**Sexualizing Cancer** Laura Mamo,2023-12-15 The virus that changed how we think about cancer and its culprits—and the vaccine that changed how we talk about sex and its risks. Starting in 2005, people in the US and Europe were inundated with media coverage announcing the link between cervical cancer and the sexually transmitted virus HPV. Within a year, product ads promoted a vaccine targeting cancer’s viral cause, and girls and women became early consumers of this new cancer vaccine. An understanding of HPV’s broadening association with other cancers led to the identification of new at-risk populations—namely boys and men—and ignited a plethora of gender and sexual issues related to cancer prevention. Sexualizing Cancer is the first book dedicated to the emergence and proliferation of the HPV vaccine along with the medical capacity to screen for HPV—crucial landmarks in the cancer prevention arsenal based on a novel connection between sex and chronic disease. Interweaving accounts from the realms of biomedical science, public health, and social justice, Laura Mamo chronicles cervical cancer’s journey out of exam rooms and into public discourse. She shows how the late twentieth-century scientific breakthrough that identified the human papilloma virus as having a causative role in the onset of human cancer galvanized sexual politics, struggles for inclusion, new at-risk populations, and, ultimately, a new regime of cancer prevention. Mamo reveals how gender and other equity arguments from within scientific, medical, and advocate communities shaped vaccine guidelines, clinical trial funding, research practices, and clinical programs, with consequences that reverberate today. This is a must-read history of medical expansion—from a “woman’s disease” to a set of cancers that affect all genders—and of lingering sexualization, with specific gendered, racialized, and other contours along the way.

**It's Complicated** Danah Boyd,2014-02-25 Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.

**Look, I Made a Hat** Stephen Sondheim,2011-11-22 The second volume of Sondheim's collected lyrics is both a remarkable glimpse into the brilliant mind of a legend, and a continuation of the acclaimed and best-selling *Finishing the Hat*. Picking up where he left off in *Finishing the Hat*, Sondheim gives us all the lyrics, along with excluded songs and early drafts, of the Pulitzer Prize–winning *Sunday in the Park with George*, *Into the Woods*, *Assassins* and *Passion*. Here, too, is an in-depth look at the evolution of *Wise Guys*, which subsequently was transformed into *Bounce* and eventually became *Road Show*. Sondheim takes us through his contributions to both television and film, some of which may surprise you, and covers plenty of never-before-seen material from unproduced projects as well. There are abundant anecdotes about his many collaborations, and readers are treated to rare personal material in this volume, as Sondheim includes songs culled from commissions, parodies and personal special occasions—such as a hilarious song for Leonard Bernstein’s seventieth birthday. As he did in the previous volume, Sondheim richly annotates his lyrics with invaluable advice on songwriting, discussions of theater history and the state of the industry today, and exacting dissections of his work, both the successes and the failures. Filled with even more behind-the-scenes photographs and illustrations from Sondheim’s original manuscripts, *Look, I Made a Hat* is fascinating, devourable and essential reading for any fan of the theater or this great man’s work.

**Decline of the Lawrence Welk Empire** Poe Ballantine,2011-03-01 It’s impossible not to be charmed by Edgar Donahoe (*Publishers Weekly*), and he’s back for another misguided adventure. When Edgar is expelled from college for drunkenly bellowing expletives from a dorm window at 3:00 am, he hitchhikes to Colorado and trains as a cook. A postcard arrives from Edgar’s college buddy, Mountain Moses, inviting him to a Caribbean island. Once there Edgar cooks at the local tourist resort and falls in love with Mountain’s girl, Kate. He becomes embroiled in a love triangle and his troubles multiply as he is stalked by murderous island native Chollie Legion. Even Cinnamon Jim, the medicine man, is no help. Ultimately it takes a hurricane to blow Edgar out of this mess.

**Cinema Sex Sirens** Lee Pfeiffer,Dave Worrall,2011-11-29 With an introduction by Sir Roger Moore, *Cinema Sex Sirens* centres around a select number of actresses, from cinematic legends to some whose names are barely known by the general public who capitalised on their natural beauty during this era. Each chapter focuses on one actress, with a biography, commentary, complete filmography and full colour photos, rare international movie poster artwork and magazine covers. Actresses featured include Sophia Loren, Raquel Welch, Brigitte Bardot, Elizabeth Taylor, Ursula Andress and Gina Lollobrigida

**Maternal and Child Health Nursing** Adele Pillitteri,2013-11-25 Adele Pillitteri aims to ensure that today's students have a technical understanding, without losing the importance of compassion in their role as a nurse. The text presents pediatrics and maternity as a continuum of knowledge, taking a holistic approach and viewing maternity and pediatric content as a family event. The text links theory closely with application that helps students gain a deeper understanding of content and be better prepared to practice in their careers.--Provided by publisher.

**Clinical Case Studies for the Family Nurse Practitioner** Leslie Neal-Boylan,2011-11-28 *Clinical Case Studies for the Family Nurse Practitioner* is a key resource for advanced practice nurses and graduate students

seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

**Vegans Are Tastier** Joe DeMarco, 2011-04 Take an evolutionary journey through time and space in an unexpected vegan book that includes branding, hunting, spanking, torture, death and cannibalism. 21st Century Historian (Gentile Rainn): On occasion, before dying out and destroying themselves, the meat-eaters were seen hanging around back alleys of pubs drinking and fighting, sometimes sodomizing each other. 21st Century Historian (Herb Dean): If you look at things with hindsight, the meat-eaters never really had a chance. I mean, they were so hypocritical to the point where they would have one animal, whom they loved and cared for, living with them (Some of these animals were referred to as dogs. Note the dyslexic reference to God), and in the same moment would bleed and suffer another animal so they could devour its charred flesh for supper. Local Vegan (Said Huster): The idea that vegetarians and meat-eaters were both Homo sapiens is a post-mortem thought gone the way of the moo-cow. Homo sapiens were by nature very self-gratifying. In other words, they didn't care what they murdered or whom they hurt in crimes of hunger and passion. They acted very cruelly towards one another. Religions were developed to try to right these instinctual behaviors, but these religions did little to deter most Homo sapiens hell-bent on self-delusions of pride. Sometime around the turn of the twenty-fourth century, the first true Homo nexus was born. (See also Homo vegetare.) 21st Century Historian (Herb Dean): Moo-cows became extinct, though it is unknown whether this happened before or after the demise of the human (meat-eater) omnivore. A strain of CuuD Disease (almost always spelled capital C, lower case u, lower case u, capital D), a mutation of mad cow disease, killed roughly 99 percent of the cows, roughly two-thirds of the carnivores on the land, and most human omnivores. It is believed the other human omnivores destroyed themselves through wars, terrorist acts and unhealthy diets, or starved to death rather than eat vegetables. 21st Century Historian (Willow Whittier): It is said the last meat-eater died sometime around the turn of the 23rd century. His name was said to have been Ronald McDonald.

*Georgia and the Tycoon* Margaret Way, 2011-07-15 Devious. Dangerous. Devastating... Link Robards, through and through. Georgia knew the type and had never been swayed...until now. The very last thing in the world I need is a high-powered husband, she seemed to recall telling Link of his arrival at her uncle's resort. But even then she had known she was fighting a losing battle. For despite her vow never to get involved with a corporate dynamo, she was finding her attraction to him more and more impossible to resist. But resist she must. At least until she discovered his true motives for being on the Great Barrier Reef island. And she felt sure she wouldn't have long to wait.... SIMPLY THE BEST. Authors you'll treasure, books you'll want to keep!

**American Idol** Richard Rushfield, 2011-01-18 The currency is fame, and it's bigger than money, more desired than power. Each season American Idol delivers on a promise whose epic scope is unparalleled in the annals of competition: to take an unknown dreamer from the middle of America and turn him or her into a genuine star. It has become not only the biggest show on television, but the biggest force in all of entertainment; its alumni dominate the recording charts and Broadway, win Academy Awards, and sweep up Grammys. In fact, American Idol has reshaped the very idea of celebrity. But it didn't start out that way. When the little singing contest debuted as a summer replacement on the U.S. airwaves, it was packed between reruns and low-cost filler. The promise that it would find America's next pop star produced a hearty round of guffaws from the country's media critics. Now, some ten years and millions of records later, no one is laughing. American Idol: The Untold Story chronicles the triumphs and travails, the harrowing backstage drama and the nail-biting onstage battles that built this revolutionary show. In this revealing book, veteran journalist Richard Rushfield goes deeper inside the circus than any reporter ever has. Candid interviews with Idol alumni, including Simon Fuller and Simon Cowell, shed new light on the show that changed the entertainment industry. And because Rushfield had full access to the people who created the show, starred in it, and kept it atop the pop culture pyramid, this book is the first to take Americans behind the curtain and tell what has really been happening on the world's most watched and speculated-about stage.

*Florida* Lauren Groff, 2018-06-05 'Magnificent . . . Lauren Groff is a virtuoso' Emily St John Mandel 'A blistering collection . . . lyrical and oblique' Guardian 'Not to be missed . . . deep and dark and resonant' Ann Patchett 'It's beautiful. It's giving me rich, grand nightmares' Observer In these vigorous stories, Lauren Groff brings her electric storytelling to a world in which storms, snakes and sinkholes lurk at the edge of everyday life, but the greater threats are of a human, emotional and psychological nature. Among those navigating it all are a resourceful pair of abandoned sisters; a lonely boy, grown up; a restless, childless couple; a searching, homeless woman; and an unforgettable conflicted wife and mother. Florida is an exploration of the connections behind human pleasure and pain, hope and despair, love and fury. 'Innovative and terrifyingly relevant. Any one of these stories is a bracing read; together they form a masterpiece' Stylist 'Lushly evocative . . . mesmerising . . . a writer whose turn of phrase can stop you on your tracks' Financial Times

*Class* Paul Fussell,1992 This book describes the living-room artifacts, clothing styles, and intellectual proclivities of American classes from top to bottom.

**The Red Thread: A Novel** Ann Hood,2011-05-02 The new bestseller from the author of *The Knitting Circle*: “Is there anyone who can write about the connections between ordinary people as well as Ann Hood does?”—Jodi Picoult “In China there is a belief that people who are destined to be together are connected by an invisible red thread. Who is at the end of your red thread?” After losing her infant daughter in a freak accident, Maya Lange opens *The Red Thread*, an adoption agency that specializes in placing baby girls from China with American families. Maya finds some comfort in her work, until a group of six couples share their personal stories of their desire for a child. Their painful and courageous journey toward adoption forces her to confront the lost daughter of her past. Brilliantly braiding together the stories of Chinese birth mothers who give up their daughters, Ann Hood writes a moving and beautifully told novel of fate and the red thread that binds these characters’ lives. Heartrending and wise, *The Red Thread* is a stirring portrait of unforgettable love and yearning for a baby.

*Between Expectations* Meghan Weir,2011-03-01 When Dr. Meghan Weir first dons her scrubs and steps onto the floor of Children’s Hospital Boston as a newly minted resident, her head is packed with medical-school-textbook learning. She knows the ins and outs of the human body, has memorized the correct way to perform hundreds of complicated procedures, and can recite the symptoms of any number of diseases by rote. But none of that has truly prepared her for what she is about to experience. From the premature infants Dr. Weir is expected to care for on her very first day of residency to the frustrating teenagers who visit the ER at three in the morning for head colds, each day brings with it new challenges and new lessons. Dr. Weir learns that messiness, fear, and uncertainty live beneath the professional exterior of the doctor’s white coat. Yet, in addition to the hardships, the practice of medicine comes with enormous rewards of joy, camaraderie, and the triumph of healing. The three years of residency—when young doctors who have just graduated from medical school take on their own patients for the first time—are grueling in any specialty. But there is a unique challenge to dealing with patients too young to describe where it hurts, and it is not just having to handle their parents. In *Between Expectations: Lessons from a Pediatric Residency*, Dr. Weir takes readers into the nurseries, ICUs, and inpatient rooms of one of the country’s busiest hospitals for children, revealing a world many of us never get to see. With candor and humility, she explores the many humbling lessons that all residents must learn: that restraint is sometimes the right treatment option, no matter how much you want to act; that some patients, even young teenagers, aren’t interested in listening to the good advice that will make their lives easier; that parents ultimately know their own children far better than their doctors ever will. Dr. Weir’s thoughtful prose reveals how exhaustion and doubt define the residency experience just as much as confidence and action do. Yet the most important lesson that she learns through the months and years of residency is that having a good day on the floor does not always mean that a patient goes home miraculously healed—more often than not, success is about a steady, gradual discovery of strength. By observing the children, the parents, and other hospital staff who painstakingly provide care each day, Dr. Weir finds herself finally developing into the physician (and the parent) she hopes to become. These stories—sometimes funny, sometimes haunting—expose the humanity that is so often obscured by the doctor’s white coat.

**Agricultural Implications of the Fukushima Nuclear Accident (III)** Tomoko M. Nakanishi,Martin O`Brien,Keitaro Tanoi,2019-01-30 This open access book presents the findings from on-site research into radioactive cesium contamination in various agricultural systems affected by the Fukushima Daiichi Nuclear Power Plant accident in March 2011. This third volume in the series reports on studies undertaken at contaminated sites such as farmland, forests, and marine and freshwater environments, with a particular focus on livestock, wild plants and mushrooms, crops, and marine products in those environments. It also provides additional data collected in the subsequent years to show how the radioactivity levels in agricultural products and their growing environments have changed with time and the route by which radioactive materials entered agricultural products as well as their movement between different components (e.g., soil, water, and trees) within an environmental system (e.g., forests). The book covers various topics, including radioactivity testing of food products; decontamination trials for rice and livestock production; the state of contamination in, trees, mushrooms, and timber; the dynamics of radioactivity distribution in paddy fields and upland forests; damage incurred by the forestry and fishery industries; and the change in consumers’ attitudes. Chapter 19 introduces a real-time radioisotope imaging system, a pioneering technique to visualize the movement of cesium in soil and in plants. This is the only book to provide systematic data on the actual change of radioactivity, and as such is of great value to all researchers who wish to understand the effect of radioactive fallout on agriculture. In addition, it helps the general public to

better understand the issues of radio-contamination in the environment. The project is ongoing; the research groups from the Graduate School of Agricultural and Life Sciences of The University of Tokyo continue their work in the field to further evaluate the long-term effects of the Fukushima accident.
