Camilla Rothe

Black Feathers Robert & Jeanne Crawford, 2010 Follow the evolution of Black Feathers from a stock 1961 Cal 20 sailboat into an effective pocket racer. Go with her and her skipper as they sail solo from San Francisco to beautiful Hanalei Bay, Kauai in the 2008 Singlehanded TransPac. Imagine sailing 2200 miles across the Pacific Ocean in a 20-foot sailboat -- ALONE with NO ENGINE! YOU can be there.--P [4] of cover

Blue Horizons Beth Leonard, 2006-09-26 Winner Of The National Outdoor Book Award For Literature When Beth Leonard and her partner, Evans Starzinger, returned from a three-year, 35,000 mile circumnavigation, they thought they were done with offshore voyaging. But neither realized how irrevocably they had been changed by their experience, nor how irresistible the siren song of the sea would prove. In comparison, life ashore seemed dull and monochrome, and within months, Beth knew she had to go back to sea in order to remain true to the person she had become. Four years later they set out on their 47-foot aluminum sloop Hawk for a journey that lasted six years and took them more than 50,000 miles. They voyaged to Newfoundland, Iceland, Norway, the Caribbean, Ireland, Scotland, Cape Horn, New Zealand, the South Pacific, British Columbia--to the ends of the earth and back. Blue Horizons is Beth Leonard's record of that journey. Compiled from her popular columns in Blue Water Sailing magazine, which she wrote along the way, Blue Horizons is more than an adventure saga, more than the log of an extended passage. As in all great travel writing, it's the product of an insatiable hunger to explore the world, and in so doing to explore one's own soul. It is, says Beth, about pulling your dreams over the horizon to you, one sail change, one course correction at a time. But this is no dreamer's tale. Beth Leonard is both sailor and writer, well qualified to deal with and describe blue water voyaging. Her observations are as sharp as salt air and her prose as informed as it is insightful and entertaining. Beth also brings to Blue Horizons a uniquely feminine perspective, a combination of empathy, charm, and lyric grace. Her pages are suffused with emotion and a strong sense of immediacy. You're with Beth and Evans as Hawk pokes into a lonely and deserted outport on Newfoundland's barren northeast coast, and as they await hurricane Lenny in Antigua. And you sympathize as she burrows deep into her tilting berth, seeking that one, elusive interval of comfort that will bring sleep on a pounding windward passage, only to be dashed awake by the cold shock of a rogue wave spilling into her bunk. Blue Horizons is a rare journey, one to be savored by sailors and armchair adventurers alike. Praise for Blue Horizons: "In her new, wonderful book, Beth Leonard shows us a world in which 'perfection' is not bland, easy, escapist comfort in a crowded tropical harbor but a more insecure yet more rewarding existence of constant challenge--cold waters, rocky coves, old fishing villages, demanding seamanship, and the evolution of two sailors trying to manage a boat and also their own relationship." --John Rousmaniere, author of Fastnet, Force 10, After the Storm, and The Annapolis Book of Seamanship "Let Beth Leonard inspire you to sail around the world, explore the high latitudes, or discover your own capacity for adventure. Each nugget in this 'dream becomes reality' series of revelations is worth a thousand pictures." --Gary Jobson, ESPN sailing commentator, America's Cup Hall of Famer, and author of Gary Jobson's Championship Sailing "Blue Horizons chronicles a remarkable adventure through some of the globe's most inhospitable waters. . . . Every account in this collection provides a taste and sometimes a feast. It is wise, perceptive, wonderful. If you have ever wondered what it might be like to exchange conventional comforts for an adventure not packaged with round-trip airfare, Beth Leonard has written these dispatches to you." --Don Casey, author of This Old Boat and Don Casey's Complete Illustrated Sailboat Maintenance Manual

Blue Water, Green Skipper Stuart Woods, 2012-08-02 The #1 New York Times bestselling author of the Stone Barrington series tells the true story of his journey sailing alone across the Atlantic Ocean. Stuart Woods had never owned more than a dinghy before setting out on one of the world's most demanding sea voyages, navigating single-handedly across the Atlantic. How, at the age of thirty-seven, did this self-proclaimed novice go from small ponds to the big sea? Now with a new afterword that looks back at how one transatlantic race changed his life, Woods takes readers on a spectacular journey—not just of traveling across the world, but of being tried in fire, learning by accepting challenges, appreciating the beauty of the open water, and living to tell about it.

Sailing Solitaire James and Nancy Aadland, 2008-11-25 Jim and Nancy had a different dream for their retirement. They imagined themselves traveling to remote settlements on tropical Islands in their sailboat - meeting the people, learning the history, enjoying the environment, and giving a little back along the way. Their biggest challenge was how to accomplish that without the means of the rich and famous. They were a late-in-life couple; starting over in their forties. They didn't have trust funds and stock portfolios - just government jobs with modest pensions, 401K's and social security. They didn't even have a boat yet. What they did have was a plan. Sail with Jim and Nancy on their 41 foot sailboat, Solitaire, during their first year as cruisers. Read Jim's journals and Nancy's logs as they travel from New England to the Bahamas; learning one lesson after another and getting ready to venture into more remote areas of the world.

Sailing a Serious Ocean John Kretschmer, 2013-11-05 I know you'll want to read more after you finish Sailing a Serious Ocean. And be warned, you'll very likely want to sail with John, perhaps across an ocean. -- DALLAS MURPHY, AUTHOR OF ROUNDING THE HORN After sailing 300,000 miles and weathering dozens of storms in all the world's oceans, John Kretschmer has plenty of stories and advice to share. John's offshore training passages sell out a year in advance and his entertaining presentations are popular at boat shows and yacht clubs all over the English speaking world. John's talent for storytelling enchants his audience as it soaks up the lessons he learned during his often challenging voyages. Now you can take a seat next to John--at a lesser cost--and get the knowledge you need to fulfill your own dream of blue-water adventure. In Sailing a Serious Ocean, John tells you what to expect when sailing the oceans and shows how to sail safely across them. His tales of storm encounters and other examples of extreme seamanship will help you prepare for your journey and give you confidence to handle any situation—even heavy weather. Through his personal stories, John will guide you through the whole process of choosing the right boat, outfitting with the right gear, planning your route, navigating the ocean, and understanding the nuances of life at sea. Our oceans are beautiful yet unpredictable—water that is at one moment a natural mirror for the glowing sun can turn into a foamy, raging wall of fury. John knows our oceans, and he is one of the best teachers of taming and enjoying them. Before you set off across the big blue, turn to John for his inspirational stories and hard-learned advice and discover the serious sailor in you.

The Sailboat Christopher R. German, 2021-09-29 Phillip Winters is a computer guy with a dream to set sail. His lawyer wife Lucy only half shares his vision but begrudgingly follows Phillip to their first sailing class in the sailing capital of America, Annapolis, MD. She excels, while he falls behind. Setting out to find the perfect boat, whether his wife approves or not, Phillip finds a storm-ravaged boat and gets in over his head, much to his wife's disapproval. They move to Beaufort, NC, and fix up the derelict vessel without having the first clue of how to fix a boat or even how to sail for that matter. They quickly realize that it is a task they are ill-equipped to handle, and one which they lack the experience or know-how to tackle. Thankfully, like so many who have gone before them, they have the financial means to push forward, even if they should run away. A brief stay in a town that resembles a third-world banana republic and a run-in with what all Southerners affectionately call "water bugs", they manage to launch their dream boat and set sail after a rum-soaked christening in Oriental, the sailing capital of North Carolina. Bumping down the coast to Florida, hopping from port to port, the couple experiences the highs and lows of the live-aboard lifestyle, including surprise expenses, sweaty nights on the

high seas, and morally questionable port adventures with fellow boat owners. The Sailboat is a cautionary tale about boat ownership and relationships and demonstrates to those who are dreaming of ditching their COVID cocoon by heading out on the high seas that the live-aboard life is rarely smooth sailing.

Sailing Adventures in Paradise Vincent Bossley,2008 Chronicle of authors' four years sailing adventure in the Pacific Ocean and South Seas Islands. Told through the eyes of his sailboat it is a most refreshing and knowledge filled narrative with many insights and problem solving events. Great reading for anyone planning or contemplating planning their own sailing odyssey. Also includes '101 Dollar Saving Tips' useful for the cruising sailor.

The Best Ships Frank J. DiMaio,2021-11-01 When Frank DiMaio set about to take a solo sail to Bermuda to fulfill a promise to his late wife, he had no idea what the Atlantic could stir up. The harrowing details of weathering the obstacles he encountered and the people who helped him along the way provide a lesson in the triumph of survival and the importance of friendship.

Wooden Boats for Blue Water Sailors Alfred F Sanford,2020-10 Exploring the world's mystery from the deck of an ocean-going sailboat propelled by the wind and your own wits and skills, is the most magnificent of personal accomplishments. Amateur ocean sailing developed during the first half of the 20th century and reached its peak during the two decades after WWII. Then, mass produced and marketed boats subtly undercut the bond between the sailor and his boat. The sport lost its meaning. *Wooden Boats for Blue Water Sailors* explores the quiet counter-revolution to mass production boat-enabled by cold-molding and the epoxy bonding of wood--which has presented an opportunity for sailors to re-bond with their craft.*Wooden Boats for Blue Water Sailors* begins with a history of ocean sailing. Then it uses the sciences of material and structure to demonstrate the superiority of wood as a boat building material. It climaxes with the description of a new way for building an epoxy bonded wood boat that will last the next generation to use. An afterword describes use of the new technique to restore to life traditionally built wood boats that are failing, yet too precious to abandon. For sailors, *Wooden Boats for Blue Water Sailors* is a celebration of the wits and skills they exercise to sail upon the sea. For builders, *Wooden Boats for Blue Water Sailors* offers new techniques for economically building ocean going boats. For designers, *Wooden Boats for Blue Water Sailors* offers history to inspire them to remember, reflect and refine the requirements of the sea overlooked in the rush to modernity. For the craftsman, by itself, a short appendix concerning use of the tape measure will earn the cost of the book.*Wooden Boats for Blue Water Sailors* will delight and inform the sailor, boat builder, yacht designer and bring joy to those who love beautiful sailboats.

Sea Trials Peter Bourke,2014-05-30 In all, beautifully written and wonderfully inspiring.--The Wall Street Journal A poignant account that will inspire you to tackle challenging sailing endeavors as well as squarely face life's emotional challenges, finding the courage to live a fully engaged, authentic life Three years after his wife's death, Peter Bourke bought a boat--even though he had never learned to sail. In 2009, Peter entered the Oldest Singlehanded Trans-Atlantic Race at age 58. *Sea Trials* is the account of those 40 days of racing on his 44-foot sailboat Rubicon. Told with grace, insight, and humility, the book bares both the boredom and adventure of racing solo and provides insights to the value of going to sea. The author is donating all author payments to the Semper Fi Fund, an organization that provides assistance to injured soldiers, sailors, and marines and to their families.

Cathedral of the World Myron Arms,2000-04-18 The curved lines of a sailing ship resemble the inverted dome of a great cathedral, surrounded not by soot-covered buildings and crowded streets but by a vast liquid wilderness. This physical and symbolic connection is at the thematic heart of *Cathedral of the World*, a collection of essays in which writer and professional small-boat sailor Myron Arms sets out on a journey both physical and spiritual, seeking to explore what he calls the primal spaces and to articulate the sailor's age-old quest to understand his world and himself. Arms, author of the Boston Globe bestseller *Riddle of the Ice*, weaves the experiences of four decades at sea into a series of reflections that range across half a lifetime and thousands of ocean miles. During these journeys, he takes readers to some of the last wild places on Earth, climbing the hills of the North Atlantic in a full gale, watching the flight of seabirds, listening to the night-breath of whales, and pondering the questions that all such encounters inspire. What John Muir did for western forests, what Edward Abbey did for the desert, Arms now does for the ocean. In a voice that is reverent, impassioned, and clear-sighted, he celebrates the wilderness he has come to love, mourns its wounds, and demonstrates for all of us its power to heal.
