happens to be the daughter of his agent has grown up, and then some. Chipless RFID Systems Using Advanced Artificial Intelligence

Larry M. Arjomandi, Nemai Chandra Karmakar, 2023-01-31 This book shows you how to develop a hybrid mm-wave chipless Radio Frequency Identification (RFID) system, which includes chip-less tag, reader hardware, and detection algorithm that use image processing and machine learning (ML) techniques. It provides the background and information you need to apply the concepts of AI into detection and chip-less tag signature printable on normal plastic substrates, instead of the conventional peak/nulls in the frequency tags. You'll learn how to incorporate new AI detection techniques along with cloud computing to lower costs. You'll also be shown a cost-effective means of image construction, which can lower detection errors. The book focuses on side-looking-aperture-radar (SLAR) with a combination of deep learning to provide a much safer means of chipless detection than the current iSAR technique. Each chapter includes practical examples of design. With its emphasis on mm-waveband and the practical side of design and engineering of the chipless tags, reader and detection algorithms, this is an excellent resource for industry engineers, design engineers and university researchers.

Professional Search Engine Optimization with PHP Cristian Darie,Jaimie Sirovich,2007-04-18 Maybe you're a great programmer or IT professional, but marketing isn't your thing. Or perhaps you're a tech-savvy search engine marketer who wants a peek under the hood of a search engine optimized web site. Search engine marketing is a field where technology and marketing are both critical and interdependent, because small changes in the implementation of a web site can make you or break you in search engine rankings. Furthermore, the fusion of technology and marketing know-how can create web site features that attract more visitors. The mission of this book is to help web developers create web sites that rank well with the major search engines, and to teach search engine marketers how to use technology to their advantage. We assert that neither marketing nor IT can exist in a vacuum, and it is essential that they not see themselves as opposing forces in an organization. They must work together. This book aims to educate both sides in that regard.

This book builds on extant empirical and theoretical work in the area of educational leadership, and deepens understanding of what leading

for social justice and equity-oriented work looks like within diverse schools.

Eat First -- You Don't Know What They'll Give You Sonia Pressman Fuentes, 1999-11-24 EAT FIRST--YOU DONT KNOW WHAT THEYLL GIVE YOU, written with warmth and humor, is the story of Sonia Pressman Fuentes, one of the pioneers of the Second Wave of the womens movement and her family. Fuentes, who was born in Berlin, Germany, came to the US with her immediate family to escape the Holocaust. Her memoirs reveal how the five-year-old immigrant in 1934 became the first woman attorney in the Office of the General Counsel at the Equal Employment Opportunity Commission (EEOC) in 1965, one of the founders of the National Organization for Women (NOW) in 1966, the highest-paid woman at the headquarters of two multinational corporations: GTE and TRW, and an international speaker on womens rights for the US Information Agency. The story begins with the wedding of Fuentes parents, Hinda and Zysia Pressman, in Piltz, a town in Poland. It goes on to the adventures of the Pressmans and Fuentes in Berlin, Antwerp, the Bronx, the Catskills, Miami Beach, Los Angeles, Cleveland, Stamford (Connecticut), and Washington, DC. Along the way, Fuentes had encounters with Pat Ward (a notorious call girl in the 50s), Betty

Friedan, Harry Golden, Dr. Cecil Jacobson (a prominent geneticist convicted on fifty-two counts of perjury and fraud), and many others. At forty-two, she married a handsome Puerto Rican and 1 year later, her Puerto Rican Jewish daughter was born. She tells about it all in *Eat First*. I walk in the footprints of Sonia Pressman Fuentes. --Patricia Ireland, president, NOW Evoking a tear here and a chuckle there, with her heart- warming wit and wisdom, Sonia Pressman Fuentes recounts the story of a Jewish family, her family, from her grandparents origin in a shtetl in Poland right through her own career as a founder of NOW and beyond. --Gus Tyler, columnist, contributing editor, *The Forward* Sonia Pressman Fuentes played a major role in the birth of the new womens movement and her tales of its early days will delight historians and those who are curious about the beginnings of this great social movement. Fuentes is a born storyteller, with a particular knack for seeing the humorous aspects of her life. --Dr. Bernice Sandler, Senior Scholar in Residence, National Association for Women in Education I referred to you just the other day (as I frequently do) as one of the 'great, unsung heroes of the womens and civil rights movements. You single-handedly persuaded Roosevelt, Edelsberg, me and others to take sex discrimination seriously which, without you, we would not have done. --Charles T. Duncan, former General Counsel, EEOC; former Corporation Counsel of the District of Columbia; former Dean, Howard University School of Law For more reviews and interviews with the author of *Eat First-- You Dont Know What Theyll Give You*, please visit <http://www.erraticimpact.com/fuentes>

Perceiving Play Torill Elvira Mortensen, 2009 Computer games are increasingly prevalent, and cause both curiosity and concern in the general public, so understanding these games and play is

important. Game researchers need to work quickly to document, report, and analyse the effect on our modern society as an increasing amount of people make new and drastically different choices in how they spend their time. *Perceiving Play: The Art and Study of Computer Games* looks at the directions and findings of this research, and examines how game research integrates the studies of social science, ethnography, textual analysis and criticism, economy, law, and technology. --Book Jacket.

It's Not About the Money Brent Kessel, 2008-04 What do the latest financial thinking and ancient spiritual teachings reveal to us about financial freedom? Top financial advisor Brent Kessel insists financial success and security is not about the money. Rather, it's about what's inside us—first understanding your emotional relationship to money, and only then taking action. *It's Not About the Money* expertly and compassionately guides you along the path to financial security and

true peace of mind. Kessel, founder of two top wealth-management firms, has the inside scoop on the higher wisdom of personal finances, and he wants to share it with you. Through extensive experience as a financial advisor and spiritual seeker, Kessel has discovered that people need to understand their core financial story in order to make meaningful changes. Some of us are savers or caretakers, says Kessel, while others are pleasure seekers and spend like Hollywood stars; some people are idealists who place greater value on creativity or compassion than on financial security; some of us innocently believe our finances will work out without effort; and others obsess about building empires with lasting value. *It's Not About the Money* will help you identify your money type, providing information and resources as well as exercises and meditations to inspire a fresh approach to your relationship with money that will change your life.

New York City's most eligible bachelors—and its most desirable dominant.
