Playing Blackjack To Dramatically Win For A Change and Win Consistently Eugene D. Anderson,2019-07-12 This method of playing blackjack to win, and to win in this unique way, has never before been seen after being perfected over a span of twenty-five years. This system is one of a kind and unlike any blackjack book ever written. You will win consistently because of the unique betting system. In this book, you will win every time the dealer goes bust, and yet you will never go bust. Every time you win a hand, you regain all previous losses, and you gain profits you get to keep. The betting system of going through a six-hand doubling works amazingly well, and every time you win, you win all previous losses back. There is no room for losing strategies like hunches, luck, and guesses because only winning strategies are used, giving you the winning edge over and over, and its repeatable, consistent, and predictable. Take the guesswork out of splitting, doubling down, and bet with the odds in your favor for good. Know when and when not to double down. Split and take even money. It's all here for the first time. Win back the price of this book in fifteen minutes or less. From now on, take your money home with you and a bunch of theirs as well. Win consistently, and have fun doing it.
