Why Love Hurts Eva Illouz,2013-05-20 Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

Sea Levels, Land Levels, and Tide Gauges K.O. Emery,David G. Aubrey,2012-12-06 Changes in sea level caused by global warming can be disastrous to modern civilization. Therefore, it is important to use accurate and reliable methods to monitor any change. During

this century, and, in particular, the last three decades, tide-gauge records have been used to show these changes related to the world's oceans. Aubrey and Emery suggest, however, that tidal gauges should not be used unquestioningly as a benchmark for measuring eustatic sea-level changes. Tectonism, subsidence, ocean current variability, and human activity can, and do, affect the accuracy of these records. Understanding the reasons for changes in land and sea levels is essential for the proper development of coastal regions. The results of this study provide guiding data for scientific, engineering, and policy solutions to coastal flooding. Determining the true causes of relative subsidence, and how to use geological and oceanological controls, will allow us to exist within our natural environment, rather than force nature to conform to our legal and temporary 'remedies.'

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Dance of the Islands Christy Constantakopoulou, 2010-07-29 Christy Constantakopoulou examines the history of the Aegean islands and changing concepts of insularity, with particular emphasis on the fifth century BC. Islands are a prominent feature of the Aegean landscape, and this inevitably created a variety of different (and sometimes contradictory) perceptions of insularity in classical Greek thought. Geographic analysis of insularity emphasizes the interplay between island isolation and island interaction, but the predominance of islands in the Aegean sea made island isolation almost impossible. Rather, island connectivity was an important feature of the history of the Aegean and was expressed on many levels. Constantakopoulou investigates island interaction in two prominent areas, religion and imperial politics, examining both the religious networks located on islands in the ancient Greek world and the impact of imperial politics on the Aegean islands during the fifth century.

How Iceland Changed the World Egill Bjarnason, 2021-05-11 [A] joyously peculiar book. -- The New York Times 'Bjarnason's intriguing book might be about a cold place, but it's tailor-made to be read on the beach.' --New Statesman The untold story of how one tiny island in the middle of the Atlantic has shaped the world for centuries. The history of Iceland began 1,200 years ago, when a frustrated Viking captain and his useless navigator ran aground in the middle of the North Atlantic. Suddenly, the island was no longer just a layover for the Arctic tern. Instead, it became a nation whose diplomats and musicians, sailors and soldiers, volcanoes and flowers, quietly altered the globe forever. How Iceland Changed the World takes readers on a tour of history, showing them how Iceland played a pivotal role in events as diverse as the French Revolution, the Moon Landing, and the foundation of Israel. Again and again,

one humble nation has found itself at the frontline of historic events, shaping the world as we know it, *How Iceland Changed the World* paints a lively picture of just how it all happened.

World Congress on Communication For Development ,2007 Communication for Development is a multidisciplinary area of study and work that is based on two-way models of communication, going beyond diffusion and dissemination of information. Its functions range from engaging stakeholders in problem analysis and risk assessment to supporting behavior and social change. The experiences recounted here are drawn from the various sessions of the Congress and emphasize the value of using Communication for Development to engage stakeholders in a professional and systematic manner for more effective and sustainable project design and implementation.--BOOK JACKET.

Salish Applicatives Kaoru Kiyosawa,Donna Gerdt,2010-06-14 This book offers a comprehensive view of the morphology, syntax, and semantics of applicative constructions in Salish, a language family of northwestern North America. The historical development and discourse function of applicatives are elucidated and placed in typological perspective.

The Girl of My Dreams Durjoy Dutta,2016-10-15 We are in the car. She's looking at me. I can see the love in her eyes for me. Then a huge crash. She's flung out of the window. I'm thrown out too. A pool of blood. Her eyes are still on me . . . but now it's a death stare. I am Daman and I wake up to this nightmare. Every. Single. Day. Waking up from a long coma, Daman learns that he was in a massive car crash with a girl who vanished soon after the accident, leaving him for dead. Strangely, all he remembers is a hazy face, her hypnotic eyes, and her name—Shreyasi. To come to terms with his memory lapse he starts piecing together stories about himself and Shreyasi from his dreams, which he then turns into a hugely popular blog. When he's offered a lucrative publishing deal to convert his blog pieces into a novel, he signs up immediately. However, he gives in to editorial pressure and agrees to corrupt the original edgy character of Shreyasi. Big mistake. From then on Daman is stalked and threatened by a terrifying beauty who claims to be Shreyasi and who will stop at nothing to make him pay for being a sell-out. Before Daman fights back, he needs to know: Is she really who she claims to be? What does she want from him now? What if he doesn't do what she wants him to? *The Girl of My Dreams* is definitely not your usual love story.

You are the Best Wife Ajay Pandey,2015-11 Ajay believes in living for himself; Bhavna teaches him to live for others. Ajay is a planner for life; Bhavna makes him live in every moment. *You are the Best Wife* is a story of two people with contradictory ideologies

who fall in love. It changes them for good. It changes the way they look at the world and the way the world looks at them. Until destiny reveals its plans. This is a true inspiring story of the author and his struggle with life, after his beloved wife left him halfway through their journey. But her last words, 'you are the best husband' gave him the strength to live on, and fulfil his promise of love. Told with frankness and doses of humor, this heartwarming tale of a boy and a girl who never gave up on their love in face of adversities, ends on a bittersweet and poignant note as Ajay comes to terms with the biggest lesson life has to offer.

A Man at Arms: A Novel Steven Pressfield, 2021-03-02 From the acclaimed master of historical fiction comes an epic saga about a reluctant hero, the Roman Empire, and the rise of a new faith. Jerusalem and the Sinai desert, first century AD. In the turbulent aftermath of the crucifixion of Jesus, officers of the Roman Empire acquire intelligence of a pilgrim bearing an incendiary letter from a religious fanatic to insurrectionists in Corinth. The content of this letter could bring down the empire. The Romans hire a former legionary, the solitary man-at-arms, Telamon of Arcadia, to intercept the letter and capture its courier. Telamon operates by a dark code all his own, with no room for noble causes or lofty beliefs. But once he overtakes the courier, something happens that neither he nor the empire could have predicted. In his first novel of the ancient world in thirteen years, the best-selling author of *Gates of Fire* and *Tides of War* returns with a gripping saga of conquest and rebellion, bloodshed and faith.
