*Stiff: The Curious Lives of Human Cadavers* Mary Roach, 2004-05-17 Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, Forbes) classic, now with a new epilogue. For two thousand years, cadavers – some willingly, some unwittingly – have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender confirmation surgery, cadavers have helped make history in their quiet way. "Delightful–though never disrespectful" (Les Simpson, Time Out New York), *Stiff* investigates the strange lives of our bodies postmortem and answers the question: What should we do after we die? "This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the human body really is." –Tara Parker-Pope, Wall Street Journal "Gross, educational, and unexpectedly sidesplitting." –Entertainment Weekly

*Staked* Kevin Hearne, 2016-01-26 NEW YORK TIMES BESTSELLER • In the eighth book in *The Iron Druid Chronicles*, two-thousand-year-old Druid Atticus O'Sullivan faces the clan of vampires who have been bent on destroying him—including Leif, his former best friend turned enemy. When a Druid lives as long as Atticus does, he's bound to run afoul of a few vampires—make that legions of them. Even his former friend and legal counsel turned out to be a bloodsucking backstabber. Now the toothy troublemakers—led by power-mad pain-in-the-neck Theophilus—are no longer content to live undead and let live. Atticus needs to make a point—and drive it into a vampire's heart. As always, Atticus wouldn't mind a little backup. But his allies have problems of their own. Ornery archdruid Owen Kennedy is having a wee bit of troll trouble: Turns out when you stiff a troll, it's not water under the bridge. Meanwhile, Granuaile is desperate to free herself of the Norse god Loki's mark and elude his powers of divination—a quest that will bring her face-to-face with several Slavic nightmares. As Atticus globe-trots to stop his vampire nemesis, the journey leads to Rome. What better place to end an immortal than the Eternal City? But poetic justice won't come without a price: In order to

defeat Theophilus, Atticus may have to lose an old friend. Don't miss any of The Iron Druid Chronicles: HOUNDED | HEXED | HAMMERED | TRICKED | TRAPPED | HUNTED | SHATTERED | STAKED | SCOURGED | BESIEGED

The Matrix holds a whole lot more than selfies and cat videos-it has artificial intelligences, electronic ghosts of people formerly alive (or perhaps still living), and deep wells of pure data that can swallow you whole. Data Trails is the Matrix sourcebook for Shadowrun, Fifth Edition, offering more options for decker and technomancer characters, including qualities, programs, gear and more. With detailed examinations of hacker culture, information on diving deep into immersive hosts, and briefings on the strange sites hidden in dark corners of the Matrix, Data Trails is a vital resource for any Shadowrun players involved in the omnipresent flow of information. Gemina Jay Kristoff, Amie Kaufman, 2016-10-20 'Wholly unique and utterly captivating.' Marie Lu Hanna is the station captain's pampered daughter; Nik the reluctant member of a notorious crime family. But while the pair are struggling with the realities of life aboard the galaxy's most boring space station, little do they know that Kady Grant and the Hypatia are headed right toward Heimdall, carrying news of the Kerenza invasion. When an elite BeiTech strike team invades the station, the two are thrown together to defend their home. But alien predators are picking off the station residents one by one, and a malfunction in the station's wormhole means the space-time continuum might be ripped apart before dinner. Soon Hanna and Nik aren't just fighting for their own survival; the fate of everyone on the Hypatia—and possibly the known universe—is in their hands. But relax. They've totally got this. They hope. Picking up about five minutes after Illuminae ends, Gemina is an electrifying sequel.

Chain Saw Confidential Gunnar Hansen, 2013-09-24 When The Texas Chain Saw Massacre first hit movie screens in 1974 it was both reviled and championed. To critics, it was either a degrading, senseless misuse of film and time or an intelligent, absorbing and deeply disturbing horror film. However it was an immediate hit with audiences. Banned and celebrated, showcased at the Cannes film festival and included in the New York MoMA's collection, it has now come to be recognized widely as one of the greatest horror movies of all time. A six-foot-four poet fresh out of grad school with limited acting experience, Gunnar Hansen played the masked, chain-saw-wielding Leatherface. His terrifying portrayal and the inventive work of the cast and crew would give the film the authentic power of nightmare, even while the gritty, grueling, and often dangerous independent production would test everyone involved, and lay the foundations for myths surrounding the film that endure even today. Critically-acclaimed author Hansen here tells the real story of the making of the film, its release, and reception, offering unknown behind-the-scenes details, a harrowingly entertaining account of the adventures of low-budget filmmaking, illuminating insights on the film's enduring and influential place in the horror genre and our culture, and a thoughtful meditation on why we love to be scared in the first place.
