Blacklist Jerry Ludwig, 2014-06-10 The last time the United States looked on its own citizens with suspicion, the results were ruined dreams, shattered lives...and murder. Jerry Ludwig's *Blacklist* Today, people point fingers and shout, terrorist! Not long ago, the accusation was Communist! Many who testified before the House UnAmerican Activities Committee said they did so out of desperation and fear. Those who refused to speak were fired or blacklisted. Others fled rather than betray friends...or their belief in American liberty. David Weber and Jana Vardian were Hollywood's golden children; their fathers, successful screenwriters, mingled with stars and studio moguls. Then HUAC shattered their idyll, sending David and his parents into exile in Europe; Jana's father testified and soon became a famous director. Returning to Los Angeles as an adult to bury his father, David comes to the attention of FBI agent Brian McKenna, who is still eager for a big case. The somewhat jaded McKenna remains eager for a big case. Jana Vardian watched her father torture himself after testifying; David's return painfully reminds her that she once believed in love and loyalty. When people with ties to HUAC and to David's father begin turning up dead, long-buried secrets are dragged into the open. McKenna quickly tags David as the prime suspect, but in a world where special effects can turn a man into a beast, Hollywood's sheen of glamour cannot long mask its dark past. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Blacklist Sara Paretsky, 2004-08-31 V. I. Warshawski explores secrets and betrayals that stretch across four generations in this New York Times bestselling novel from one of the most compelling writers in American crime fiction... “A thoughtful, high-tension mystery.”—The Washington Post Book World “A genuinely exciting and disturbing thriller.”—Chicago Tribune As a favor to her most important client, V. I. agrees to check up on an empty mansion. But instead of a mysterious intruder she discovers a dead man in the ornamental pond—a reporter for an African-American publication whom the suburban cops are quick to dismiss as a suicide. When the man’s shattered family hires V. I. to

investigate, she is sucked into a Gothic tale of sex, money, and power, leading her back to McCarthy-era blacklists and forward to some of the darker aspects of the Patriot Act. As V. I. finds herself penned in to a smaller and smaller space by an array of people trying to silence her, and before she can untangle the sordid truth, two more people will die—and V.I.'s own life will hang in the balance.

Appealing to the typical viewer, G. Walter Bush interprets the NBC series' audio-visual text, focusing on facets of its plot, theme, characterization, imagery, soundtrack and cinematography that many don't detect and mark the show as a work of literary sophistication. The Season One volume focuses primarily on the debut season's four central characters: Raymond Reddington, Agent Elizabeth Keen, Tom Keen, and Special Agent Donald Ressler. Volumes on future seasons will feature increased attention to the supporting cast as individual characters enjoy enhanced development.

Broadway and the Blacklist K. Kevyne Baar, 2019-01-21 During the era often commonly known as McCarthyism, many motion picture and television creators were blacklisted for supposed communist ties. There remained, however, a creative outlet that still welcomed these artists--theatre. This book explores the role theatre played during this turbulent

period, covering the formation of the Theatre Guild (which birthed the Group Theatre), the short-lived Federal Theatre Project, and the investigations of the motion picture and television industries, and Broadway, by the House Un-American Activities Committee (HUAC). Appendices discuss McCarthy's role and present the memos of investigator Dolores Faconti Scotti, along with a list of prominent witnesses in HUAC's Broadway hearings, and reactions by artists' unions in the decades following the blacklist.

The Other Blacklist Mary Helen Washington, 2014-04-08 Mary Helen Washington recovers the vital role of 1950s leftist politics in the works and lives of modern African American writers and artists. While most histories of McCarthyism focus on the devastation of the blacklist and the intersection of leftist politics and American culture, few include the activities of radical writers and artists from the Black Popular Front. Washington's work incorporates these black intellectuals back into our understanding of mid-twentieth-century African American literature and art and expands our understanding of the creative ferment energizing all of America during this period. Mary Helen Washington reads four representative writers—Lloyd Brown, Frank London Brown, Alice Childress, and Gwendolyn Brooks—and surveys the work of the visual artist Charles White. She traces resonances of leftist ideas and activism in their artistic achievements and follows their balanced critique of the mainstream liberal and conservative political and literary spheres. Her study recounts the targeting of African American as well as white writers during the McCarthy era, reconstructs the events of the 1959 Black Writers' Conference in New York, and argues for the ongoing influence of the Black Popular Front decades after it folded. Defining the contours of a distinctly black modernism and its far-

ranging radicalization of American politics and culture, Washington fundamentally reorients scholarship on African American and Cold War literature and life.

The Bankers' Blacklist Julia C. Morse, 2022-01-15 In *The Banker's Blacklist*, Julia C. Morse demonstrates how the Financial Action Task Force (FATF) has enlisted global banks in the effort to keep bad money out of the financial system, in the process drastically altering the domestic policy landscape and transforming banking worldwide. Trillions of dollars flow across borders through the banking system every day. While bank-

to-bank transfers facilitate trade and investment, they also provide opportunities for criminals and terrorists to move money around the globe. To address this vulnerability, large economies work together through an international standard-setting body, the FATF, to shift laws and regulations on combating illicit financial flows. Morse examines how this international organization has achieved such impact, arguing that it relies on the power of unofficial market enforcement—a process whereby market actors punish countries that fail to meet international standards. The FATF produces a public noncomplier list, which banks around the world use to shift resources and services away from listed countries. As banks restrict cross-border lending, the domestic banking sector in listed countries advocates strongly for new laws and regulations, ultimately leading to deep and significant compliance improvements. The Bankers' Blacklist offers lessons about the peril and power of globalized finance, revealing new insights into how some of today's most pressing international cooperation challenges might be addressed.
