Real World Nikon Capture NX 2 Ben Long, 2008-10-02 Capture NX 2 from Nikon is a powerful image-editing application that lets photographers work with digital photographs with more speed and efficiency than other software programs. Its underlying technology gives photographers the ability to make selective corrections to an image with just one click. Real World Capture NX 2, written by digital photography expert Ben Long, takes photographers behind the scenes to see how this innovative program works. Along the way, Ben offers valuable tips and techniques for getting the most out of the software and digital cameras. Novice and expert photographers alike will benefit from Capture NX 2. New users can make advanced image corrections without learning sophisticated masking techniques. Advanced users can perform the complex edits they are accustomed to making in other programs in fewer steps. Any image corrections made with Capture NX 2 are non-destructive, which means that the actual image data is unaltered and reversible until the photographer achieves the best results. Photographers who use Nikon cameras have access to special software features for working with raw, JPEG and TIFF images.

EBOOK: Basic Marketing William Perreault, Joseph Cannon, E. Jerome McCarthy, 2013-04-16 Built on a strong foundation, Basic Marketing 18e with ConnectPlus and LearnSmart provides an integrated teaching and learning solution for presenting the four Ps framework and managerial orientation with a strategy planning focus. The Perreault franchise was the pioneer of the "four Ps" in the introductory marketing course. The unifying focus of Basic Marketing has always been on how to make marketing decisions in deciding what customers to focus on and how best to meet their needs. Consistent with our belief in continuous quality improvement, this edition has been critically revised, updated, and rewritten to reflect new concepts, new examples, recent "best practices," and to tightly integrate the best digital tools in the industry for ensuring that students are prepared to engage in classroom lectures and pursue future business and marketing careers.

Digital Impact Vipin Mayar, Geoff Ramsey, 2011-05-18 Win online by attracting the right customers and getting the right performance measurement Digital Impact answers the critical questions marketers have about connecting with and influencing consumers online. Written in an easy-to-read, approachable format, this helpful guide presents provocative content along with practical, commonsense methods that can be followed by any businessperson at companies of all sizes. The discussion hones in on two keys to success: building a performance measurement approach that will let you get maximum impact out of your online marketing and ad dollars, and creating magnetic content that attracts customers and keeps them engaged with your brand. Leverage trust and build ROI in social media and mobile spaces Get actionable data, best practices, cases studies, anecdotes, practical coaching tips and strategic insights Engage customers who typically resist advertising messages Learn from authors who have extensive experience across major industries and accounts, giving them a wide business appeal Whether your budget is corporate-sized or on a shoestring, you'll want to achieve the measurable bottom-line improvements that come with having Digital Impact.

Ben's Color Book Patricia Harris, 2017-07-15 Rainy days are perfect for creating things. In this narrative, Billy decides to make his own book about colors. This fiction book accompanies the HABA game Teddy's Colors and Shapes. Basic concepts, including color identification and the colors of the rainbow, are introduced in this exciting volume. Readers will also learn about personal preference and how to make decisions. Brightly colored illustrations add dimension to the narrative, while accessible language makes

it a perfect title for emergent readers and young listeners.

The Sons of Joshua Marc Jordan Ben-Meir, 2012-04-27 And Moses passed to the ages and the mantle of leadership fell to Joshua. Joshua, the Jewish general, led the Israelites to victory after victory. Eventually, they too were scattered to the four corners of the earth. It wasn't until the American Civil War that the Jews left the north in droves to fight for the Confederacy. Not because they believed in slavery, but the anti-Semitism they had experienced in the north would not allow them to live as equal citizens. In the South, after a two-thousand year exile the Jews once again fought as a people for freedom and equality. Read about the four Jews in Jefferson Davis cabinet. Read about the Jewish military leaders and soldiers. Read about those, the remnant of the ones murdered, burned at the stake, forced to convert, and how they came into their own in the antebellum South.

Swamp Souths Kirstin L. Squint, Eric Gary Anderson, Taylor Hagood, Anthony Wilson, 2020-03-04 *Swamp Souths: Literary and Cultural Ecologies* expands the geographical scope of scholarship about southern swamps. Although the physical environments that form its central subjects are scattered throughout the southeastern United States—the Atchafalaya, the Okefenokee, the Mississippi River delta, the Everglades, and the Great Dismal Swamp—this evocative collection challenges fixed notions of place and foregrounds the ways in which ecosystems shape cultures and creations on both local and global scales. Across seventeen scholarly essays, along with a critical introduction and afterword, *Swamp Souths* introduces new frameworks for thinking about swamps in the South and beyond, with an emphasis on subjects including Indigenous studies, ecocriticism, intersectional feminism, and the tropical sublime. The volume analyzes canonical writers such as William Faulkner, Zora Neale Hurston, and Eudora Welty, but it also investigates contemporary literary works by Randall Kenan and Karen Russell, the films *Beasts of the Southern Wild* and *My Louisiana Love*, and music ranging from swamp rock and zydeco to Beyoncé's visual album *Lemonade*. Navigating a complex assemblage of places and ecosystems, the contributors argue with passion and critical rigor for considering anew the literary and cultural work that swamps do. This dynamic collection of scholarship proves that swampy approaches to southern spaces possess increased relevance in an era of climate change and political crisis.

Color Theory Aaron Fine, 2021-08-12 Giving an overview of the history of color theory from ancient and classical cultures to contemporary contexts, this book explores important critical principles and provides practical guidance on the use of color in art and design. Going beyond a simple recitation of what has historically been said about color, artist and educator Aaron Fine provides an intellectual history, critiquing prevailing Western ideas on the subject and challenging assumptions. He analyses colonialist and gendered attitudes, materialist and romanticist perspectives, spiritualist approaches to color, color in the age of reproduction, and modernist and post-modernist color strategies. Highlighted throughout are examples of the ways in which attitudes towards color have been impacted by the legacy of colonialism and are tied up with race, gender, and class. Topics covered include color models, wheels and charts, color interaction and theories of perception, with over 150 images throughout. By placing under-examined tenets of color theory such as the color wheel and color primaries within the Western industrial context that generated them, Fine helps you to connect color choices to color meanings and apply theory to practice.

The Sporting Art of Frank W. Benson Faith Andrews Bedford, 2000 Frank Benson, a pivotal artist of the American Impressionist movement had three great loves in his long and productive life: his family, his art, and the sporting life. As a boy, Benson dreamed of being an ornithological illustrator. In mid-life, after an extremely successful career as a portraitist, he returned to the wildfowl and sporting subjects that were his

lifelong passion. Over the next forty years, in etching, lithography, watercolor, and oil and wash, he portrayed birds beloved since childhood, scenes of his hunting and fishing expeditions, and still lives of incomparable delicacy. Whether painting a hunter setting out decoys, a wash of geese by moonlight, a watercolor of a companion poised to gaff a salmon, or an etching of a group of ducks silently gliding in for a landing, Benson conveyed the joy and beauty of a sportsman's life.

Documenting the World Gregg Mitman, Kelley Wilder, 2016-12-20 Imagine the twentieth century without photography and film. Its history would be absent of images that defined historical moments and generations. Today such a history feels insubstantial and imprecise, even unscientific. And yet photographic technology was not always a necessary precondition for the accurate documentation of history. The documentary impulse that emerged in the late nineteenth century combined the power of science and industry with a particularly utopian (and often imperialistic) belief in the capacity of photography and film to capture the world visually, order it, and render it useful for future generations. This book is about the material and social life of photographs and films made in the scientific quest to document the world. It explores their creation and production as well as the collecting practices of librarians, archivists, and corporations. Together, the chapters of *Documenting the World* call into question the canonical qualities of the authored, the singular, and the valuable image, and transgress the divides separating the still photograph and the moving image, as well as the analogue and the digital. They also definitively overturn the traditional role of photographs and films in historical studies as passive illustrations.

The Essential Guide to Children's Books and Their Creators , Upon publication, Anita Silvey's comprehensive survey of contemporary children's literature, *Children's Books and Their Creators*, garnered unanimous praise from librarians, educators, and specialists interested in the world of writing for children. Now *The Essential Guide to Children's Books and Their Creators* assembles the best of that volume in one handy, affordable reference, geared specifically to parents, educators, and students. This new volume introduces readers to the wealth of children's literature by focusing on the essentials – the best books for children, the ones that inform, impress, and, most important, excite young readers. Updated to include newcomers such as J. K. Rowling and Lemony Snicket and to cover the very latest on publishing and educational trends, this edition features more than 475 entries on the best-loved children's authors and illustrators, numerous essays on social and historical issues, thirty personal glimpses into craft by well-known writers, illustrators, and critics, and invaluable reading lists by category. *The Essential Guide to Children's Books and Their Creators*

summarizes the canon of contemporary children's literature, in a practical guide essential for anyone choosing a book for or working with children.

Computer Vision -- ACCV 2009 Hongbin Zha, Rin-ichiro Taniguchi, Stephen Maybank, 2010-05-09 It gives us great pleasure to present the proceedings of the 9th Asian Conference on Computer Vision (ACCV 2009), held in Xi'an, China, in September 2009. This was the first ACCV conference to take place in mainland China. We received a total of 670 full submissions, which is a new record in the ACCV series. Overall, 35 papers were selected for oral presentation and 131 as posters, yielding acceptance rates of 5.2% for oral, 19.6% for poster, and 24.8% in total. In the paper reviewing, we continued the tradition of previous ACCVs by conducting the process in a double-blind manner. Each of the 33 Area Chairs received a pool of about 20 papers and nominated a number of potential reviewers for each paper. Then, Program Committee Chairs allocated at least three reviewers to each paper, taking into consideration any conflicts of interest and the balance of loads. Once the reviews were finished, the Area Chairs made summary reports for the papers in their pools, based on the reviewers' comments and on their own assessments of the papers.
