Not Just a Tomboy Caspar Baldwin,2018-11-21 This is the story of one trans man's exploration of gender identity, set against changing cultural attitudes from the 90s to the present day. Caspar Baldwin grew up in a time when being trans was not widely accepted by society, and though progress has been made since then, trans men are still underrepresented and misunderstood. Grappling with the messy realities of gender expectations while giving a stark and moving account of his own experiences, Baldwin grants a nuanced understanding of what it's like to be a trans boy or man. With its unflinching portrayal of the vulnerability, confusion, dysphoria, empowerment, peace and joy that are all part of the transition process, this provides an invaluable support for trans men and is a memoir that breaks the mould.

101 Inclusive and SEN Science and Computing Lessons Claire Brewer,Kate Bradley,2018-04-19 Create an inclusive classroom with these fun and accessible activities for science and computing lessons. Each lesson is tailored to objectives for children working below National Curriculum levels and includes a learning objective, the resources needed, the main activity, a plenary and a consolidation activity to support children's understanding and engagement. When working with children, and especially those with SEN, lessons need to meet their interests as well as their needs by containing visual stimulus and promoting fine and gross motor skills. The activities in this book have been specifically designed with this in mind. Straightforward and practical, it offers 101 creative classroom activities for teaching Science and Computing to pupils who are working below national curriculum levels, as well as mapping the range of additional skills they will acquire.

Creative Ways to Help Children Manage BIG Feelings Fiona Zandt,Suzanne Barrett,2017-04-21 Help children to stay on top of big feelings like anger, sadness and anxiety with this ingeniously easy-to-use therapy toolkit. Focusing on making therapy for children both purposeful and playful, the book provides 47 activities to transform your sessions using everyday materials and a variety of tried-and-tested therapy models. The authors deliver sage advice on how to work with children, adapting your approach for different age groups and judging how and when to involve parents and teachers. The handy reference table allows you to quickly fish out the perfect activity for the moment, according to the emotion the child is experiencing, or the therapeutic method needed. With its winning mix of creative resources and clinical expertise, all wrapped up in a simple and practical format, this is the ideal companion for both new and experienced therapists working with children aged 4-12.

Social Work with Autistic People Yo Dunn,2020-09-21 This book will help social workers and practitioners to find achievable solutions to support autistic people - including those with complex needs - to live fulfilling lives in their communities. Far too many autistic people are currently in inappropriate institutional placements, putting their basic human rights at risk and experiencing a poor quality of life. Good quality support for autistic people is achievable, even in a social care system under pressure. This book will help practitioners to develop high quality community support to facilitate discharges and prevent admissions, by providing them with effective, practical strategies to communicate with and more effectively support autistic people right across the spectrum. Common assumptions and beliefs are challenged, including the idea that 'behaviours' are an inevitable part of autism, and practical approaches are offered to promote autonomy, respect for human rights and empathy with autistic perspectives as a basis for preventing distressed behaviour. This will enable practitioners to support and empower all autistic people to achieve a good quality of life in their communities.

Teaching Empathy and Conflict Resolution to People with Dementia Cameron Camp,Linda

Camp,2018-01-18 The way in which dementia is understood and treated is changing, with a growing focus on the individual's experience and person-centred approaches to care. Introducing a new model of dementia care that reflects on the role of a person with dementia within a community and their relationships, this guide for professional and family caregivers demonstrates how to facilitate positive relationships for peaceful living. By understanding the cognitive and physical challenges that older adults with dementia face, caregivers can practice empathic care that affords people with dementia increased freedom of expression and independence. Included here are techniques for conflict resolution that enable people with dementia to be active and self-initiating in times of distress and disruption. Looking at the basics of respect, empathy, and mindfulness, this book also provides hands-on training for employing these virtues in practice with a number of exercises to help achieve the goal of peaceful independent living.

Supporting Toddlers' Wellbeing in Early Years Settings Helen Sutherland,Yasmin

Mukadam,2018-04-19 Offering an in-depth exploration of the distinctive features of the play development and learning of toddlers, this book provides useful materials, strategies and tools that can be used by practitioners supporting toddlers at this significant age. The book explores the context and concepts of wellbeing and is ideal for early years practitioners, teachers and students working with toddlers. It sets out practical guidance on the following key factors: home, family, health, development and learning, voice and expressions, early language, meal times and early years settings. These factors are supported with case studies and examples of good practice from Norway, Spain and the UK and expanded upon with reflective thinking exercises and suggested strategies to implement.

Psycho-spiritual Care in Health Care Practice Guy Harrison,2017-05-18 Meeting the psychological and spiritual needs of patients is vital to supporting their wellbeing in health care settings. To develop an effective, holistic and inclusive approach to care within predominantly medical health care models, practitioners across health care disciplines must work collaboratively to understand the complex, significant relationships between their patients' medical, therapeutic and spiritual requirements. Bridging the gap between care disciplines, the book presents an innovative vision of patient wellbeing enriched by a synthesis of psychological, spiritual and medical approaches. Prominent practitioners from a range of disciplines including nursing and psychiatry demonstrate how their psycho-spiritual approaches meet the individual needs of patients, adapting to their emotional, spiritual and religious requirements. Accessible and enlightening, this book offers significant practical insight into the role of psychologically informed spiritual care.

Becoming an Ally to the Gender-Expansive Child Anna Bianchi,2017-11-21 When Anna Bianchi's grandchild asked, Nanny, you do know I'm a girl, don't you?, Anna recognised this as a pivotal, and daunting, moment in their relationship. She knew that to answer her grandchild, who had been assigned male at birth, her own attitudes, assumptions and beliefs about gender would need to be examined. With reassuring honesty and openness, Anna draws deeply on four areas: her own experience, current research, interviews with children and their families, and a discussion of power, both in society and between children and adults. She shows how the inner journey of the adult inevitably impacts on the outer journey of the child and, given the significance of this, offers a step-by-step guide to becoming an ally to the gender-expansive child. For anyone eager to understand their child's gender experience, or to learn how best to accept, support and protect them, this book will provide knowledge, reassurance and the confidence to do so.

Difference Not Disorder Dr Catherine Harvey,2018-03-21 Interventions and educational approaches for children with autism spectrum disorders have developed in response to the different models for how autism has been constructed and understood. This book explores the evolving theories on autism and how these have impacted the interventions and outcomes in education. Drawing on 30 years of professional experience and detailed research, Harvey exposes the myths around autism, advocates for understanding autism as difference rather than impairment, and provides practical guidance on teaching and learning, behaviour management, addressing sensory and physical needs of children with ASD. This accessible overview shows how to put autism research into practice, learn from historic mistakes and create the most supportive environment for children on the autism spectrum.

Supporting Vulnerable Children in the Early Years Pat Beckley,2019-02-21 Exploring specific experiences, circumstances and events that can put children at risk, this book provides practical guidance for early years practitioners working with vulnerable children. It covers supporting children who are abused and neglected, those with special educational needs, children from ethnic minorities, those with emotional or health difficulties, children affected by poverty and children in care. Each chapter draws on current research and theories to set out clear advice and strategies for supporting the wellbeing and development of vulnerable children, including working in partnership with parents, carers and communities.

Essentials of Dementia Dr Shibley Rahman,Robert Howard,2018-01-18 To provide high quality dementia care, professionals need to be both knowledgeable about dementia and skilled in the

provision of care. This book is an introductory reference guide that will help students, professionals and practitioners develop their skills and expertise to better respond to the needs of people with dementia. It sets out information and advice on essential topics, research and evidence-based practice within dementia care in a clear, sensible way. Based on the standard course structure for higher and further dementia education, this wide-ranging textbook covers topics including dementia diagnosis, person-centred care and law, ethics and safeguarding. The new go-to book for the dementia curriculum, it is an invaluable tool for anyone wishing to improve the required core skills and values needed to care for those affected by dementia.

Re-thinking Children's Work in Churches Sally Nash, Carolyn Edwards, Sian Hancock, 2019-03-21 Drawing on current scholarship and research by authors with experience of a range of International contexts who are experts in their field, this accessible guide focuses on approaches that encourage spiritual, physical, mental and emotional development in children. By outlining a range of lenses through which readers can reflect on their ministry with children and their families. this book offers inspiration to help them improve their practice. Up-to-date research and thinking provides a fresh and flexible understanding of work with children and families. It also prepares readers to develop and support a team that can take responsibility for the key areas needed in an effective children's ministry. With each chapter featuring practice examples, relevant theory, theological reflections, opportunities for contemplation and suggestions for further reading, *Re-Thinking Children's Work in Churches* is an accessible and indispensable guide for those wishing to focus on the holistic development of the child.

Case Studies in Clinical Practice with Trans and Gender Non-Binary Clients lore m. dickey, 2021-04-21 Exploring clinical examples of the lived experiences of trans people across the lifespan, this unique and authoritative book addresses topics such as attending school, puberty, employment issues, suicide, bullying, autism and intersecting identities. Divided into three sections, childhood, adolescence, and adulthood, the book brings the case studies to life and dispels common myths by including short responses from leading professional experts. By enabling a greater knowledge of work with trans people and therefore filling an important gap in available literature, *Case Studies in Clinical Practice with Trans and Gender Non-Binary Clients* allows mental health providers to understand the nuanced differences of handling clinical concerns for their trans clients.

Diary of a Dyslexic School Kid Alais Winton,Zac Millard,2019-10-07 Experience day-to-day life for a dyslexic kid, including school life, bullying and coping with tests and homework, in this frank and funny diary. Co-authored with a teenage boy with dyslexia and illustrated with cartoons, this is a positive yet honest look at the difficulties of being dyslexic. Using a simple and relatable approach, the authors display the ups and downs of school - and home - life with a reading difficulty, focussing on the sometimes overwhelming experience of being at a bigger school and studying loads of new subjects. Providing tips for what really helps and works based on real-life experience, this fun, accessible book shows teens and tweens with dyslexia that they are far from alone in their experiences.
