Chronicle of Malaysia Philip Mathews,2014-02-28 This revised and updated edition of the Chronicle of Malaysia brings the full dramatic sweep of Malaysia's history up to date, taking the reader through the nation's first 50 years from the formation of Malaysia in 1963 all the way to 2013. It is packed with illustrated news stories covering hundreds of the nation's key social, political, cultural and sporting events. As a compendium of all aspects of Malaysian life, the book captures the mood of the day with a sense of vividness and immediacy. Concise, accessible articles—revised and rewritten to engage today's readers—are introduced by headlines and liberally illustrated with photographs and specially commissioned cartoons. The book is structured chronologically, with an average of eight pages devoted to each year beginning with a succinct summary of the year's key events. A host of themes are covered: not just the major political and economic events but also the human side of the Malaysian experience—sports, fashion, music, the arts, architecture, lifestyle, disasters, crime and the social scene. These combine to give readers the feel of each era of Malaysia's past and enables them to draw parallels with the present.

New Media Political Engagement And Participation in Malaysia Sara Chinnasamy,2017-09-28 This book analyses the exponential growth of independent news portal (INPs) in Malaysia and discusses the extent of impacts generated from these portals in Malaysian electoral conduct especially during Malaysia's 12th and 13th general elections. The mainstream media in Malaysia has for decades been controlled by strict laws such as the Printing Presses and Publications Act (PPPA) and the Sedition Act, as well as self-censorship by print and broadcast journalists and editors. The rise of INP in Malaysia has challenged this government stranglehold, as well as making information available much faster than the mainstream media. The undeniable speed of the news posted on INP which often come with interactive contents are seen to have caused a remarkable increment on public's options with regards to expressing their political views. Some of the INPs have also impressively taken up a notch by providing live streaming videos or interesting online visual news which indirectly unifies various sectors of pressure groups in providing options of circulating and disseminating information to the public. The interviews conducted for this book provide deeper insights from those producing news and at the same time provide a specific and thorough observation on political events including representatives of the Malaysian middle class, Opposition parties, youth and university students, NGOs and civil society movements. Chinnasamy investigates key questions relating to this shift in relation to media preference concerning on the mainstream and political landscape in Malaysia. Did the INP evolve new democratic movement in the country or induce a change in the way the government retains its power by increasing people's active engagement in political participation? Did any revolution in government-managed media landscape occur drastically? If so, how did they accomplish these changes? This book will fill the gap of existing research on how far have the INP empowered themselves to be the third force in fighting democratic movement in the country and how the ruling government continues seeing it as a contention, as foreseen by many experts in the industry.

Malaysia Human Rights Report 2017 SUARAM,2018-06-12 Malaysian Human Rights Report 2017 SUARAM's Annual Human Rights Report on Malaysia is widely recognized as the most objective, comprehensive and dependable source of information on the state of human rights in Malaysia. It documents the human rights violations of all the fundamental liberties as well as the struggles of human rights defenders that take place in Malaysia during the year. In 2017, Malaysia struggled with growing repression as the 14th General Election approached. With the competition for political dominance, freedom of expression became the victim and there was widespread arrest, detention and prosecution for online comments made on social media, and the silencing of print and online media using frivolous justifications. Freedom of religion was another victim. In the short five years since the abolition of the Internal Security Act 1960, the criminal justice system of Malaysia has re-oriented its policy on tackling crime by the use of detention without trial. With more than 2,000 individuals detained under SOSMA, POCA, POTA and DDA, it is clear that we are seeing the old ISA in a new guise. Beyond the politically motivated human rights violations, corporations and state linked enterprises were also human rights violators. State agencies which are expected to defend and protect the rights and interests of the community, especially the indigenous peoples, instead acted as defenders of the corporate interests. With no justice or remedy in sight, all that the communities could do was to stand and defend their rights and dignity by setting up blockades against the repression...

Historical Dictionary of Malaysia Ooi Keat Gin,2017-12-18 Malaysia is one of the most intriguing countries in Asia in many respects. It consists of several distinct areas, not only geographically but ethnically as well; along with Malays and related groups, the country has a very large Indian and Chinese population. The spoken languages obviously vary at home, although Bahasa Malaysia is the official language and nearly everyone speaks English. There is also a mixture of religions, with Islam predominating among the Malays and others, Hinduism and Sikhism among the Indians, mainly Daoism and Confucianism among the Chinese, but also some Christians as well as older indigenous beliefs in certain places. This second edition of Historical Dictionary of Malaysia contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This

book is an excellent resource for students, researchers, and anyone wanting to know more about Malaysia.

The A to Z of Malaysia Ooi Keat Gin,2010 The A to Z of Malaysia encapsulates the development of Malaysia from prehistory to the early years of the 21st century. It covers not only Malaysia's history but also its politics, economy, multiethnic society, multiculturalism, scientific and technological developments, and the state of its environment. A host of contemporary issues and challenges are featured, including ethnic polarization, economic equity, and polygamy; concepts like Ketuanan Melayu (Malay Dominance), Malaysian Malaysia, Malay, and Islam Hadhari (Civilizational Islam); and terms like Ali Baba business, kiasi, bejalai, and Twenty Points. Over 500 cross-referenced dictionary entries are contained in this reference, covering everything from ethno-historical entries to those on culinary favorites and personalities. A chronology, an introductory essay, appendixes, and a bibliography complement the dictionary entries, enhancing the authoritative and up-to-date information provided.

Media, Culture and Society in Malaysia Yeoh Seng Guan,2010-02-25 This book presents a comprehensive, full-length analysis of the uses of media and communication technologies by different social actors in Malaysia. Unlike other studies of the media in Malaysia which concentrate on political economy or freedom of the media approaches, this book focuses on the ways in which different media forms have constituted cultural practices and power relations amongst particular audiences and publics. It also examines the ways in which technologies of varying scales and range have been appropriated for various subaltern purposes and counter-hegemonic agendas. Drawing upon recent case studies on the deployment of different media – including mainstream and independent films, television programming, black metal music, community rituals, political advertising, the internet, and artistic visual installations – it provides valuable insights into the complex, vibrant ways in which these different media forms have negotiated with the dominant cultural representations of Malaysian society. The book makes an important contribution to the emergent disciplines of media studies and cultural studies in Malaysia.

Malaysia Saw Swee-Hock,2003-08-01 This book documents the trends and challenges that are taking place in the more important sectors of Malaysia. The chapters, written by specialists with an intimate knowledge of the country, cover major topics such as population trends and patterns, Islam Hadhari, Bangsa Malaysia, politics and the 2004 general election, civil service reforms, corporate governance, educational reforms, the impact of globalisation on the economy, and Malaysia's relations with Singapore. Recent developments in these areas are likely to have a profound bearing on Malaysia and its neighbours in the years ahead. The book provides readers with a greater appreciation and a deeper understanding of Malaysia, which is undergoing significant changes and challenges.
