**The Hagiographies of Anantadas** Winnand Callewaert,2013-01-11 Anantadas is the first 'biographer' who, around 1600, wrote about the most popular bhakti poets of the 15th and 16th centuries in Northern India. This critical study of these manuscripts yields a broad spectrum of the linguistic and morphological variants. It also reveals the processes of oral and scribal transmission during this time when sectarian interests appropriated certain poets and changed their 'biographies' accordingly.

*Police-Citizen Relations Across the World* Dietrich Oberwittler,Sebastian Roché,2017-10-02 Police-citizen relations are in the public spotlight following outbursts of anger and violence. Such clashes often happen as a response to fatal police shootings, racial or ethnic discrimination, or the mishandling of mass protests. But even in such cases, citizens' assessment of the police differs considerably across social groups. This raises the question of the sources and impediments of citizens' trust and support for police. Why are police-citizen relations much better in some countries than in others? Are police-minority relations doomed to be strained? And which police practices and policing policies generate trust and legitimacy? Research on police legitimacy has been centred on US experiences, and relied on procedural justice as the main theoretical approach. This book questions whether this approach is suitable and sufficient to understand public attitudes towards the police across different countries and regions of the world. This volume shows that the impact of macro-level conditions, of societal cleavages, and of state and political institutions on police-citizen relations has too often been neglected in contemporary research. Building on empirical studies from around the world as well as cross-national comparisons, this volume considerably expands current perspectives on the sources of police legitimacy and citizens' trust in the police. Combining the analysis of micro-level interactions with a perspective on the contextual framework and varying national conditions, the contributions to this book illustrate the strength of a broadened perspective and lead us to ask how specific national frameworks shape the experiences of policing.

**New Directions in Race, Ethnicity and Crime** Coretta Phillips,Colin Webster,2013-10-08 The disproportionate criminalisation and incarceration of particular minority ethnic groups has long been observed, though much of the work in criminology has been dominated by a somewhat narrow debate. This debate has concerned itself with explaining this disproportionality in terms of structural inequalities and socio-economic disadvantage or discriminatory criminal justice processing. This book offers an accessible and innovative approach, including chapters on anti-Semitism, social cohesion in London, Bradford and Glasgow, as well as an exploration of policing Traveller communities. Incorporating current empirical research and new departures in methodology and theory, this book also draws on a range of contemporary issues such as policing terrorism, immigration detention and youth gangs. In offering minority perspectives on race, crime and justice and white inmate perspectives from the multicultural prison, the book

emphasises contrasting and distinctive influences on constructing ethnic identities. It will be of interest to students studying courses in ethnicity, crime and justice.

**Business for Punks** James Watt, 2015-11-05 BrewDog's co-founder James Watt offers a business bible for a new generation. It's anarchic. It's irreverent. It's passionate. It's BrewDog. Don't waste your time on bullshit business plans. Forget sales. Ignore advice. Put everything on the line for what you believe in. These mantras have turned BrewDog into one of the world's fastest-growing drinks brands, famous for beers, bars and crowdfunding. Founded by a pair of young Scots with a passion for great beer, BrewDog has catalysed the craft beer revolution, rewritten the record books and inadvertently forged a whole new approach to business. In BUSINESS FOR PUNKS, BrewDog co-founder James Watt bottles the essence of this success. From finances ('chase down every cent, pimp every pound') to marketing ('lead with the crusade, not the product') this is an anarchic, indispensable guide to thriving on your own terms.

**Europe Rehoused** Elizabeth Denby, 2014-09-19 Europe Rehoused was one of the most influential housing texts of the 1930s, and is still widely cited. Written by the housing consultant Elizabeth Denby (1894-1965) it offered a survey of the nearly two decades of social housing built across Europe since the end of World War One, with the aim of informing British policy makers; as a reviewer declared 'it has a decidedly propagandist flavour'. Denby was a leading figure in housing debates in the 1930s. Adopting a line in sharp critique of what she saw as the entirely materialist approach of state housing policy, Denby advocated the incorporation of social amenities alongside well-designed and equipped flats and houses, ideally sited within urban areas; by the late 1930s she was a pioneering advocate of the concept of mixed development. Europe Rehoused is divided into two parts. The first considered the origins of the housing problem of the inter-war decades, which Denby dated to the onset of the Industrial Revolution. She then examined the various national factors which influenced the problem: climate, post-war economy and the nature of land ownership. Finally she discussed the financial aspect: the bodies responsible for house building and the nature of the subsidies available for building. This was very much a schematic survey and the second, and largest, part of the book was devoted to individual studies of European practice, and discussed 'two winners in the War, two losers and two neutrals': Sweden, Holland, Germany, Vienna, Italy and France. This section was completed with a concluding chapter in which she compared continental work with the British system, and the lessons that could be learnt in this country from abroad. Although Denby's book was not the only one of its sort, its importance lies in its polemical nature and its advocacy of a rehousing policy which would become widely adopted after WWII. Significant too, is that the book is the voice of a woman who had assumed a significant status as a housing expert in the inter-war decades; Walter Gropius, who wrote the introduction to the US edition of the book observed that the book 'carried the weight of perfect expertness.' Such voices have for too long been overlooked, yet Denby was formed part of a very strong tradition of women reformers who worked to re-shape the inter-war and post-war British built environment.

**Use of Dietary Supplements by Military Personnel** Institute of Medicine,Food and Nutrition Board,Committee on Dietary Supplement Use by Military Personnel,2008-10-31 Dietary supplements are widely available through a rapidly expanding market of products commonly advertised as beneficial for health, performance enhancement, and disease prevention. Given the importance and frequent evaluation of physical performance and health as a criteria to join and remain in the military, the use of these products by military personnel has raised concern regarding over-all and long-term efficacy and safety. This evaluation is especially difficult, as many of these supplements contain multiple ingredients, have a changing composition over time, or are used intermittently at doses difficult to measure. This book analyzes the patterns of dietary supplement use among military personnel, examines published reviews of the scientific evidence, and identifies those dietary supplements that are beneficial and/or warrant concern due to risks to health or performance. The book also recommends a system to monitor adverse health effects and a framework to identify the need for active management of dietary supplements by military personnel. Military policy makers, personnel, and recruits will find this book useful, as will nutritionists, athletes, and others working in strenuous environments.
