Zeigler Matt (author)

Three Block War Matt Zeigler,2004 U.S. Marine Corps General Charles C. Krulak predicted in the 1990s that 21st Century Warfare would be a multi-faceted endeavor, fought primarily on urban terrain. He defined it as Three Block War. The former Commandant's foresight was proven correct in the spring of 2003 during Gulf War II against Iraq. Block I: Humanitarian Aid. After three decades of Saddam/Baath Party rule and three wars, the Iraqi people would need everything from food, water and medical aid to a new justice system...Block II: Peacekeeping Operations. Once Saddam was defeated, Marines would contend with infighting amongst various religious and ethnic groups...Block III: Combat. In small towns and big cities throughout Iraq, Marines engaged Iraqi Army/Republican Guard forces in full-scale battles, including tank and artillery duels, with F-18, Harrier and Super Cobra gunship close air support. They'd also confront asymmetrical guerilla forces. Iraq was also a Mecca for terrorists, foreign and domestic. Battles at Baghdad, Nasiriyah, Umm Qasr, Diwaniyah and elsewhere made Gulf War II a grunt's war.

Block by Block William Glenn Robertson, Lawrence A. Yates,2003 First published by the Combat Studies Institute Press. The resulting anthology begins with a general overview of urban operations from ancient times to the midpoint of the twentieth century. It then details ten specific case studies of U.S., German, and Japanese operations in cities during World War II and ends with more recent Russian

attempts to subdue Chechen fighters in Grozny and the Serbian siege of Sarajevo. Operations range across the spectrum from combat to humanitarian and disaster relief. Each chapter contains a narrative account of a designated operation, identifying and analyzing the lessons that remain relevant today.

**Joint Task Force Commanders and the "Three Block War"** Phillip W. Boggs,2000 This monograph examines the critical role played by the Joint Task Force Commander (CJTF) in setting operational level of war conditions required to ensure success at the tactical level of war. The armed forces of the United States are challenged with a new type of warfare at the end of the 20th Century. A complex strategic scenario has emerged reflecting an increase in the number of regional conflicts. These regional conflicts are centered on urban areas, which have experienced an explosion in population growth. Urban areas have become prime targets for opposing factions to create and foster conflicts. General Charles Knilak, former Commandant of the Marine Corps, labeled these conflicts 'Three Block wars.' They consist of three major operations occurring simultaneously within an urban environment: humanitarian assistance, peace operations and combat operations. The United States along with concerned nations in the region are conducting preventative deployments to the crisis areas to stem local conflicts before they become regional wars. Deployed forces are normally organized as Joint Task Forces (JTFs).

**The Carnage was Fearful** Michael Block,2021-12-06 “Profusely illustrated . . . an extraordinary and detailed account of a major battle that is often overlooked and underappreciated by Civil War historians.”

—Midwest Book Review In early August 1862, Confederate Maj. Gen. Stonewall Jackson took to the field with his Army of the Valley for one last fight—one that would also turn out to be his last independent command. Near the base of Cedar Mountain, in the midst of a blistering heat wave, outnumbered Federal infantry under Maj. Gen. Nathaniel Banks attacked Jackson's army as it marched toward Culpeper Court House. A violent three-hour battle erupted, yielding more than 3,600 casualties. "The carnage was fearful," one observer wrote. The unexpected Federal aggressiveness nearly won the day. Jackson, attempting to rally his men, drew his sword—only to find it so rusted, it would not come unsheathed. "Jackson is with you!" he cried, brandishing the sword still in its scabbard. The tide of battle turned—and the resulting victory added to Stonewall's mystique. Civil War history typically breezes by the battle of Cedar Mountain, moving quickly from the Seven Days' Battles into the Second Bull Run Campaign, but the stand-alone battle at Cedar Mountain had major implications. It saw the emergence of the Federal cavalry as an effective intelligence collector and screening force. It also provided Confederate Maj. Gen. A.P. Hill's first opportunity to save the day—and his first opportunity to raise Jackson's ire. Within the Federal Army, the aftermath of the battle escalated the infighting among generals and led to recriminations and finger-pointing over why the battle was even fought. Some called it outright murder. Most importantly, the Federal defeat at Cedar Mountain halted an advance into central Virginia and provided the commander of the Army of Northern Virginia, Gen. Robert E. Lee, an opportunity to take the fight away from Richmond and toward Washington. For years, Michael Block has been deeply involved in developing interpretation for the Cedar Mountain battlefield. *The Carnage was Fearful* presents the battle with the full

boots-on-the-ground insight Block has earned while walking the ground and bringing its story to life.

Three Block War Matt Zeigler, 2015-10-09 Three Block War: Darkside chronicles 3rd Battalion, 4th Marines during Operation Iraqi Freedom in 2003 and 2004. 'Chopped' from the full-length Three Block War: U.S. Marines in Iraq, Darkside first recounts 3/4's assault to Baghdad in 2003; which began with battles against Iraq's 51st Mechanized Division at Basrah. The Three-four, also known as 'Darkside,' then engaged Republican Guard formations and asymmetric threats in central Iraq at Diwaniyah and al-Kut. Before 1st Marine Division entered Baghdad, Darkside breached a minefield and braved artillery fire during the Diyala River crossing that allowed access to the capital. When the battalion, remaining under command of Lt. Col. B.P. McCoy, returned to Iraq in the spring of 2004, it was assigned to the Haditha Dam area. While it secured Haditha with small-unit patrols, 3/4 also saw combat action during the first battle of Fallujah in April 2004; and north of Fallujah at 'Bad' Kharma.

*The Blocksize War* Jonathan Bier, 2021-03-14 This book covers Bitcoin's blocksize war, which was waged from August 2015 to November 2017. On the surface the battle was about the amount of data allowed in each Bitcoin block, however it exposed much deeper issues, such as who controls Bitcoin's protocol rules. It is not possible to cover every twist and turn in the labyrinthine conflict or all the arguments, but I have provided a chronology of the most significant events. This book explores some of the major characters in the conflict and includes coverage, from both the front lines and behind the scenes, during some of the most acute phases of the struggle. The account in this book includes discussions with the key players from both sides during the war, exploring their motivations, strategy and thought processes as

the exhausting campaign progressed and developed.

*Three Block War* Matt Zeigler, 2015-10-09 *Three Block War: The Cutting Edge*, excerpted from the full-length *Three Block War: U.S. Marines in Iraq*, recounts the exploits of 3rd Battalion, 7th Marines during Operation Iraqi Freedom I and II, 2003-2004. As a maneuver battalion of Regimental Combat Team 7, the 3/7 began OIF I securing Rumaila Oil Field in southern Iraq. At Rumaila, 3/7, reinforced with 1st Tank Battalion, engaged elements of Iraq's 32nd Brigade, and captured the headquarters of 51st Mechanized Division. After fighting its way through Basrah and encountering scattered resistance in Central Iraq, 3/7 fought Republican Guard units at Salman Pak; a Baghdad suburb. Inside Baghdad, 3/7, nicknamed "The Cutting Edge," saw more gun battles with Republican guards and asymmetric forces; including a battle at Rasheed Air Base. During OIF II in 2004, Three-Seven was assigned to the cutting edge of Western Iraq's Anbar Province: the Syrian border. At Husaybah, a half-mile from the border, Kilo 3/7's Cpl. Jason Dunham won the Medal of Honor, posthumously, after a convoy ambush on April 14, 2014. Three days after Cpl. Dunham's heroics, the entire battalion returned to Husaybah and battled 300 mujihedeens.

**Concrete Hell** Louis A. DiMarco, 2012-11-20 Throughout history cities have been at the center of warfare, from sieges to street-fighting, from peace-keeping to coups de mains. Sun Tzu admonished his readers of *The Art of War* that the lowest realization of warfare was to attack a fortified city. Indeed, although strategists have advised against it across the millennia, armies and generals have been forced nonetheless to attack and defend cities, and victory has required that they do it well. In *Concrete Hell* Louis DiMarco has provided a masterful study of the brutal realities of urban warfare, of what it means to seize

and hold a city literally block by block. Such a study could not be more timely. We live in an increasingly urbanizing world, a military unprepared for urban operations is unprepared for tomorrow. Di Marco masterfully studies the successes and failures of past battles in order to provide lessons for today's tacticians.

**Three Block War** Matt Zeigler,2015-10-09 Three Block War: Vigilant Resolve is an excerpt of the full-length Three Block War. Vigilant Resolve recounts the action of Marines in the first Fallujah battle of April 2004 against Iraqi mujahideen. Marine units included 2nd Battalion, 1st Marines, which battled insurgents in 'The Jolan,' a congested northwestern Fallujah neighborhood where the 2/1 engaged in vicious urban combat. In the southeast, 1st Battalion, 5th Marines advanced from an industrial zone into Fallujah's urban battle template; which included IEDs, ambushes, indirect fire, and snipers firing from the towering minarets of mosques. One-Five and Two-one's main assault was reinforced by 'Darkside,' 3rd Battalion, 4th Marines; and supported by units such as Bravo Company, 1st Reconnaissance Battalion, which endured a brutal ambush in rural farmland south of Fallujah.

**Aboard the Farragut Class Destroyers in World War II** Leo Block, 2009-06-08 This book describes the life of the enlisted men aboard a Farragut class destroyer during the pre-World War II years; the war preparation period in 1941; and the wartime years. It features first-person narrations collected from interviews and correspondence with the few remaining Farragut class destroyer sailors, and briefly describes the evolution of the destroyer and the Farragut class destroyers, five of which survived the war.

**The Strategic Corporal Revisited** David Lovell,Deane-Peter Baker,2017-10-16 For the ordinary soldier, the non-commissioned officer and the junior officer—the large proportion of the lower strata in military organisations—the expectations of levels of responsibility and decision-making are rapidly increasing. In 1999, US Marine Corps General Charles C. Krulak addressed this in his essay ‘The Strategic Corporal: Leadership in the Three-Block War’, which described the range of challenges likely to be faced by marines on the modern battlefield and where a range of operations (fighting, peace works and humanitarian assistance) might occur simultaneously within a very limited precinct (three blocks). The chapters in this book use the metaphor of the ‘strategic corporal’ to focus on the demands facing junior leaders in military operations in the twenty-first century, and what might be done to enhance their ability to respond to them. The circumstances in which these decisions are made need to be better understood, by soldiers and their critical onlookers, be they villagers on the scene, senior military or political leaders remote from the operation, or anti-war activists thousands of miles away. Being ‘strategic’ is not just about a soldier’s professional mastery. Increasingly it also means a genuine familiarity with legal and ethical issues, and an ability in low-intensity conflict to understand local culture and communicate with those in villages and neighbourhoods whose goodwill, or at least neutrality, are vital to ultimate success. In the non-war circumstances in which many Western militaries operate, such as humanitarian assistance and disaster relief as well as peacekeeping operations, it means dealing with civil authorities in the distribution of aid or even

the administration of justice if local institutions have broken down. Sometimes it involves negotiation and mediation. It may even mean having an understanding of the ways pervasive modern media works, and its potential to surveil—and sometimes derail—a mission. Sometimes it also means having a better understanding of the challenges that face the soldier's own defence force: including the malign effects of bureaucratic inertia and the 'outsourcing' of key capabilities to private contractors. The book combines theoretical discussions with practical examples, but it is not—as so many books about future conflict are—a discussion of the technology of future war. Rather, it provides opportunities for specialists in a range of security-related fields to consider the issues and challenges of military leadership, the role of civilians and contractors, the importance of International Humanitarian Law, and even whether strategic gains can be made without the deployment of troops ('strategic corporals' or otherwise).

*Three Block War* Matt Zeigler, 2015-10-08 From *Three Block War: U.S. Marines in Iraq*, author Matt Zeigler 'chopped' Fallujah 5K; which chronicles the hard-core ground assault of 1st Battalion, 8th Marines during Operation Phantom Fury, the second battle of Fallujah in November 2004. Hailing from the swamps of Camp Lejeune, the proud warriors of 1/8 proved 2nd Marine Division was second to none! Unlike other Marine and army units that assaulted Fallujah in amtracks, tanks, LAVS, Humvees, Strykers or Bradleys, the 1/8 assaulted on foot the entire three-mile depth of Fallujah; which became known as the 'Fallujah 5K.' Fallujah's treacherous streets and alleys thrived with mujahideen wielding AK-47s and machine guns. While keeping alert for ambushes and IEDs at street level, snipers took aim from above inside the towering minarets of mosques. But even when they were caught by machine-gun crossfire,

One-Eight overcame all obstacles in the bloody streets of Fallujah.

*How Wars Are Won* Bevin Alexander, 2007-12-18 Even as we head into twenty-first-century warfare, thirteen time-tested rules for waging war remain relevant. Both timely and timeless, *How Wars Are Won* illuminates the thirteen essential rules for success on the battlefield that have evolved from ancient times until the present day. Acclaimed military historian Bevin Alexander's incisive and vivid analyses of famous battles throughout the ages show how the greatest commanders—from Alexander the Great to Douglas MacArthur—have applied these rules. For example: • Feign retreat: Pretend defeat, fake a retreat, then ambush the enemy while being pursued. Used to devastating effect by the North Vietnamese against U.S. forces during the Vietnam War. • Strike at enemy weakness: Avoid the enemy's strength entirely by refusing to fight pitched battles, a method that has run alongside conventional war from the earliest days of human conflict. Brilliantly applied by Mao Zedong to defeat the Chinese Nationalists. • Defend, then attack: Gain possession of a superior weapon or tactical system, induce the enemy to launch a fruitless attack, then go on the offensive. Employed repeatedly against the Goths by the Eastern Roman general Belisarius to reclaim vast stretches of the Roman Empire. The lessons of history revealed in these pages can be used to shape the strategies needed to win the conflicts of today.
