mso-ansi-language:EN-US;} Paul Farren claims he and his wife Charlie have around 85 percent of the pre-1900 bicycles in Australia – all under one roof in a Melbourne warehouse-cum-museum. Thirty years of hunting them down and collecting has resulted in one of the most impressive early bike collections in the world. It includes 160 pre-1900 bicycles, including hobby horses, boneshakers and Penny Farthings, as well as early 20th-century models. The collection charts the development of the bicycle, which foreshadows the invention of the motor car in many surprising ways. It also shows wider social change and the role the bicycle has played in female emancipation, war and its progression from plaything of the wealthy to utilitarian mode of transport of the

masses.

Bicycle in a Ransacked City Andrés Cerpa, 2019-01-15 These quiet, descriptive poems blaze with an inferno of lamenting and loving muses as a son helplessly watches his father suffer from a debilitating illness. The inquisitive voice of the speaker gently paints an emotional landscape ranging from childhood to the present, while trying to find glimpses of happiness in the imminent sorrow.

On Bicycles Amy Walker, 2011-08-30 Once the quaint province of European cities such as Amsterdam, daily cycling is currently exploding in North American cities. People ride folding bikes to the train, slip through traf?c on tricked-out ?xed-gears, and carry children and groceries on their utility bikes. Commuters are giving up their cars Monday through Friday, bike lanes and bike parking

are sprouting up all over, and Talking Head David Byrne has designed arty bike racks for various New York City neighborhoods. It's healthy for riders and clean for the environment, but is it fun? Amy Walker, who has been at the forefront of the urban cycling trend, knows that the answer is yes. She presents stories by a diverse group of cycling enthusiasts and activists that, accompanied by the illustrations of bike culture artist Matt Fleming, show readers why. They say you never forget how to ride a bike; this collection helps us remember why we ride.

Bicycle Odyssey, A Pilgrimage to Discover the Real America

Jim May, Carol May, 2005-07 A collection of our reflections as we bicycled 3440 miles across the United States, meeting people, sharing stories, being challenged by and reveling in the landscape and discovering the America that lives outside the media stereotype.

Two Wheels Matt Seaton, 2012-06-05 Cycling is going through

a revolution. Over half a million of us take to our bicycles every day and, as a result, the public image of cycling has been transformed. No longer the preserve of the marginal and eccentric few, it's now considered cool to travel on two wheels. Guardian journalist Matt Seaton is one of cycling's greatest advocates. An out-and-out bike

nut, he rides to work during the week, races at the weekend and has even been known to attend transport policy conferences in between. In this collection, Seaton not only explores a nation's rediscovered love of cycling, he also investigates the issues that affect all cyclists, from potholes and town planning to cycling etiquette and aesthetics. Whether you're a commuter or a competitive racer, a recreational rider or a cycle tourist, this book will prove irresistible - and enlightening - reading.
