The Oxford Encyclopedia of American Cultural and Intellectual History Joan Shelley Rubin,Scott E.

Casper,2013-03-14 The Oxford Encyclopedia of American Cultural and Intellectual History brings together in one two-volume set the record of the nation's values, aspirations, anxieties, and beliefs as expressed in both everyday life and formal bodies of thought. Over the past twenty years, the field of cultural history has moved to the center of American historical studies, and has come to encompass the experiences of ordinary citizens in such arenas as reading and religious practice as well as the accomplishments of prominent artists and writers. Some of the most imaginative scholarship in recent years has emerged from this burgeoning field. The scope of the volume reflects that development: the encyclopedia incorporates popular entertainment ranging from minstrel shows to video games, middlebrow ventures like Chautauqua lectures and book clubs, and preoccupations such as Perfectionism and Wellness that have shaped Americans' behavior at various points in their past and that continue to influence attitudes in the present. The volumes also make available recent scholarly insights into the writings of political scientists, philosophers, feminist theorists, social reformers, and other thinkers whose works have furnished the underpinnings of Americans' civic activities and personal concerns. Anyone wishing to understand the hearts and minds of the inhabitants of the United States from the early days of settlement to the twenty-first century will find the encyclopedia invaluable.

The Politics of Southeast Asia's New Media William Atkins,2013-11-19 The past decade has seen a major structural shift in broadcasting in Southeast Asia, with the development of digital satellite and cable broadcasting. This shift has impacted upon some of the most information-sensitive governments in the world: Singapore, Malaysia and, until recently, Indonesia. Atkins traces this development in five countries, showing that the challenge to authoritarian regimes, anticipated by modern theorists as a result of the globalization of news and information, is not materializing. Instead, a new commercial elite has arisen, Southeast Asia's own mini-moguls, who act as gatekeepers for state interests, as partners to global media companies.

A Critical Discourse Analysis of South Asian Women's Magazines Linda McLoughlin,2017-07-03 This intriguing book applies Critical Discourse Analysis to a range of South Asian women's lifestyle magazines, exposing the disconnection between the magazines' representations of South Asian women and the lived realities of the target audience. The author challenges the notion that discourses of freedom and choice employed by women's magazines are emancipatory, demonstrating instead that the version of feminism on offer is a commodified form which accords with the commercial aims of the publications. McLoughlin demonstrates that whilst British magazines present women in the East as the exotic and culturally superior 'Other', women in India are encouraged to emulate Western women to signify their engagement with globalization and modernity. She uses data from focus groups carried out in both countries to illustrate the interpretive frameworks and multivocality of participants' attitudes, experiences and beliefs. This thought-provoking book will appeal to students and researchers of Language and Linguistics, Women's Studies, Anthropology, Sociology, Media, Communications and Cultural Studies.

Asian/Pacific Islander American Women Shirley Hune,Gail M. Nomura,Gail M Nomura,2003-08 A groundbreaking anthology devoted to Asian/Pacific Islander American women and their experiences Asian/Pacific Islander American Women is the first collection devoted to the historical study of A/PI women's diverse experiences in America. Covering a broad terrain from pre-large scale Asian emigration and Hawaii in its pre-Western contact period to the continental United States, the Philippines, and Guam at the end of the twentieth century, the text views women as historical subjects actively negotiating complex hierarchies of power. The volume presents new findings about a range of groups, including recent immigrants to the U.S. and understudied communities. Comprised of original new work, it includes chapters on women who are Cambodian, Chamorro, Chinese, Filipino, Hmong, Japanese, Korean, Native Hawaiian, South Asian, and Vietnamese Americans. It addresses a wide range of women's experiences-as immigrants, military brides, refugees, American born, lesbians, workers, mothers, beauty contestants, and community activists. There are also pieces on historiography and methodology, and bibliographic and video documentary resources. This groundbreaking anthology is an important addition to the scholarship in Asian/Pacific American studies, ethnic studies, American studies, women's studies, and U.S. history, and is a valuable resource for scholars and students. Contributors include: Xiaolan Bao, Sucheng Chan, Catherine Ceniza Choy, Vivian Loyola Dames, Jennifer Gee, Madhulika S. Khandelwal,Lili M. Kim, Nancy In Kyung Kim, Erika Lee, Shirley Jennifer Lim, Valerie Matsumoto, Sucheta Mazumdar, Davianna Pomaika'i McGregor, Trinity A. Ordon, Rhacel Salazar Parreñas, Amy Ku'uileialoha Stillman, Charlene Tung, Kathleen Uno, Linda Trinh Võ, Judy Tzu-Chun Wu, Ji-Yeon Yuh, and Judy Yung.

Queer Southeast Asia Shawna Tang,Hendri Yulius Wijaya,2022-11-22 Tang and Wijaya present a range of new and established scholarly voices, including local activists directly involved in developments in Southeast Asia. This groundbreaking collection presents the current state of play and longstanding LGBTQ+ debates in this often-overlooked region of Asia. The diversity of both the subject and the region is reflected in the broad scope of topics addressed, from the impact of Japanese queer popular culture on queer Filipinos, to the politics of public toilets in Singapore, and the impact of digital governance on queer communities across ASEAN. Taken in combination, these investigations not only highlight the operations of queer politics in Southeast Asia, but also present a concrete basis to reflect on queer knowledge production in the region. A vital resource for students and scholars of gender and sexuality in Southeast Asia, or any Queer or LGBTQ+ studies looking beyond the West.

The Routledge Companion to Asian American Media Lori Kido Lopez,Vincent Pham,2017-02-24 The Routledge Companion to Asian American Media offers readers a comprehensive examination of the way that Asian Americans have engaged with media, from the long history of Asian American actors and stories that have been featured in mainstream film and television, to the birth and development of a distinctly Asian American cinema, to the ever-shifting frontiers of Asian American digital media. Contributor essays focus on new approaches to the study of Asian American media including explorations of transnational and diasporic media, studies of intersectional identities encompassed by queer or mixed race Asian Americans, and examinations of new media practices that challenge notions of representation, participation, and community. Expertly organized to represent work across disciplines, this companion is an essential reference for the study of Asian American media and cultural studies.

Asian Diasporas ,2007-11-30 This collection of essays examines the worldwide dispersal of Asian populations and links these seemingly disparate movements through the category of Asian diasporas.

Encyclopedia of Asian American Folklore and Folklife [3 volumes] Jonathan H. X. Lee, Kathleen Nadeau, 2010-12-21 This comprehensive compilation of entries documents the origins, transmissions, and transformations of Asian American folklore and folklife. Equally instructive and intriguing, the Encyclopedia of Asian American Folklore and Folklife provides an illuminating overview of Asian American folklore as a way of life. Surveying the histories, peoples, and cultures of numerous Asian American ethnic and cultural groups, the work covers everything from ancient Asian folklore, folktales, and folk practices that have been transmitted and transformed in America to new expressions of Asian American folklore and folktales unique to the Asian American historical and contemporary experiences. The encyclopedia's three comprehensive volumes cover an extraordinarily wide range of Asian American cultural and ethnic groups, as well as mixed-race and mixed-heritage Asian Americans. Each group section is introduced by a historical overview essay followed by short entries on topics such as ghosts and spirits, clothes and jewelry, arts and crafts, home decorations, family and community, religious practices, rituals, holidays, music, foodways, literature, traditional healing and medicine, and much, much more. Topics and theories are examined from crosscultural and interdisciplinary perspectives to add to the value of the work.

Ritual Journeys in South Asia Christoph Bergmann, Jürgen Schaflechner, 2019-08-09 This book focuses on the ritualized forms of mobility that constitute phenomena of pilgrimage in South Asia and establishes a new analytical framework for the study of ritual journeys. The book advances the conceptual scope of 'classical' Pilgrimage Studies and provides empirical depth through individual case studies. A key concern is the strategies of ritualization through which actors create, assemble and (re-)articulate certain modes of displacement to differentiate themselves from everyday forms of locomotion. Ritual journeys are understood as being both productive of and produced by South Asia's socio-economically uneven, politically charged and culturally variegated landscapes. From various disciplinary angles, each chapter explores how spaces and movements in space are continually created, contested and transformed through ritual journeys. By focusing on this co-production of space and mobility, the book delivers a conceptually driven and empirically grounded engagement with the diverse and changing traditions of ritual journeying in South Asia. Interdisciplinary in its approach, the book is a must-have reference work for academics interested in South Asian Studies, Religious Studies, Anthropology and Human Geography with a focus on pilgrimage and the socio-spatial ideas and practices of ritualized movements in South Asia.

Routledge Handbook of Asian Regionalism Mark Beeson, Richard Stubbs, 2012-03-15 The Routledge Handbook of Asian Regionalism is a definitive introduction to, and analysis of, the development of regionalism in Asia, including coverage of East Asia, Southeast Asia and South Asia. The contributors engage in a comprehensive exploration of what is arguably the most dynamic and important region in the world. Significantly, this volume addresses the multiple manifestations of regionalism in Asia and is consequently organised thematically under the headings of: conceptualizing the region economic issues political issues strategic issues regional organizations As such, the Handbook presents some of the key elements of the competing interpretations of this important and highly contested topic, giving the reader a chance to evaluate not just where Asian regionalism is going but also how the scholarship on Asian regionalism is analysing these trends and events. This book will be an indispensable resource for students and scholars of Asian politics, international relations and regionalism.

Southeast Asia in the Global Economy Helen E S Nesadurai, J Soedradjad Djiwandono, 2009 While economic globalization benefited Southeast Asia, especially during the 1990s boom, the region now seems to be caught between two emerging economic giants - China and India. What challenges and opportunities does the rise of China and India pose for Southeast Asia and how should policy-makers respond? Are bilateral free trade arrangements and bilateral economic partnerships a boon or bane for competitiveness? In identifying approaches and strategies to coping with these challenges and leveraging on the opportunities available, this book also links the quest for competitiveness with the necessity of social protection. The link comes in the form of the people who work for firms as human resources, and as users and innovators of technology. The book acknowledges and discusses the problems of inadequate technological and innovative capacity and the problems of managing labour productivity in Southeast Asia. However, the book also cautions against focusing on people solely as productive labour, whether in production or the knowledge sector. By highlighting the adverse social, economic and political consequences of ignoring social protection issues and challenging the myth that addressing social protection undermines competitiveness, the book emphasizes the social responsibilities incumbent on governments and firms in this age of growing economic insecurities.

The Cold War and Asian Cinemas Poshek Fu, Man-Fung Yip, 2019-11-28 This book offers an interdisciplinary, historically grounded study of Asian cinemas' complex responses to the Cold War conflict. It situates the global ideological rivalry within regional and local political, social, and cultural processes, while offering a transnational and cross-regional focus. This volume makes a major contribution to constructing a cultural and popular cinema history of the global Cold War. Its geographical focus is set on East Asia, Southeast Asia, and South Asia. In adopting such an inclusive approach, it draws attention to the different manifestations and meanings of the connections between the Cold War and cinema across Asian borders. Many essays in the volume have a transnational and cross-regional focus, one that sheds light on Cold War-influenced networks (such as the circulation of socialist films across communist countries) and on the efforts of American agencies (such as the United States Information Service and the Asia Foundation) to establish a transregional infrastructure of free cinema to contain the communist influences in Asia. With its interdisciplinary orientation and broad geographical focus, the book will appeal to scholars and students from a wide variety of fields, including film studies, history (especially the burgeoning field of cultural Cold War studies), Asian studies, and US-Asian cultural relations.

Asian American Society Mary Yu Danico, 2014-08-19 Asian Americans are a growing, minority population in the United States. After a 46 percent population growth between 2000 and 2010 according to the 2010 Census, there are 17.3 million Asian Americans today. Yet Asian Americans as a category are a diverse set of peoples from over 30 distinctive Asian-origin subgroups that defy simplistic descriptions or generalizations. They face a wide range of issues and problems within the larger American social universe despite the persistence of common stereotypes that label them as a "model minority" for the generalized attributes offered uncritically in many media depictions. Asian American Society: An Encyclopedia provides a thorough introduction to the wide-ranging and fast-developing field of Asian American studies. Published with the Association for Asian American Studies (AAAS), two volumes of the four-volume encyclopedia feature more than 300 A-to-Z articles authored by AAAS members and experts in the field who examine the social, cultural, psychological, economic, and political dimensions of the Asian American

experience. The next two volumes of this work contain approximately 200 annotated primary documents, organized chronologically, that detail the impact American society has had on reshaping Asian American identities and social structures over time. Features: More than 300 articles authored by experts in the field, organized in A-to-Z format, help students understand Asian American influences on American life, as well as the impact of American society on reshaping Asian American identities and social structures over time. A core collection of primary documents and key demographic and social science data provide historical context and key information. A Reader's Guide groups related entries by broad topic areas and themes; a Glossary defines key terms; and a Resource Guide provides lists of books, academic journals, websites and cross references. The multimedia digital edition is enhanced with 75 video clips and features strong search-and-browse capabilities through the electronic Reader's Guide, detailed index, and cross references. Available in both print and online formats, this collection of essays is a must-have resource for general and research libraries, Asian American/ethnic studies libraries, and social science libraries.

Beauty Queens on the Global Stage Colleen Ballerion Cohen,Richard Wilk,Beverly Stoeltje,2013-09-13 Modern beauty contests were invented by P.T. Barnum in the United States, but in the 20th century pageants and contests have spread across the entire world from Nepal to Tierra Del Fuego. Why are women (and sometimes men in drag) parading on stage such a universally appealing spectacle, attracting an audience in the billions? This book is the first global comparison of pageants from different parts of the world, at the ways each contest is both intensely local and unique, and simultaneously global and remarkable repetitious. The authors use the latest tools of feminist, ethnographic, and literary scholarship to unpack and interpret one of the greatest and most universal spectacles of modern times.
