Rahman,M. Iqbal Choudhary,Sammer Yousuf,2020-11-19 Many
herbs and spices, in addition to their culinary use for taste, contain
chemical compounds which have medicinal uses. For this reason,

since ancient times. Modern scientific methods have enabled
researchers to isolate bioactive compounds from herbs and spices
and perform chemical analyses, which can be used to develop
medicines to treat different diseases. This book series is a
compilation of current reviews on studies performed on herbs and
spices. Science of Spices and Culinary Herbs is essential reading

for medicinal chemists, herbalists and biomedical researchers interested in the science of natural herbs and spices that are common part of regional diets and folk medicine.
