Nicolas Fox, international con man, thief, and one of the top ten fugitives on the FBI's most-wanted list, has been kidnapped from a beachfront retreat in Hawaii. What the kidnapper doesn't know is that Nick Fox has been secretly working for the FBI. It isn't long before Nick's covert partner, Special Agent Kate O'Hare, is in hot pursuit of the crook who stole her con man. The trail leads to Belgium, France, and Italy, and pits Nick and Kate against their deadliest adversary yet: Dragan Kovic, an ex-Serbian military officer. He's plotting a crime that will net him billions . . . and cost thousands of American lives. Nick and Kate have to mount the most daring, risky, and audacious con they've ever attempted to save a major U.S. city from a catastrophe of epic proportions. Luckily they have the help of an eccentric out-of-work actor, a bandit who does his best work in the sewers, and Kate's dad, Jake. The pressure's on for Nick and Kate to make this work—even if they have to lay their lives on the line.

Our Enemies in Blue Kristian Williams, 2015-08-03 Let's begin with the basics: violence is an inherent part of policing. The police represent the most direct means by which the state imposes its will on the citizenry. They are armed, trained, and authorized to use force. Like the possibility of arrest, the threat of violence is implicit in every police encounter. Violence, as well as the law, is what they represent. Using media reports alone, the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States. But such stories of police brutality only scratch the surface of a national epidemic. Every year, tens of thousands are framed, blackmailed, beaten, sexually assaulted, or killed by cops. Hundreds of millions of dollars are spent on civil judgments and settlements annually. Individual lives, families, and communities are destroyed. In this extensively revised and updated edition of his seminal study of policing in the United States, Kristian Williams shows that police brutality isn't an anomaly, but is built into the very meaning of law enforcement in the United States. From antebellum slave patrols to today's unarmed youth being gunned down in the streets,

peace keepers have always used force to shape behavior, repress dissent, and defend the powerful. *Our Enemies in Blue* is a well-researched page-turner that both makes historical sense of this legalized social pathology and maps out possible alternatives.

But just when it seems that Fox has been captured for good, he pulls off his greatest con of all: He convinces the FBI to offer him a job, working side by side with O'Hare. Their first assignment takes them to the side streets of Berlin, the California desert, and remote Indonesian islands as they team up to catch Derek Griffin, a corrupt investment banker charged with stealing millions from his clients. The Scam Janet Evanovich, Lee Goldberg, 2016-06-07 NEW

YORK TIMES BESTSELLER Nicolas Fox is a charming con man and master thief on the run. Kate O'Hare is the FBI agent who is hot on his trail. At least that's what everyone thinks. In reality, Fox and O'Hare are secretly working together to bring down super-criminals the law can't touch. Criminals like brutal casino magnate Evan Trace. Evan Trace is running a money-laundering operation through his casino in Macau. Some of his best customers are mobsters, dictators, and global terrorists. Nick and Kate will have to go deep undercover as high-stakes gamblers, wagering millions of dollars—and their lives—in an attempt to topple Trace's empire. It's a scam that will take Fox and O'Hare from the Las Vegas strip, to the sun-soaked beaches of Oahu's North Shore, and into the dark back alleys of Macau. Their only backup—a self-absorbed actor, a Somali pirate, and Kate's father, an ex-soldier who believes a rocket launcher is the best way to solve every problem. What could possibly go wrong?

The Manchurian Candidate Richard Condon, 2013-11-25 The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." —Chicago Tribune "Condon is wickedly skillful." —Time

U.S. Marines In Vietnam: The Landing And The Buildup, 1965

Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire

span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, *U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era*.

Logical Reasoning Bradley Harris Dowden, 1993 This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>
