The Girl with Big, Big Questions Britney Winn Lee, 2021 In a world that doesn't always welcome big questions, a persistent and inquisitive girl keeps asking them anyway--because asking questions is how we learn and grow--

The Boy with Big, Big Feelings Britney Winn Lee, 2019-08-20 Meet a boy with feelings so big that they glow from his cheeks, spill out of his eyes, and jump up and down on his chest. When a loud truck drives by, he cries. When he hears a joke, he bursts with joy. When his loved ones are having a hard day, he feels their emotions as if they were his own. The boy tries to cope by stuffing down his feelings, but with a little help and artistic inspiration, the boy realizes his feelings are something to be celebrated. Written by debut picture book author Britney Winn Lee and boldly illustrated by Jacob Souva, *The Boy with Big, Big Feelings* is relatable for any child, but especially for children experiencing anxiety and extreme emotions, or who have been diagnosed with autism or as a Highly Sensitive Person.

Creating Value with Big Data Analytics Peter C. Verhoef, Edwin Kooge, Natasha Walk, 2016-01-08 Our newly digital world is generating an almost unimaginable amount of data about all of us. Such a vast amount of data is useless without plans and strategies that are designed to cope with its size and complexity, and which enable organisations to leverage the information to create value. This book is a refreshingly practical, yet theoretically sound roadmap to leveraging big data and analytics. *Creating Value with Big Data Analytics* provides a nuanced view of big data development, arguing that big data in itself is not a revolution but an evolution of the increasing availability of data that has been observed in recent times. Building on the authors' extensive academic and practical knowledge, this book aims to provide

managers and analysts with strategic directions and practical analytical solutions on how to create value from existing and new big data. By tying data and analytics to specific goals and processes for implementation, this is a much-needed book that will be essential reading for students and specialists of data analytics, marketing research, and customer relationship management.

Teaching Big History Richard B. Simon, Mojgan Behmand, Thomas Burke, 2015 Big History is a new field on a grand scale: it tells the story of the universe over time through a diverse range of disciplines that spans cosmology, physics, chemistry, astronomy, geology, evolutionary biology, anthropology, and archaeology, thereby reconciling traditional human history with environmental geography and natural history. Weaving the myriad threads of evidence-based human knowledge into a master narrative that stretches from the beginning of the universe to the present, the Big History framework helps students make sense of their studies in all disciplines by illuminating the structures that underlie the universe and the connections among them. *Teaching Big History* is a powerful analytic and pedagogical resource, and serves as a comprehensive guide for teaching Big History, as well for sharing ideas about the subject and planning a curriculum around it. Readers are also given helpful advice about the administrative and organizational challenges of instituting a general education program constructed around Big History. The book includes teaching materials, examples, and detailed sample

exercises. This book is also an engaging first-hand account of how a group of professors built an entire Big History general education curriculum for first-year students, demonstrating how this thoughtful integration of disciplines exemplifies liberal education at its best and illustrating how teaching and learning this incredible story can be transformative for professors and students alike.

Framing Big Data Maria Cristina Paganoni, 2019-07-03 This book addresses big data as a socio-technical construct with huge potential for innovation in key sectors such as healthcare, government and business. Big data and its increasingly widespread use in such influential spheres can generate ethically controversial decisions, including questions surrounding privacy, consent and accountability. This book attempts to unpack the epistemological implications of the term 'big data', as well as the opportunities and responsibilities which come with it. The author analyses the linguistic texture of the big data narrative in the news media, in healthcare and in EU law on data protection, in order to contribute to its understanding from the critical perspective of language studies. The result is a study which will be of interest to students and scholars working in the digital humanities, corpus linguistics, and discourse studies.

The Unplugged Family Activity Book Rachel Jepson Wolf, 2020-06-23 Get ready for kid-approved ideas that celebrate the great outdoors year round! Whether you're building forts or making fresh cider, there's something for every kid and every season. Each season is full of excitement waiting to be found and Rachel highlights the best of each one with sections for recipes, nature exploration and play, and natural history: In spring, make candied violets,

spruce tip ice cream, or paper from wildflower seeds. Craft a kite, weave flower crowns, and make a DIY fairy garden! When summer comes, whip up herb-infused balms, rosewater, and zucchini boats. Host a backyard camp-out, build a nature exploration pack, cast shadow drawings, sail a leaf-boat, and master giant bubbles. As the days cool for autumn, brew mulled cider, make spiced honey, and discover the deliciousness of homemade apple sauce. Plant bulbs for next year's flowers, create an autumn rainbow, or craft a felted acorn necklace. Cozy up in winter with homemade maple candy, an herbal tea blend, and learn how to set out pine cone bird feeders. Build a snow fort or try some winter stargazing followed by making paper stars. (Or for those in warmer climates, make an ice lantern!) Unique celebrations throughout give the entire family a reason to gather, from winter bonfires and Solstice celebrations to maple tappings and beeswax candle dippings!
