Classical Music Phil G. Goulding,2011-03-16 MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC Who are the ten most important classical composers? Who in

the world was Palestrina? Why did Stravinsky's Rite of Spring cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon--so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, Classical Music provides such essential information as: * Rankings of the top 50 composers (Bach is #1. Borodin is #50) * A detailed and anecdotal look at each composer's life and work * The five primary works of each composer and specific recommended CDs for each. * Further great works of each composer--if you really like him * Concise explanations of musical terminology, forms, and periods * A guide to the parts and history of the symphony orchestra This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars devoted to lively anecdotes, and catchy leads. --The Washington Post One terrific music appreciation book...The information is surprisingly detailed but concisely presented. Goulding's writing style is breezy yet mature....[He] has raised music appreciation from a racket to a service. --The Arizona Daily Star
