Gambling Dynamism Victor Zheng,Po-san Wan,2013-11-29 Four years after the actual implementation of its casino deregulation policy, Macao has surpassed Las Vegas as the world's top gambling destination in terms of annual turnover. Also, various recent surveys have put Macao at the very top of the list in terms of per capita GDP, as its economy grew shortly after the resumption of Chinese sovereignty. How could a tiny city without any natural resources on the southern coast of China have managed to achieve such a miraculous level of development? This book presents an unparalleled study of Macao's economic dynamism and its gambling industry not only by merging historical and current developments, but also by presenting solid subjective and objective indicators and evidence. It offers an indispensable resource for students, researchers, and general readers looking to understand Macao's gambling miracle.

The Chinese Journals of L.K. Little, 1943–54 Chihyun Chang,2017-12-06 Lester Knox Little kept a detailed journal of his time in China and Taiwan. Covering the years 1943 to 1954 it provides important new insights about some of the most dramatic episodes in China's mid-twentieth century history: Sino-Japanese military and economic competition, China's domestic political struggle between the Nationalist Party (Kuomintang) and the Chinese Communist Party, and the post-war/Cold War balance of power in Southeast and East Asia. It also contains rich first-hand materials for understanding conditions in Chongqing and post-war Shanghai, the last years of the Republic of China on the Chinese mainland and its early years in Taiwan, and a new inner history of his beloved Chinese Maritime Customs Service. Little's account, with his insightful comments and explicit descriptions, provides us with a continuous record from the viewpoint of a capable American citizen in Chinese employ who felt responsible for his Chinese and foreign colleagues and for the modernisation of 'Free China', as well as allowing a unique insight into the heart of government during a time of intense social and political change. Education and Society in Hong Kong and Macao Mark Bray,Ramsey Koo,2005

Education and Society in Hong Kong and Macao M. Bray,Ramsey Koo,2006-06-28 Hong Kong and Macao have much in common. The dominant populations in both territories are Cantonese-speaking Chinese; both are small in area; both are urban societies; both have been colonies of European powers; and both have undergone political transition to reunification with China. Yet in education, for reasons that are analysed in this book, they are very different. The patterns of similarities and differences in the two territories make a fascinating basis for comparative study. The overarching theme of the book, on continuity and change is particularly pertinent following the transition of the two societies of the postcolonial era. This thoroughly-revised and expanded second edition builds on the widely-acclaimed first edition. The work has been recognised as a significant contribution to the broad field of comparative education as well as to study of the specific societies which are its main focus.

One Country, Two Systems, Three Legal Orders - Perspectives of Evolution Jorge Oliveira, Paulo Cardinal, 2009-07-21 “One Country, Two Systems, Three Legal Orders” – Perspectives of Evolution – : Essays on Macau’s Autonomy after the Resumption of Sovereignty by China” can be said, in a short preamble-like manner, to be a book that provides a comprehensive look at several issues regarding public law that arise from, or correlate with, the Chinese apex motto for reunification – One Country, Two Systems – and its implementation in Macau and Hong Kong. Noble and contemporary themes such as autonomy models and fundamental rights are thoroughly approached, with a multilayered analysis encompassing both Western and Chinese views, and an extensive comparative law acquis is also brought forward. Furthermore, relevant issues on international law, criminal law, and historical and comparative evolutions and interactions of different legal systems are laid down in this panoramic, yet comprehensive book. One cannot but underline the presence, in the many approaches and comments, of a certain aura of a modern Kantian cosmopolitanism revisitation throughout the work, especially when dealing with the cardinal principle of «One Country, Two Systems», which enabled a peaceful and integral reunification ex vi international law – the Joint Declarations – that ended an external and distant control.

Macau’s Languages in Society and Education Andrew J. Moody, 2021-03-18 This book examines the role of English within education and society in the quickly changing city of Macau. Macau’s multilingual language ecology offers the unique opportunity to examine language planning and policy issues within a small speech community. The languages within the ecology include several Chinese varieties, such as Cantonese, Putonghua and Hokkien, European languages like Portuguese and English, and a number of Asian languages that include, among others, Burmese, Filipino languages, Japanese, Timorese, etc. As the smallest city in South China's Pearl River Delta, Macau has sought to maintain cultural and linguistic independence from its larger neighbours, and independence has been built upon an historic commitment to multilingualism and cultural plurality. As economic development and globalisation offer new opportunities to a growing middle class, the sociolinguistics of a small society constrain and influence the language policies that the territory seeks to implement. Macau's multilingual and pluralistic response to language needs within the territory echoes historical responses to similar challenges and suggests that small communities function sociolinguistically in ways that differ from larger communities.
