, artist, creative mom, or blogger, you will enjoy expanding your understanding of this medium by exploring 44 weeks of unique and reflective prompts and exercises aimed to demystify seemingly "œtechie" topics and enhance your creative self-expression. No matter what camera you own, an SLR, point and shoot, or even a camera phone, this book offers tips and methods for any device that snaps a photo./divDIV/divDIVNew technology is making it easier to share photography, and interest in photos is being fueled by the popularity of photo-based apps and social networking sites such as Pinterest, Instagram, Hipstamatic, Flickr, and tumblr blogs. Sharing photos with friends and family has become as easy as pushing a button, however, finding the right photos to take and coming up with creative concepts for jaw-dropping photos remains something that needs to be explored and fostered./divDIV/divDIVShooting with Soul teaches successful photography methods through an approach that is very much like journaling. By putting deep thought and feeling into the process, and into the exercises, which focus on personal exploration and autobiographical information, you will become able to create images that are infused with soul and that connect you with your viewers more deeply, whether they are friends and family, a professional art audience, or followers of a blog or website./div

Fashion and Beauty in the Time of Asia S. Heijin Lee,Christina H. Moon,Thuy Linh Nguyen Tu,2019-06-03 How transnational modernity is taking shape in and in relation to Asia Fashion and Beauty in the Time of Asia considers the role of bodily aesthetics in the shaping of Asian modernities and the formation of the so-called “Asian Century.” S. Heijin Lee, Christina H. Moon, and Thuy Linh Nguyen Tu train our eyes on sites as far-flung, varied, and intimate as Guangzhou and Los Angeles, Saigon and Seoul, New York and Toronto. They map the transregional connections, ever-evolving aspirations and sensibilities, and new worlds and life paths forged through engagements with fashion and beauty. Contributors consider American influence on plastic surgery in Korea, Vietnamese debates about “the fashionable,” and the costs and commitments demanded of those who make and wear fast fashion, from Chinese garment workers to Nepalese nail technicians in New York who are mandated to dress fashionably. In doing so, this interdisciplinary anthology moves beyond common characterizations of Asians and the Asian diaspora as simply abject laborers or frenzied consumers, analyzing who the modern Asian subject is now: what they wear and how they work, move, eat, and shop.

The Beauty of a Social Problem Walter Benn Michaels, 2015-07-13 Bertolt Brecht once worried that how we feel about the victims of a social problem can get in the way of the beauty and attraction of the problem itself. In this book, Walter Benn Michaels explores the same dilemma through a study of several contemporary artist-photographers whose work speaks to questions of political economy. Michaels focuses on the work of several artists, mostly born in the 1970s and thus raised in a world where artistic ambition has been identified with a critique of autonomous form and of meaning as a function of intention. Michaels shows that these artists engage but also push beyond this critique of autonomy and intentionality, producing works that embody a new commitment to form and meaning. The explanation for this commitment, he argues, is these artists consciousness of making art in an economy riven by structural conflict, especially an unprecedented rise in inequality. For them, he argues, the relationship of the art work to the world to its subject and to its beholder functions as an emblem of the relation between classes (rather than identities or subject positions). This book will join the short shelf of essential writings about the medium of photography.
