Bigfoot Survival Guide William Jevning,2022-11-29 The Bigfoot Survival guide informs the reader what Bigfoot is and the signs to watch for when in the forest, but also provides tips on safety if one encounters them. Its a must have if you believe in Bigfoot or not.

Fight for Survival Robert Paine,2018-03-14 Jack Wilson has arrived in Haven and has decided to rebuild his uncle's cabin, which burned down suspiciously and allegedly caused his uncle's death. However, unknown to Jack, there lives in the small valley above the cabin site, a clan of Sasquatch whose existence has never been confirmed, despite footprints, hair samples, and numerous sightings. They are few in number, and their survival is again threatened by humans who intend to develop their valley. Their one hope of continued survival depends upon establishing a trusting relationship with the human who has arrived outside their domain; a relationship that has occurred only once before.

Sasquatch Camp Jim Vander May,2015-02-05 Sasquatch Camp: A Zak Taggart Adventure is a stand-alone sequel to Borderline: A Zak Taggart Mystery. In this second story, Zak, almost fourteen, faces a new set of challenges. What fun things can he plan for the summer? Will Robert, his friend from Savannah, Georgia, be able to visit? Will Zak be allowed to go with Alex to Sasquatch Camp on Sumas Mountain? Does this Bigfoot dude really exist? But first, Zak and his friends must deal with a bullys apology. Is it for real, or completely bull? Meanwhile, Zaks friend, Alex, comes up with an ambitious plan to practice an assortment of zany survival tasks in preparation for Sasquatch Camp. But, should they include the outspoken girl, Maggie, whom theyve just met? After all, shes going to camp too. But the greatest test of Zaks inner strength and character comes during the camp experience, where the most important question becomes: Will Zak survive? Sasquatch Camp: A Zak Taggart Adventure is a story of first kisses, struggling friendships, forgiveness, dealing with bullies, and an absolute determination to survive.

Bug Blonsky and His Swamp Scout Survival Guide E.S. Redmond,2021-04-13 Bug Blonsky is back, making mischief at camp, tracking Bigfoot, and entertaining readers with another madcap list: his “unofficial” Swamp Scout Survival guide. In an uproarious follow-up to Bug Blonsky and His Very Long List of Dont's, Bug takes early chapter book readers along on a weekend Swamp Scout trip. At Camp Win-Kee-Noo, you can earn merit patches for “paying attention” and “following directions,” but not for any of the things Bug excels at—stuff like armpit farting and being wiggly. As a True Bigfoot Believer, the only patch Bugs wants on his Swamp Scout vest is the Curious Creature patch for spotting an odd or uncommon animal. Know-it-all Abner insists that if Bigfoot were real, he would be listed in the “Terrible Things to Avoid” section of their official Swamp Scout survival guide. Leave it to Bug to write his own guide, jam-packed with tips and tricks for making the most (mischief) out of camp . . . plus a few startling discoveries. Funny, irreverent, fast-paced, and packed with comic illustrations, Bug’s second outing will keep young readers in stitches (and possibly out of poison ivy).

Bigfoot Virginia Loh-Hagan,2020-12-23 Books in the Magic, Myth, and Mystery series explore those spooky creatures that go bump in the night, fill our dreams (or nightmares!), and make us afraid of the dark. In Bigfoot you'll learn more about these creepy creatures. Written with a high interest level to appeal to a more mature audience and a lower level of complexity with clear visuals to help struggling readers along. Considerate text includes tons of fascinating information and wild facts that will hold the readers' interest, allowing for successful mastery and comprehension. A table of contents, glossary with simplified pronunciations, and index all enhance comprehension.

Untold Tales of Bigfoot Vince Dorse,2016-10-31

Beast Watt Key,2021-04-13 Beast is a fast-paced adventure of guts and survival, this time with a paranormal twist, from acclaimed author Watt Key... Adam says he can't remember where he was for the two months he went missing in a Florida swamp. That's not true. He does remember. The truth: He was driving with his parents, and the car crashed when his father swerved to avoid colliding with a giant Sasquatch-like creature standing in the highway. Haunted by his parents' disappearance and hounded for claiming to have seen Bigfoot, Adam sets off into the deadly wilderness on a hunt for answers as to what really happened that night. The answer he finds is more terrifying—and more fascinating—than he could have imagined.

The Wild Men of Wildcat Scott Norman,2017-02-15 This novel will take you on a hair-raising journey through the backwoods of Central West Virginia. You will be terrified as you read about how my friend Steve and I were hassled for 9 days by a group of aggressive bigfoots. Steve and I were trapped on one side of the Little Kanawha river and unable to escape to our car which was located on the other side of the river via an old swinging bridge. Our every attempt to escape was thwarted by the bigfoots. Our experience became a life and death struggle just to survive. This story is primarily a work of fiction. The location is real along with some of the inner tales told to me by my grandfather and aunt. I had visited my grandparents who lived at this location on a farm hundreds of times while growing up. While never having sighted a Bigfoot myself in this location, it is quite possible they may exist here.

The Nature of the Beast Bryan Sykes,2022-03-08 Professor Bryan Sykes, the world's leading expert on human genetics, set a goal to locate and analyse as many DNA samples as possible with links to the yeti. In doing so, he found himself entering a strange world of mystery and sensationalism, fraud and obsession and even the supernatural. Protected by the ruthless vigour of genetic analysis he was able to listen to the stories of the yeti without having to form an opinion. The only opinion that mattered was the DNA. Three hair samples from the miogi, the Bhutanese yeti are the cause of the investigation. The hairs did not surrender their secrets easily, but eventually two were identified as known species of bear. The third remained a mystery. One of the many theories to account for the yeti legend is that there were small groups of Neanderthals that had managed to survive until recent times. If so, would it be possible to detect recent interbreeding between our own species and Neanderthals in the genomes of indigenous people living in remote regions? Professor Sykes has made some surprising and significant discoveries. Discoveries that could change our understanding of human origins.

Monster Science Helaine Becker,2016-09-06 Are monsters really out there in the big, wide world? Frankenstein, vampires, bigfoot, zombies, werewolves, sea monsters — they're not real, right? But what if they were? How would science explain their existence? In this totally original book, these mythical creatures are put under the microscope, one by one, and the scientific principles that prove or disprove their plausibility are explained. How does electricity work, and can it ever wake the dead? What's in our blood, and do real-life bloodsuckers exist? Find out what's true — and what's just legend! With frightful fun and just enough ick, the scariest monsters on earth will engage kids so thoroughly in the world of science, they're sure to be screaming for more!

Bigfoot War Eric S. Brown,2012-12-13 The west was a land of opportunity. It offered the chance of a new beginning and Ray sorely needed one. His dark past would soon be left far behind, but. . . the west also held dangers that no one could have foreseen. The wagon train rolled on, wary of an attack by warring Indians, straight into the den of the beasts. At night, the Sasquatch came seeking blood and the journey west quickly became a struggle for survival.

Our Bigfoot Family Richard Sotelo Berlanga,2012-01-11 Twelve-year-old Mark Williams has always loved exploring the forest. But while camping with his parents in Washington State, he wanders off and becomes lost. A pack of wolves descends on him, and Mark is sure he wont survive. Then something amazing happens. A Bigfoot, also known as Sasquatch, rescues him from the wolves and then carries Mark to the safety of his home and Lady Bigfoot. Mark loves the gentle creatures, and he grows quite accustomed to the wilderness lifestyle. Soon, he even begins to think of the two creatures as his surrogate parents. Mark lets the dream of returning to civilization slip further and further away. He loves living in the woods and loves his new family. But then, eight years later, something unexpected happens. A plane crashes in the forest, and the only survivor is the

governors beautiful daughter, Rita. Mark rescues her, and the two soon fall in love. When a search party finds Mark and Rita, Mark has a difficult choice to make. He doesnt want to leave his Bigfoot mother and father behind, but Ritas father doesnt want his little girl living in the forest, either! Will Mark and Rita be able to stay in the woods, or will they be forced to return to civilization?

Ol' Scratch Irvin Cracker Irvin,2010-03 Based on a regional legend and spun with a smattering of historical fodder and local jargon, Ol' Scratch shares fictionalized eyewitness accounts that reveal the survival of the most beloved myth of the twentieth century Bigfoot. Granny Godeaux and her young best friend, Spike, thoroughly enjoy the drama and excitement as Nancy, a Native American who is always full of gossip from up and down the river, talks about Ol' Scratch the booger in the bottom and how her ancestors lived side-by-side with the creature for hundreds of years. As Nancy relays sighting after sighting, Granny and Spike learn that Bigfoot has not disappeared. Alive and well, Bigfoot, who often lets out panther-like screams across the bay in East Texas in an effort to ward off human trespassers, appears to be cohabitating in surprising proximity to man while fighting for survival. In this compilation of blood-chilling tales based on true events, it is apparent that this six-foot creature that stands on two legs and lurks in the shadows has no intention of ever leaving his domain.

Bigfoot John Russell Napier,1972

In Search of Bigfoot R. W. Casto,2014-01-22 On September 20th, 2006, Lloyd Holmes and , his son, Josiah Holmes, decided to take a camping trip in the wonderful hills of Yosemite National Park. In what was supposed to be a lovely week of father and son bonding, it quickly turned into a true quest of survival. Two days after Bigfoot murdered his father, Josiah was left for dead, bloodied and beaten in a nearby ditch. Park rangers finally arrived to the scene of the crime to rescue Josiah.It's been over two years since this heinous attack took place. Now left with a missing pinky on his left hand, one testicle, a crooked pinky toe, and a severe drug addiction, Josiah, will now head back west and seek his vengeance. Josiah endures many adventures, conflicts, and obstacles along the way, the only thing stopping him from conquering this beast, will be the drugs and hallucinations through-ought the journey. Josiah fights with the loss of his father, and the abuse of drugs while desperately seeking answers and vengeance of the attack. His mind wonders off, and most of the time he's seeking to stay alive and not die from the addictions of life, in hopes to conquer the beast that changed his life forever Bigfoot.

Grey Canyon Jeff England,2018-07-24 A Monstrous, Mystical Thriller. In the fog enshrouded, mysterious Grey Canyon, loggers Jason Ibsen and Sam Kloss fall the wrong tree and unleash a primordial violence into the Oregon wilderness. Amongst the floored redwood tangle an object about five feet long and three across lay entwined. It was fresh fir branches, but somehow crisscrossed and tightly interwoven. Jason reached to touch it and both men jumped back when it moved slightly. He picked up a stick and lifted one edge. Oh hell, Sam said, it's a baby bear. I told you something was up there. It was small, black furred, face down and barely breathing. Jason put the stick under one side and lifted it toward him. Oh God, Jason! Not a bear! They looked down at a face. A dark face with open eyes and blood seeping from its nose and mouth... Join with Michael, a man seeking to spark his restless spirit by camping the woods and visiting old friends, and ride with Nicole and Ian, college sweethearts on a mission to save the trees in their beloved forest. They will encounter the mythic, giant man-beast of the deep woods, finding themselves in a primitive, terrifying battle for survival.

Bigfoot in Maine Michelle Souliere,2021 The dark woods of Maine have been the setting for many eerie and unexplained events, none more captivating than sightings of a giant hominid known as Bigfoot. But what makes this corner of New England such a perfect place for this cryptid to live? Learn about the ecology and geography that support the legend and meet the people forever changed by close encounters with it. From previously unpublished eyewitness accounts to modern-day media portrayals, author and illustrator Michelle Souliere presents this detailed history of the phenomenon and folklore that has lurked in shadows for generations.
