**Biorhythm Awareness** Bruno Carli, 2021 Have you ever had a really bad day? Maybe you tripped over the cat as you were getting out of bed, ran out of gas on the way to work because you forgot that you needed to fill up, botched up a major project that the boss was counting on you to get right, and burned dinner. When it was all said and done, you probably wished that you had just stayed in bed that morning. We all have days like that to some extent. But we also have good days. They might not stand out in our minds like the bad ones do, but everyone has them. So why are some days horrible and others stellar? Many of us blame it on fate. But what if I told you that you could avoid having bad days? What if you could prevent even the most devastating of mistakes, improving both your physical and mental health in the process? You're probably thinking, "Yeah, that would be nice, but I don't have a crystal ball." But you don't need one. All you need to turn those bad days into good days is a basic understanding of biorhythms and how to use them to your advantage. There is no rocket science involved, just a few calculations that you don't necessarily even have to do yourself. Would you like to learn more? In this report, we'll go over the history and concepts of biorhythms and discuss how you can use them to change your life for the better.
