An Introduction to Transactional Analysis Phil Lapworth,Charlotte Sills,2011-05-12 This thoroughly revised edition of Transactional Analysis Counselling introduces the theory and practice of TA - which integrates cognitive behavioural and psychodynamic theories within a humanistic philosophy - from a unique relational perspective. While most TA books focus on one field, this approach demonstrates the benefits of TA across a wide variety of helping settings, business and management, education and coaching as well as counselling. Case studies from a variety of contexts bring TA to life for trainees in any of these disciplines, and the accessible, engaging writing style makes difficult concepts understandable for undergraduates and postgraduates alike. Bringing their book into the twenty-first century, expert authors Phil Lapworth and Charlotte Sills provide a brief history of TA followed by individual chapters on the concepts and techniques used. Each chapter is devoted to one concept and includes a detailed definition and description, and suggestions for application in practice. Exercises for student, practitioner and client, boxed summaries, diagrams, checklists and sources of further reading make this the ideal text for use in training. This book is an essential companion for those embarking on specialist TA courses or studying TA as part of wider training, while those who want simply to integrate TA into their work with people can dip into it as suits their needs.

A History of the Mishnaic Law of Purities, Part 9 Jacob Neusner,2007-04-01 The history of Jews from the period of the Second Temple to the rise of Islam. From 'A History of the Mishnaic Law of Appointed Times, Part 1' This volume introduces the sources of Judaism in late antiquity to scholars in adjacent fields, such as the study of the Old and New Testaments, Ancient History, the ancient Near East, and the history of religion. In two volumes, leading American, Israeli, and European specialists in the history, literature, theology, and archaeology of Judaism offer factual answers to the two questions that the study of any religion in ancient times must raise. The first is, what are the sources -- written and in material culture -- that inform us about that religion? The second is, how have we to understand those sources in reconstructing the history of various Judaic systems in antiquity. The chapters set forth in simple statements, intelligible to non-specialists, the facts which the sources provide. Because of the nature of the subject and acute interest in it, the specialists also raise some questions particular to the study of Judaism, dealing with its historical relationship with nascent Christianity in New Testament times. The work forms the starting point for the study of all the principal questions concerning Judaism in late antiquity and sets forth the most current, critical results of scholarship.

Major Bible Themes Paul E. Snuffer,2022-10-07 It is important for our young people to know what they believe and why they believe it, as they face the challenges of a godless and secular world. Unless we provide them with a solid biblical foundation, they are apt to accept destructive philosophies and succumb to social pressures. Major Bible Themes has been developed to help young people and new believers be firmly grounded in the truth of the major doctrines of the Bible. This book is a great teaching tool for Christian high schools, Bible colleges, adult/teen home Bible studies, home school curriculum, pastor's Bible instruction class (pastor's confirmation class), Sunday school class, as well as one-on-one discipleship. Students who have been taught this material still use this book as a reference to answer questions many years later.

Africa Howard Thomas,Michelle Lee,Lynne Thomas,Alexander Wilson,2017-05-24 This is the second of two volumes, written with strong support from the EFMD (European Foundation for Management Development) and the GMAC (Graduate Management Admission Council), aimed at understanding and examining the challenges of developing management education across Africa.
