**CAMION BLANC** Mick Wall, Né dans un garage miteux de Los Angeles au début des années quatre-vingt, rien ne disposait vraiment Metallica à devenir ce qu'il est aujourd'hui. Enfin, rien à part Lars Ulrich. Batteur à la technique limitée sur les premiers enregistrements du groupe, celui-ci se rattrape aisément grâce à son sens des affaires et à son flair quasi-imparable. Mick Wall retrace ici toute l'aventure du groupe et évite soigneusement de donner le point de vue d'un fan aveuglé par son amour pour le groupe. Il n'oublie aucun des moments difficiles que le groupe a traversés – Dave Mustaine, Cliff Burton, le son de ...And Justice for All, l'affaire Napster (où Lars avait apparemment perdu son flair), la réinvention du groupe pour l'album Load, le documentaire Some Kind of Monster, l'enregistrement de St. Anger... – tout y passe dans le moindre détail et Wall n'hésite pas à donner un avis personnel tranché à chaque fois que cela lui semble pertinent. Mais il n'oublie pas non plus que Metallica est un géant de la musique moderne, fondateur du thrash metal, genre musical sans concession que le groupe a réussi à transcender pour devenir l'un des derniers monstres du rock.

**Architecture américaine d'aujourd'hui** Barbaralee Diamonstein,1983 L'architecture américaine d'aujourd'hui représente une histoire orale provocatrice de l'architecture américaine récente, tirée d'une série d'entretiens à bâtons rompus que Barbaralee Diamonstein, écrivain, éditeur, enseignante et interviewer à la télévision a conduits avec quatorze architectes renommés. Ces conversations publiques, toujours riches en informations et souvent amusantes, ont été, à l'origine, enregistrées par vidéo à la New School for Social Research/Parsons School of Design. Le travail de chacun des architectes y est examiné ; les sujets évoqués dans ces entretiens comprennent : l'impact de l'architecture sur la vie urbaine, les réglementations gouvernementales et de zoning, la consommation d'énergie, le recyclage, la conservation historique, 'le sens du lieu', les systèmes économiques de logement, les relations entre l'architecture et les arts et les implications du 'post-modernisme'.

L'ennemi du peuple Jim Acosta,2019-09-11 Le journaliste ennemi n°1 de Trump raconte la Maison-Blanche de l'intérieur. Correspondant en chef chevronné de CNN à la Maison-Blanche, Jim Acosta livre un témoignage explosif sur les menaces qui pèsent sur lui depuis qu'il s'est opposé au Président Trump. Depuis l'annonce de sa candidature, en 2015, Donald Trump mène une campagne contre ce qu'il appelle les « Fake News », et n'hésite pas à s'en prendre directement aux médias et aux journalistes, qu'il qualifie d'« ennemis du peuple ». Pris personnellement pour cible par le Président, Jim Acosta est rapidement devenu l'ennemi public numéro un. Dans ce récit de première main, le journaliste présente un examen accablant du dysfonctionnement bureaucratique, du mensonge et de la menace sans précédent que la rhétorique du leader du monde libre fait peser sur la démocratie américaine. Des démentis fumeux aux accusations visant à discréditer l'enquête Mueller, en passant par les tweets calomnieux du Président, Jim Acosta informe en direct des millions de personnes à travers le monde des dérives de l'administration Trump. Menacé de mort et violenté par certains partisans du Président, Acosta n'est pourtant pas prêt d'abandonner son combat, et il engage ses concitoyens à suivre son exemple. Après avoir passé des centaines d'heures auprès des équipes tournantes de la Maison-Blanche, Acosta dresse dans ce livre les portraits de Sarah Huckabee Sanders, Stephen Miller, Steve Bannon, Sean Spicer, Hope Hicks, Jared Kushner et bien d'autres. La bataille publique d'un journaliste qui ne recule devant rien pour protéger le Premier Amendement de la Constitution américaine et la liberté d'information (#RealNews). Jim Acosta est le correspondant en chef de CNN à la Maison-Blanche, chargé de couvrir l'administration Trump. Auparavant, ses rapports concernaient l'administration Obama à la Maison-Blanche et l'actualité mondiale. Il couvre régulièrement des conférences de presse présidentielles, les visites de chefs d'États et les problématiques impactant la branche exécutive du gouvernement fédéral.

**The Mosaics of Roman Crete** Rebecca J. Sweetman,2013-05-31 This book examines the rich corpus of mosaics created in Crete during the Roman and Late Antique eras. It provides essential information on the style, iconography and chronology of the material, as well as discussion of the craftspeople who created them and the technologies they used. The contextualized mosaic evidence also reveals a new understanding of Roman and Late Antique Crete. It helps shed light on the processes by which Crete became part of the Roman Empire, its subsequent Christianization and the pivotal role the island played in the Mediterranean network of societies during these periods. This book provides an original approach to the study of mosaics and an innovative method of presenting a diachronic view of provincial Cretan society.

**Evidence-Based Oncology** Christopher B. Williams,2008-04-15 This is a book about using the best evidence to inform treatment decisions for people with cancer. It is written by oncologists for oncologists, using examples throughout to illustrate key points. The book starts off with a toolbox section, written in a way which will help those relatively new to the principles of evidence-based oncology to understand the key issues, and equip them with the basics of how to tell a good study from a bad one. The majority of the book then deals with an evidence-based summary of the common and important cancers in a structured and easy to read format around common patient scenarios and frequently asked questions. Whilst most of the evidence is based on randomised controlled trials, other studies are cited where appropriate eg when discussing adverse events. The unique accompanying book website will contain updates of new chapters and studies as they become available. Written by leading world figures in the evidence-based movement Includes free CD-ROM with PC eBook and sample PDA chapter Methodology of reviewing and appraising evidence discussed in the context of cancer management Clinical sections covering prevention and screening Chapters on treatment of the individual major cancers review the current best available evidence to most frequently asked questions Rigorously structured explicit searches, evidence of efficacy and harms, plus comment around clinical scenarios Free-access update website keeping the text current and live: [www.evidbasedoncology.com](http://www.evidbasedoncology.com)

**Overlooked Cities** Hanna A. Ruszczyk, Erwin Nugraha, Isolde de Villiers,2020-12-29 Overlooked Cities reflects and impacts the changing landscape of urban studies and geography from the perspective of smaller and more regional cities in the urban South. It critically examines the ways in which cities are uniquely positioned within different urban and knowledge hierarchies. The book unpacks the dynamics of “overlooked-ness” in these cities, identifies emerging trends and processes that characterise such cities and provides alternative sites for comparative urban theory. It is organised into two themes: firstly, politics and power and secondly, production and negotiation of knowledge. The authors share a commitment to challenging the unevenness of urban knowledge production by approaching these cities on their own terms. Only then can we harness the insights emanating from these overlooked cities, and contribute to a deeper and richer understanding of the urban itself. This collection of essays, focusing on 13 cities in nine countries and across three continents (Luzhou, China; Bharatpur, Nepal; Bloemfontein/Mangaung and Pretoria/Tshwane, South Africa; Zarqa, Jordan; Santa Fe, Argentina; Manizales, Colombia; Arequipa and Trujillo, Peru; Dili, Timor-Leste; Bandar Lampung, Semarang and Bontang, Indonesia) makes a timely contribution to urban scholarship. The volume will be of interest to scholars from the disciplines of urban studies, geography, development and anthropology, as well as postgraduate students researching the global South and third year undergraduate students studying cities and urban studies, development and critical thinking.
