**Come as You Are** Emily Nagoski,2015-04-09 A NEW YORK TIMES BESTSELLER An essential exploration of women's sexuality that will radically transform your sex life into one filled with confidence and joy. After all the books that have been written about sex, all the blogs and TV shows and radio Q&As, how can it be that we all still have so many questions? The frustrating reality is that we've been lied to — not deliberately, it's no one's fault, but still. We were told the wrong story. Come as You Are reveals the true story behind female sexuality, uncovering the little-known science of what makes us tick and, more importantly, how and why. Sex educator Dr Emily Nagoski debunks the common sexual myths that are making women (and some men!) feel inadequate between the sheets. Underlying almost all of the questions we still have about sex is the common worry: 'Am I normal?' This book answers with a resounding Yes! We are all different, but we are all normal — and once we learn this, we can create for ourselves better sex and more profound pleasure than we ever thought possible. PRAISE FOR EMILY NAGOSKI 'As a literary work, Nagoski's book deserves plaudits for the rare achievement of merging pop science and the sexual self-help genre in prose that's not insufferably twee ... "You are normal!" doesn't sound much like a battlecry, but in a world keen to sexually homogenise women from the gap of their thighs to the shape of their mons pubis, the sentiment lands like a bomb.' The Guardian 'Come As You Are screams female empowerment loud and proud.' The Independent

**Sex Guide All about Positions and How to Make Her Happy** Tino Mario,2017-02-24 If you want to make your woman beg for more, you need to understand the way that the female mind works. There is a vast difference between what men see as sexual satisfaction and what a woman experiences as satisfaction. In this guide, I'll show you the difference. There's no beating around the bush. The positions suggested are those that will make her beg for bedtime and want to be in your embrace. We have also included a section on positions and behaviors to avoid. These are seen as turn-offs for women and it is unlikely that you will gain any points in the bedroom if your behaviors fall into this category. Learn to play the role of the lover, rather than thinking about your own pleasure. Her pleasure assures your pleasure in a way that you never thought

possible. Believe me, the positions detailed in this book will give you the edge. The exact percentage of women who come out of the bedroom without having had an orgasm is higher than you may imagine and most of this is unnecessary. Men being unaware of what it takes to make a woman climax is often the cause. The positions mentioned in the book put her in control to a certain degree and to involve her in the equation will also make sex better for you. Often men don't take the time. They believe that making love is more of an animal instinct, whereby woman need more than that. Their needs are almost always going to be emotional and I explain just which positions will make her feel secure enough to allow her the luxury of equality in the bedroom. The male and female psyche is different. Once you understand how that works, you are in a better position to please her and to actually make her climax every time you make love. It doesn't have to be the hit and miss affair. Lovemaking can be a wonderful experience that brings intimacy into the picture. When it does, you are much more likely to keep your woman interested and willing to try out new things. The book explains how. Here is a Preview of what you'll Learn... The Male and Female Psyche Positions That She Will Love Positions That Allow Fantasies to Become Realities Experimental Sexual Positions And Much, Much More! Only Aquaman can resolve the clashing of the two cities!
