*Why Love Hurts* Eva Illouz, 2013-05-20 Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

*Integrating Clinical Research into Epidemic Response* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Board on Global Health, Committee on Clinical Trials During the 2014-2015 Ebola Outbreak, 2017-06-26 The 2014-2015 Ebola epidemic in western Africa was the longest and most deadly Ebola epidemic in history, resulting in 28,616 cases and 11,310 deaths in Guinea, Liberia, and Sierra Leone. The Ebola virus has been known since 1976, when two separate outbreaks were identified in the Democratic Republic of Congo (then Zaire) and South Sudan (then Sudan). However, because all Ebola outbreaks prior to that in West Africa in 2014-2015 were relatively isolated and of short duration, little was known about how to best manage patients to improve survival, and there were no approved therapeutics or vaccines. When the World Health Organization declared the 2014-2015 epidemic a public health emergency of international concern in August 2014, several teams began conducting formal clinical trials in the Ebola affected countries during the outbreak. *Integrating Clinical Research into Epidemic Response: The Ebola Experience* assesses the value of the clinical trials held during the 2014-2015 epidemic and makes recommendations about how the conduct of trials could be improved in the context of a future international emerging or re-emerging infectious disease events.

*Second First Impressions* Sally Thorne, 2021-04-13 "Second First Impressions is the warmest, coziest, sweetest book of the year, an absolutely perfect blend of humor and heart. I want to live inside Sally Thorne's brain." —Emily Henry, New York Times bestselling author of *Beach Read* From the USA Today bestselling author of *The Hating Game*, soon to be a movie starring Lucy Hale and Austin Stowell, and 99 Percent Mine comes the clever, funny, and unforgettable story of a muscular, tattooed man hired as an assistant to two old women—under the watchful eye of a beautiful retirement home manager. Dazzle (n): Brightness that blinds someone temporarily. Position Vacant: Two ancient old women residing at Providence Retirement Villa seek male assistant for casual exploitation and good-natured humiliation. Duties include boutique shopping, fast-food fetching, and sincerely rendered flattery. Good looks a bonus—but we aren't picky. An advertisement has been placed (again!) by the wealthy and eccentric Parlioni Sisters. The salary is generous and the employers are 90 years old, so how hard could the job be? Well, none have lasted longer than a week. Most boys leave in tears. Ruthie Midona will work in Providence's front office, and be at the Parlioni's beck and call, forever. That's sort of her life plan. If Ruthie can run the place in her almost-retired bosses' absence, with no hijinks/hiccups, she has a shot at becoming the new manager. She might also be able to defend her safe little world from Prescott Development, the new buyer of the prime site. Maybe after all that, she can find a cute guy to date. All she needs to do is stay serious—and that's what she does best. Until, one day, someone dazzling blows into town. Teddy Prescott devotes his life to sleeping, tattooing, and avoiding seriousness. When Teddy needs a place to crash, he makes a deal with his developer dad. Teddy can stay in one of Providence's on-site maintenance cottages—right next door to an unimpressed Ruthie—but only if he works there and starts to grow up. Ruthie knows how this sweetly selfish rich boy can earn his keep—and be out of her hair in under a week. After all, there is a position vacant...

*Love on the Brain* Ali Hazelwood, 2022-08-23 An Instant New York Times Bestseller A #1 LibraryReads and Indie Next Pick! From the New York Times bestselling author of *The Love Hypothesis* comes a new STEM-inist rom-com in which a scientist is forced to work on a project with her nemesis—with explosive results. Like an avenging, purple-haired Jedi bringing balance to the mansplained universe, Bee Königswasser lives by a simple code: What would Marie Curie do? If NASA offered her the lead on a neuroengineering project—a literal dream come true after years scraping by on the crumbs of academia—Marie would accept without hesitation. Duh. But the mother of modern physics never had to co-lead with Levi Ward. Sure, Levi is attractive in a tall, dark, and piercing-eyes kind of way. And sure, he caught her in his powerfully corded arms like a romance novel hero when she accidentally damseled in distress on her first day in the lab. But Levi made his feelings toward Bee very clear in grad school—archenemies work best employed in their own galaxies far, far away. Now, her equipment is missing, the staff is ignoring her, and Bee finds her floundering career in somewhat of a pickle. Perhaps it's her occipital cortex playing tricks on her, but Bee could swear she can see Levi softening into an ally, backing her plays, seconding her ideas...devouring her with those eyes. And the possibilities have all her neurons firing. But when it comes time to actually make a move and put her heart on the line, there's only one question that matters: What will Bee Königswasser do?

*99 Percent Mine* Sally Thorne, 2019-01-29 From the USA Today bestselling author of *The Hating Game*, soon to be a movie starring Lucy Hale and Austin Stowell, an unforgettable romantic comedy about a woman who finally has a shot at her long time crush—if she dares. Crush (n.): a strong and often short-lived infatuation, particularly for someone beyond your reach... Darcy Barrett has undertaken a global survey of men. She's travelled the world, and can categorically say that no one measures up to Tom Valeska, whose only flaw is that Darcy's twin brother Jamie saw him first and claimed him forever as his best friend. Despite Darcy's best efforts, Tom's off limits and loyal to her brother, 99%. That's the problem with finding her dream man at age eight and peaking in her photography career at age twenty—ever since, she's had to learn to settle for good enough. When Darcy and Jamie inherit a tumble-down cottage from their grandmother, they're left with strict instructions to bring it back to its former glory and sell the property. Darcy plans to be in an aisle seat halfway across the ocean as soon as the renovations start, but before she can cut and run, she finds a familiar face on her porch: house-flipper extraordinaire Tom's arrived, he's bearing power tools, and he's single for the first time in almost a decade. Suddenly Darcy's considering sticking around to make sure her twin doesn't ruin the cottage's inherent magic with his penchant for grey and chrome. She's definitely not staying because of her new business partner's tight t-shirts, or that perfect face that's inspiring her to pick up her camera again. Soon sparks are flying—and it's not the faulty wiring. It turns out one percent of Tom's heart might not be enough for Darcy anymore. This time around, she's switching things up. She's going to make Tom Valeska 99 percent hers. This next hilarious romance includes a special PS section with two Happily Ever Afters—one for this novel featuring Darcy and Tom and the other, an epilogue featuring fan favorites Lucy Hutton and Josh Templeman from *The Hating Game*!

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**The Love Hypothesis** Ali Hazelwood, 2021-09-14 The Instant New York Times Bestseller and TikTok Sensation! As seen on THE VIEW! A BuzzFeed Best Summer Read of 2021 When a fake relationship between scientists meets the irresistible force of attraction, it throws one woman's carefully calculated theories on love into chaos. As a third-year Ph.D. candidate, Olive Smith doesn't believe in lasting romantic relationships--but her best friend does, and that's what got her into this situation. Convinced that Olive is dating and well on her way to a happily ever after was always going to take more than hand-wavy Jedi mind tricks: Scientists require proof. So, like any self-respecting biologist, Olive panics and kisses the first man she sees. That man is none other than Adam Carlsen, a young hotshot professor--and well-known ass. Which is why Olive is positively floored when Stanford's reigning lab tyrant agrees to keep her charade a secret and be her fake boyfriend. But when a big science conference goes haywire, putting Olive's career on the Bunsen burner, Adam surprises her again with his unyielding support and even more unyielding...six-pack abs. Suddenly their little experiment feels dangerously close to combustion. And Olive discovers that the only thing more complicated than a hypothesis on love is putting her own heart under the microscope.

**Angelika Frankenstein Makes Her Match** Sally Thorne, 2022-09-06 From USA Today bestselling author of The Hating Game Sally Thorne comes something a little unexpected... a historical rom-com that imagines Victor Frankenstein's sheltered younger sister, and her attempts to create the perfect man. For generations, every Frankenstein has found their true love and equal, unlocking lifetimes of blissful wedded adventure. Clever, pretty (and odd) Angelika Frankenstein has run out of suitors and fears she may become the exception to this family rule. When assisting in her brother Victor's ground-breaking experiment to bring a reassembled man back to life, she realizes that having an agreeable gentleman convalescing in the guest suite might be a chance to let a man get to know the real her. For the first time, Angelika embarks upon a project that is all her own. When her handsome scientific miracle sits up on the lab table, her hopes for an instant romantic connection are thrown into disarray. Her resurrected beau (named Will for the moment) has total amnesia and is solely focused on uncovering his true identity. Trying to ignore their heart-pounding chemistry, Angelika reluctantly joins the investigation into his past, hoping it will bring them closer. But when a second suitor emerges to aid their quest, Angelika wonders if she was too hasty inventing a solution. Perhaps fate is not something that can be influenced in a laboratory? Or is Will (or whatever his name is!) her dream man, tailored for her in every way? And can he survive what was done to him in the name of science, and love? Filled with carriages, candlesticks, and corpses, Angelika Frankenstein Makes Her Match is the spooky-season reimaging of the well-known classic that reminds us to never judge a man by his cadaver!

**Salish Applicatives** Kaoru Kiyosawa, Donna Gerdts, 2010-06-14 This book offers a comprehensive view of the morphology, syntax, and semantics of applicative constructions in Salish, a language family of northwestern North America. The historical development and discourse function of applicatives are elucidated and placed in typological perspective.

Sex, Gender and Substance Use Lorraine Greaves, 2021-04-14 "Sex, Gender and Substance Use" describes how both biological and social factors affect people's use of substances. There is a lot of research carried out on substance use, prevention and treatment in which sex and gender are missing. This book describes the concepts of sex and gender, what they mean and why including them in substance use research, practice and policy is vital. Substances such as alcohol, drugs, nicotine, and tobacco all have differential effects on females and males. Social and cultural gendered factors affect how women and men react to prevention, treatment and policies. The book includes numerous examples of how sex- and gender-sensitive research can increase our understanding and improve prevention and treatment, and why striving for gender-transformative substance use practice and research remains a gold standard.

*The Dance of the Islands* Christy Constantakopoulou, 2010-07-29 Christy Constantakopoulou examines the history of the Aegean islands and changing concepts of insularity, with particular emphasis on the fifth century BC. Islands are a prominent feature of the Aegean landscape, and this inevitably created a variety of different (and sometimes contradictory) perceptions of insularity in classical Greek thought. Geographic analysis of insularity emphasizes the interplay between island isolation and island interaction, but the predominance of islands in the Aegean sea made island isolation almost impossible. Rather, island connectivity was an important feature of the history of the Aegean and was expressed on many levels. Constantakopoulou investigates island interaction in two prominent areas, religion and imperial politics, examining both the religious networks located on islands in the ancient Greek world and the impact of imperial politics on the Aegean islands during the fifth century.

**World Congress on Communication For Development** , 2007 Communication for Development is a multidisciplinary area of study and work that is based on two-way models of communication, going beyond diffusion and dissemination of information. Its functions range from engaging stakeholders in problem analysis and risk assessment to supporting behavior and social change. The experiences recounted here are drawn from the various sessions of the Congress and emphasize the value of using Communication for Development to engage stakeholders in a professional and systematic manner for more effective and sustainable project design and implementation.--BOOK JACKET.

*Palgrave Advances in Peacebuilding* O. Richmond, 2010-01-20 The quality of the peace arrived at via liberal peacebuilding approaches has been poor. The related statebuilding praxis has generally been unable to respond to its critics. What is at stake is a recognition of peacebuilding's everyday political, social, economic, and cultural dynamics. This indicates the emergence of a post-liberal form of peace.
