**Governing health and consumption** Herrick, Clare,2011-07-27 This book critically explores the urban governance of healthy lifestyles and the contemporary problematisations of the obesity, sedentarism and alcohol epidemics. To do so, it uses US and UK case studies to shed light on the complex socio-spatial dynamics of responsibilities for health and argues for an engagement with the construct of sensible behaviour at a time of its rising political salience. This book will appeal to sociologists, geographers, anthropologists and those concerned with the governance of health and lifestyle.
