**Hunting the Way it Was** Lenora Conkle,1997-03-01 Reading Hunting, the Way it Was is like lingering around a campfire 50 miles deep in the Snag River country, or at Wolf Lake, and hearing the fascinating and entertaining stories told by Bud and LeNora about hunting in Alaska's bygone era. It is the true tales about one of Alaska's best fair-chase guides, of horse-wranglers and assistant guides, and of pilots who flew clients in their fragile Super Cubs to the frozen arctic for polar bear and to the windy Alaska Peninsula for the big browns -- and all the other big game Alaska had to offer brave hunters. Hunting, the Way it Was, is more than an Alaskan big game guide's story -- it's LeNora Conkle's biography as well. She was there -- This is her story, and Bud's. These are not the flowered up narratives of a professional journalist, but the true tales of two amazing Alaskans and what they did for a living. This is the story of hunting in Alaska, the way it was, but will never be again.

Dowd his story is one of discovery--about who he is, how his life began, and the many twists and turns that led him to a family he never knew he had. Like most people, he experienced his share of happiness, sadness, pain, and suffering. But unlike most people, part of Michael's life remained a mystery. It wasn't until he embarked on a journey to learn more about his birth mother that Michael began to realize that he spent most of life unaware that he had another family. The Name on the Envelope is about Michael's journey to learn more about his family, but it is also about his reflections on his life and how our experiences shape who we are and who we become.

**Declarations of Stock Car Independents** Perry Allen Wood,2014-01-10 Independent stock car racers rarely won, often crashed, and flirted with death constantly, all for less money and fame than the money-backed star drivers of their day. This book includes interviews with 12 independent racers, including Curtis "Crawfish" Crider, "Jackhandle Joe" Frasson, and Gene "The Racing Marine" Hobby, among others. Laying the foundation for stock car racing as we know it, most of these racers plied their trade during the sport's early years, when racing required little more than a helmet and a great deal of courage. Readers will discover how each of these men managed to survive and stand out in their sport, despite running on second-hand or inferior equipment, receiving little to no outside support, and, in many cases, holding down another job off-track. The book is supplemented with 126 photographs, many from the personal collections of the author and the racers.

The Early Laps of Stock Car Racing Betty Boles Ellison,2014-09-08 The first organized, sanctioned American stock car race took place in 1908 on a road course around Briarcliff, New York--staged by one of America's early speed mavens, William K. Vanderbilt, Jr. A veteran of the early Ormond-Daytona Beach speed trials, Vanderbilt brought the Grand Prize races to Savannah, Georgia, the same year. What began as a rich man's sport eventually became the working man's sport, finding a home in the South with the infusion of moonshiners and their souped-up cars. Based in large part on statements of drivers, car owners and others garnered from archived newspaper articles, this history details the development of stock car racing into a megasport, chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing's 1948 incorporation documents and how they differ from the agreements adopted at NASCAR's organization meeting two months earlier. The meeting's participants soon realized that their sport was actually owned by William H.G. Bill France, and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways, the painfully slow advance of safety measures and the shadowy economics of the sport.
