Situating Globalization Cynthia Nelson, 2000 The range of perspectives and original materials dealt with here highlights the renewed urgency of the struggle for cultural autonomy and voice within the context of globalization. Each author explores how the various processes at both the local and global levels intersect to create new discourses and debates around the indigenization of knowledge. If a new wind of cultural decolonization is blowing through the Arab Middle East and is having profound impact on the lives of men and women, then we should expect a new scholarship to emerge in order to grasp it. This book is a contribution in that direction. A key dimension concerns the issue of borders and boundaries. These are both real and imaginary (i.e., symbolic and metaphoric), hegemonic and counter-hegemonic. Among these borders are spatial ones that determine individuals' and communities' everyday location and place in the world--these include boundaries of class, gender, territory, and language. Each of these separations in turn has embedded in it, and rests on constructions of imaginary borders and boundaries. The real and imaginary do not exist as two disparate entities but are inextricably linked to each other in a dialectical move that simultaneously enables and disables movement and action. Current re-visioning of globalization challenges past suppositions. Globalization is a new form of an ongoing process that took inception during the heyday of colonialism. It might serve as a descriptive term to articulate the current historical

period, but it remains theoretically problematic and imprecise. Situating Globalization picks up on the problematics of power and its dispersal and concentration. The bearers of these cultural flows seek legitimacy from their potential constituency by positing their language--cultural and religious--as local and therefore inherently in opposition to the hegemonic cultural knowledge that has seeped in from outside and led to disempowerment of local peoples and knowledges. Bearers make no mention to this Islamist knowledge, of the foreignness of this idiom to many within the societies in question. Any attempt to contest their positioning and bearers of the indigenous results in charges of either betrayal or brainwashing. Cynthia Nelson is professor of anthropology and dean of the School of Humanities and Social Sciences at Sarah Lawrence College. She is author of *Doria Shafik, Egyptian Feminist: A Woman Apart*. Shahnaz Rouse is a member of its sociology faculty. Her research interests and publications cover agrarian transformation; social movements; the state, religion and gender identity.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Covering Islam Edward W. Said, 2015-08-19 In this classic work, now updated, the author of *Culture and Imperialism* reveals the hidden agendas and distortions of fact that underlie even the most objective coverage of the Islamic world. From the Iranian hostage crisis through the Gulf War and the bombing of the World Trade Center, the American news media have portrayed Islam as a monolithic entity, synonymous with terrorism and religious hysteria. At the same time, Islamic countries use Islam to justify unrepresentative and often repressive regimes. Combining political commentary with literary criticism, *Covering Islam* continues Edward Said's lifelong investigation of the ways in which language not only describes but also defines political reality.

Fangs of the Lone Wolf Dodge Billingsley, 2013-10-19 Stories of combat from a man who embedded with Chechen guerrilla forces: “His insights . . . are second to none.” —Thomas de Waal, author of *Black Garden* Books on guerrilla war are seldom written from the tactical perspective, and even less seldom from the guerrilla's perspective. *Fangs of the Lone Wolf: Chechen Tactics in the Russian-Chechen Wars 1994-2009* is an exception. These are the stories of low-level guerrilla combat as told by the survivors. They cover fighting from the cities of Grozny and Argun to the villages of Bamut and Serzhen-yurt, and finally the hills, river valleys, and mountains that make up so much of Chechnya. The author embedded with Chechen guerrilla forces and knows the conflict, country, and culture. Yet, as a Western outsider, he is able to maintain perspective and objectivity. He traveled extensively to interview Chechen former combatants now displaced, some in hiding or on the run from Russian retribution and justice. Crisp narration, organization by type of combat, accurate color maps, and insightful analysis and commentary help to convey the complexity of “simple guerrilla tactics” and the demands on individual

perseverance and endurance that guerrilla warfare exacts. The book is organized into vignettes that provide insight on the nature of both Chechen and Russian tactics utilized during the two wars. They show the chronic problem of guerrilla logistics, the necessity of digging in fighting positions, the value of the correct use of terrain and the price paid in individual discipline and unit cohesion when guerrillas are not bound by a military code and law. Guerrilla warfare is probably as old as man, but has been overshadowed by maneuver war by modern armies and recent developments in the technology of war. As Iraq, Afghanistan, the Philippines, and Chechnya demonstrate, guerrilla war is not only still viable, but increasingly common. Fangs of the Lone Wolf provides a unique insight into what is becoming modern and future war. Includes maps and photographs

Gender in Peacebuilding Elisabeth Prügl,Christelle Rigual,Rahel Kunz,Mimidoo Achakpa,Joy Onyesoh,Henri Myrntinen,Arifah Rahmawati,Wening Udasmoro,2021 Gender, age, class, ethnicity, religion, and political ideologies all matter in peacebuilding. Adopting a feminist approach, the 13th volume of International Development Policy analyses such intersecting differences in local contexts to develop a better understanding of how intersectionally gendered dynamics shape and are shaped by peacebuilding. In this volume, findings are presented from a six-year collaborative research project that, involving scholars from Indonesia, Nigeria, and Switzerland, investigated peacebuilding initiatives in Indonesia and Nigeria. The authors identify a number of logics that highlight how gender is deployed strategically or asserts itself inadvertently through gender stereotypes, gendered divisions of labour, or identity constructions. Contributors include: Mimidoo Achakpa, Ceren Bulduk, Rahel Kunz, Henri Myrntinen, Joy Onyesoh, Elisabeth Prügl, Arifah Rahmawati, Christelle Rigual and Wening Udasmoro--

Fighting Fakes - The Nordic Way Per Lundgren,Mogens Blicher Bjerregård ,Nils Hanson,Kjersti Løken Starum,Liljan Weihe,Tone Gunhild Haugan-Hepsø ,2018-04-24 Word matters and is the foundation for dialogue and democracy and so is trust. Thus, the phenomenon “Fake News” understood as propaganda, lies, disinformation and fake factory stories are serious threats to our democracies. The Nordic Council of Ministers urges for finding ways to meet this challenge and is launching a booklet to create a debate on how to counter fakes and build trust in words and facts. The booklet is based upon results from a meeting in September 2017 of a high-level group of key experts on the topic and in particular from four experts contributing by focusing on media and information literacy, ethical standards and quality journalism to be among the best tools to counter fakes. This booklet will be launched at the UNESCO World Press Freedom Day 2018 in Accra asking for international feedback on its recommendations.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with

distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

ASEAN Corporate Governance Scorecard Asian Development Bank, 2014-06-01 Corporate governance principles provide guidance on how corporations should operate. Adoption of international corporate governance best practices leads to long-term sustainability and resilience, and can be a competitive tool to attract foreign investments. The Asian Development Bank, in partnership with the ASEAN Capital Markets Forum, have jointly developed the ASEAN Corporate Governance Scorecard, an assessment based on publicly available information and benchmarked against international best practices that encourage publicly listed companies to go beyond national legislative requirements. This report can be used by capital market regulators and other stakeholders as a reference to understand the current corporate governance standards across the region. It is also a useful diagnostic tool to guide improvement of corporate governance standards.

Politics and Policy Implementation in the Third World Merilee S. Grindle, 2017-03-14 This book addresses the broader questions of how both the content and the context of public policy affect its implementation. Through a series of case studies from Mexico, Peru, Brazil, Colombia, Zambia, Kenya, and India, ten scholars here demonstrate that numerous factors intervene between the statement of policy goals and their actual achievement in society. Originally published in 1980. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Translation, Adaptation and Transformation Laurence Raw, 2012-01-12 In recent years adaptation studies has established itself as a discipline in its own right, separate from translation studies. The bulk of its activity to date has been restricted to literature and film departments, focussing on questions of textual transfer and adaptation of text to film. It is however, much more interdisciplinary, and is not simply a case of transferring content from one medium to another. This collection furthers the research into exactly what the act of adaptation involves and whether it differs from other acts of textual rewriting. In addition, the 'cultural turn' in translation studies has prompted many scholars to consider adaptation as a form of inter-semiotic translation. But what does this mean, and how can we best theorize it? What are the semiotic systems that underlie translation and adaptation? Containing theoretical chapters and personal accounts of actual adaptations and translations, this is an original contribution to translation and adaptation studies which will appeal to researchers and graduate students.
