Blogging for Beginners Salvador Briggman,2018-01-26 It was literally insane. I was 24 years old, and I felt like I was rich. I could go anywhere, at any time, and had no one to answer to. At a moment's notice, I could book a trip to Brazil, Spain, South Africa, or France. What's more... I'd make money while I was traveling. The catch was, I wasn't rich. Nowhere close. Don't get me wrong, I was making good money. I was living in New York City. I could afford to party, eat out, and even save money. But, my time wasn't tied to my money. I was making money in my sleep, and not even trying. Sounds like the story behind some kind of scam, right? I thought so too. I never bought into book titles like The Four-Hour Work Week, Rich Dad Poor Dad, or Think and Grow Rich. When I talked about my job with relatives and family members, they'd raise their eyebrows in surprise. They'd look at me doubtfully and say, And you can make money at that? Of course I could! After all, so many people online were making a killing. People couldn't comprehend the fact that I was able to set up a blog so easily and rake in cash, even when I was sleeping. I had to be lying or doing something illegal. Otherwise, everyone would be doing it! This book is going to show you exactly how to start your own blog and turn it into a full-time cash-generating

machine. I'm going to give you the keys to the kingdom, which will unlock this entirely new career that you never thought possible.

Blogging Basics for Beginners Leandro Silva, 2021 Blogging and social networking are inextricably linked in the sense that both contain certain features and certain properties of one another. Both are aimed at creating a wide movement as far as multimedia interaction is concerned. Though it is true that blogs can be regulated and kept very private, the main purpose of them is to reach out to a number of people, to have a medium to voice your opinion. Another similarity is that both these concepts have existed in cyber space for almost a decade now, but in the initial stages both were rather exclusive of one another. Only in the recent times have they been merged, and their similarity in motives truly recognized. Blogging is essentially done to channel your thoughts out on to an online journal. You also want other people to read what you have written. This way, you go about coming in touch with people from all over the world who you would not have otherwise known. Similar is the function of social networking. It is a hub where the young and the hearty flock. The chances of getting an audience at such a platform are high. The origination of the term 'blog' is interesting. It was initially called a 'weblog' meaning a log or a diary or a journal that helps you to record your thoughts on a day to day basis. In that sense it was rather in its primitive stages and did not turn into an instrument for propaganda immediately. This term was later shortened to blog and this is when free blogging services like Blogger became extremely popular.
