**Making 'Black Harvest'** Bob Connolly,2017-01-01 'It seems unfair

that so gifted a film-maker should also be such a writer. An enthralling work - direct, free, broad, deep and bursting with life. It rollicks along like the 4WD that Connolly and Anderson, with their tiny daughter on board, drive through the Highlands. Breath-taking vistas open out on every side. A splendid, thrilling book.' Helen Garner

Some months after the death of his beloved wife and film-making partner, Robin Anderson, Bob Connolly read her diaries from the year they had spent living in the middle of a vicious tribal struggle in Papua New Guinea, making the film 'Black Harvest'. Using Robin's diaries as his inspiration, Bob Connolly has written a magnificent book that not only sheds light on their award-winning film but recounts Connolly and Anderson's moral dilemmas as they question how much responsibility they must bear for what is going so disastrously wrong in the lives of the Ganiga tribespeople. This magnificent narrative examines, with great delicacy and integrity, the devastating effects that blind ambition, warfare, destruction and grief have on human beings, and in doing so produces a work of poignant beauty and irresistible force.

*Dark Harvest* Josh Reynolds, 2019-12-10 A Horror story set in the Warhammer: Age of Sigmar universe. Harran Blackwood was a Warrior-Priest of ruthless virtue. Now he's a man with a scorched reputation, prowling the back alleys of Greywater Fastness, content to fight the petty wars of racketeers for survival. But when a desperate message arrives from an old friend, Blackwood is forced to confront a past he thought long buried. Summoned to the isolated village of Wald, Blackwood sets off on a perilous trek to ensure the sins of his former life remain forgotten. He soon discovers that Wald is a hostile, secretive place with sins of its own. Deep in the murky marshes, where the cruel chants of village folk echo and the stink of death

hovers low, Blackwood must channel his bitterness and rage to defy the ancient darkness that now hunts him before he is devoured, body and soul.

**The Black Harvest** Daren Dean,2021-05-15 In The Black Harvest young Ashby Marchbanks finds himself disillusioned with the regular Army in Missouri after it suffers a crushing defeat at Wilson's Creek during the Civil War. Forced to take the loyalty oath and return

home in Howard County near Glasgow, he attempts to follow his father's footsteps and attend William Jewell College where he will labor over the Word of God. It's not long before Charles Jennison's Red Legs come to call, and after hanging his father and terrorizing his family, Marchbanks is shot and left for dead. Ashby (or Preacher) falls in with the infamous Captain Quantrill's bushwhackers, who fight battles on their own terms without the sanction of Jefferson Davis and the impromptu Confederate government. Preacher becomes well acquainted with Frank James and his younger brother Jesse. They fight together with many others who would become notorious in their own right under another violent young chieftain, Captain Bloody Bill Anderson. This is all out war where outnumbered guerrillas wear stolen Federal blue and bushwhack their enemies in a war fought at close range, bristling with Navy Colts. Theirs is a war for survival on the bloody border where violence between Kansas and Missouri began long before Fort Sumter. A wild and compelling tale, it captures the complexity of the era, and evokes an epic all but lost to history. It was a time of violence, outlaws, and virtual anarchy. As the country became distracted by the accumulation of military defeats of the Confederacy in the South. Jayhawker Federals and Missouri Bushwhackers went head to head in an increasingly violent war.

**Black Harvest of Souls** Bettye G. Walker, 2022-03-17 **Black Harvest of Souls** is the first inspirational novel written on behalf of a series of future short stories that embrace the author's emotional dark battles with managing anxiety and depression. Realizing she couldn't manage on her own, she finally seeks God's face and listens to his instructions on how to use his biblical words, adjoined with her God-given prophetic gift, against mental warfare. Is it her insanity or another panic attack? Is she experiencing encounters with the paranormal or

supernatural and dark recesses of her mind? Be very careful of what you ask for in prayer. The Holy Spirit comforts her as she is guided on a journey to the motherland, Senegal of West Africa. She stood in front of the door of the slave castle of Goree Island—the door of no return where lost souls of her ancestors, chattel slaves, began their journey to servitude. Will she look back at the dark past or slice into the light? Will she muster up courage to stop making excuses and succeed toward historic prayers for peace among family and break generational ancestors' curses and allow God to heal the land and bestow his blessings upon her? Will her victory or lost battle over loneliness and sadness lead her to a purpose-driven life or turn over more memories and drive her mad as she continues her selfish search for the manifestation of her unclear visions and dreams? Finally, will she crawl away wearing doom and dread, or will she capture a harvest of souls with the whole armor of God?

*Just Harvest* Greg Francis, 2021-05-18 When a class-action lawsuit against the US government results in a billion dollar settlement for the aggrieved parties, you'd expect the story to be headline news . . . to be posted on social media everywhere . . . to be adapted to film or even to a popular legal procedural series on TV . . . So why then have

so many people never heard of Pigford vs. Glickman? Or the follow-up lawsuit, Pigford II? Or the Black Farmers Case, as the pair of these legal actions is often called? Could it be that the heart-wrenching story of Black farmers in America, and the monumental legal case that brought long-sought justice to them, is rarely told because it reflects so poorly on the US and its treatment of those whose ancestors helped make the nation an agricultural giant in the first place? Whatever the reason, the time to tell the full story has come and the person to share the gripping details is Greg Francis, one of the lead counsels in the historic case that finally helped Black farmers achieve equity. In *Just Harvest*, Francis narrates the dramatic twists and turns of the legal battle fought and won, and evidences the many years of ingrained discrimination and racism that preceded it. Awareness of this story makes us all witnesses to the history still unfolding— and while parts of what is recounted herein will enrage you, the hope is that this book will also inspire, inform, and motivate you to join the continuing fight for the rights of all Black farmers now and in the future.

*We Are Each Other's Harvest* Natalie Baszile,2021-04-06 A

WALL STREET JOURNAL FAVORITE FOOD BOOK OF THE EAR From the author of *Queen Sugar*—now a critically acclaimed series on OWN directed by Ava Duvernay—comes a beautiful exploration and celebration of black farming in America. In this impressive anthology, Natalie Baszile brings together essays, poems, photographs, quotes, conversations, and first-person stories to examine black people's connection to the American land from Emancipation to today. In the 1920s, there were over one million black farmers; today there are just 45,000. Baszile explores this crisis, through the farmers'

personal experiences. In their own words, middle aged and elderly black farmers explain why they continue to farm despite systemic discrimination and land loss. The Returning Generation—young farmers, who are building upon the legacy of their ancestors, talk about the challenges they face as they seek to redress issues of food justice, food sovereignty, and reparations. These farmers are joined by other influential voices, including noted historians Analena Hope Hassberg and Pete Daniel, and award-winning author Clyde W. Ford, who considers the arrival of Africans to American shores; and James Beard Award-winning writers and Michael Twitty, reflects on black culinary tradition and its African roots. Poetry and inspirational quotes are woven into these diverse narratives, adding richness and texture, as well as stunning four-color photographs from photographers Alison Gootee and Malcom Williams, and Baszile's personal collection. As Baszile reveals, black farming informs crucial aspects of American culture—the family, the way our national identity is bound up with the land, the pull of memory, the healing power of food, and race relations. She reminds us that the land, well-earned and fiercely protected, transcends history and signifies a home that can be tended, tilled, and passed to succeeding generations with pride. *We Are Each Other's Harvest* elevates the voices and stories of black farmers and people of color, celebrating their perseverance and resilience, while spotlighting the challenges they continue to face. Luminous and eye-opening, this eclectic collection helps people and communities of color today reimagine what it means to be dedicated to the soil.

*Black Harvest* M.C. Planck, 2019-06-11 The final chapter in the saga of Christopher Sinclair, mechanical engineer turned priest of war. Be careful what you wish for. Christopher finds himself on a throne, squeezing taxes, and guarding against incipient rebellions. This is a far

cry from his democratic socialist revolution. But the danger is not limited to self-betrayal. He has seen the face of his true enemy, and it is a face of nightmare. Immortals and nigh-immortals have plans for him, plots that span a hundred thousand years, and traps of unimaginable deviousness. Against all this, what can one reluctant ruler do? The answer, of course: build a bigger bomb.

**The Harvest of American Racism** Robert Shellow, 2018-12-12 In the summer of 1967, in response to violent demonstrations that rocked 164 U.S. cities, the National Advisory Commission on Civil Disorders, a.k.a. the Kerner Commission, was formed. The Commission sought reasons for the disturbances, including the role that law enforcement played. Chief among its research projects was a study of 23 American cities, headed by social psychologist Robert Shellow. An early draft of the scientists' analysis, titled "The Harvest of American Racism: The Political Meaning of Violence in the Summer of 1967," provoked the Commission's staff in November 1967 by uncovering political causes for the unrest; the team of researchers was fired, and the controversial report remained buried at the LBJ Presidential Library until now. The first publication of the Harvest report half a century later reveals that many of the issues it describes are still with us, including how cities might more effectively and humanely react to groups and communities in protest. In addition to the complete text of the suppressed Harvest report, the book includes an introduction by Robert Shellow that provides useful historical context; personal recollections from four of the report's surviving social scientists, Robert Shellow, David Boesel, Gary T. Marx, and David O. Sears; and an appendix outlining the differences between the unpublished Harvest analysis and the well-known Kerner Commission Report that followed it. "The [Harvest of American Racism] report was rejected

by Johnson administration functionaries as being far too radical—politically ‘unviable’... Social science can play an extremely positive role in fighting racial and other injustice and inequality, but only if it is matched with a powerful political will to implement the findings. That will has never come from within an American presidential administration—that will has only been forged in black and other radical communities’ movements for justice. The political power for change, as incremental as it has been, has come from within those communities. Washington responds, it does not lead. —from the Foreword by Michael C. Dawson “In the summer of 1967 the Kerner Commission hired a team of social scientists to explain the cause of the riots that had engulfed dozens of American cities. Their report, *The Harvest of American Racism*, was so controversial that the commission staff ordered it destroyed. Now, Robert Shellow and his team have published *Harvest*, along with insightful and revealing essays that provide appropriate context and perspective. This is an important book that is as relevant today as it was five decades ago.” —Steven M. Gillon, author of *Separate and Unequal: The Kerner Commission and the Unraveling of American Liberalism* “In 1968 the Kerner Commission concluded that cities across the nation had been erupting because blacks were frustrated with the slow pace of racial and economic equality. It turns out that the Commission had been presented with a far more radical analysis of those urban uprisings, in an extraordinary report called *The Harvest of American Racism*. This report was not only ignored, but actively suppressed. Now black rage is once again rocking our nation’s major cities, and it is past time that we take a close look at what policymakers dismissed 50 years ago. As the *Harvest* report made clear, those who took to the streets in 1968 weren’t merely frustrated and filled with despair. They were

politically engaged, they believed that racial oppression's root causes must be addressed rather than its surface expressions, and they would never stop erupting until change really happened. The *Harvest of American Racism* is a must-read, as relevant today as it was 50 years ago." —Heather Ann Thompson, Pulitzer-Prize winning author of *Blood in the Water: The Attica Prison Uprising of 1971 and Its Legacy* "This seminal study from the 1960s provides a hard-hitting and insightful look at the roots of racial discrimination of the United States. Jettisoned by the Kerner Commission for something less radical, this eye-opening analysis still speaks volumes in our current age." —Julian E. Zelizer, Malcolm Stevenson Forbes, Class of 1941 Professor of History and Public Affairs, Princeton University, and CNN Political Analyst Psychologist Robert Shellow was Research Director for the National Advisory Commission on Civil Disorders. He later directed a pilot police program for the Washington, DC, Department of Public Safety and taught at Carnegie Mellon University, before starting his own consulting business.

*Harvest of Sighs* Sierra Simone, 2020-05-01 The genius and the sunshine girl. As children, we fought bitterly and often, bickering every chance we got. But then we grew up. Then we came back. Delphine Dansey carries her heart on the outside of her body; she's looking for love and chasing dreams. She's spoiled and selfish, the kind of beautiful that's made for money and fame. But somehow she's ended up in my keeping: a pretty submissive I can't seem to resist, a lover who obsesses and tempts me. I thought I'd locked my heart away a long time ago, along with all my other weaknesses. But some doors won't stay closed, no matter how hard I fight to keep them shut. She unravels me, just like our friends are unraveling, just like Thornchapel itself is unraveling. All year long, we've been sowing

lust and jealousy and pain, heedless of the consequences. But a harvest is inevitable, and so now we must reap our sorrows. And our sighs.

\*Harvest of Sighs is Book Three in the Thornchapel series.\*
