Building A Character Constantin Stanislavski,2013-12-04 Building a Character is one of the three volumes that make up Stanislavski's The Acting Trilogy. An Actor Prepares explores the inner preparation an actor must undergo in order to explore a role to the full. In this volume, Sir John Gielgud said, this great director "found time to explain a thousand things that have always troubled actors and fascinated students." Building a Character discusses the external techniques of acting: the use of the body, movement, diction, singing, expression, and control. Creating a Role describes the preparation that precedes actual performance, with extensive discussions of Gogol's The Inspector General and Shakespeare's Othello. Sir Paul Scofield called Creating a Role "immeasurably important" for the actor. These three volumes belong on any actor's short shelf of essential books.

Creating a Role Konstantin Stanislavsky,1989 This third volume examines the development of a character from the viewpoint of three widely contrasting plays.

The Method Acting Exercises Handbook Lola Cohen,2016-12-08 The Method Acting Exercises Handbook is a concise and practical guide to the acting exercises originally devised by Lee Strasberg, one of the Method's foremost practitioners. The Method trains the imagination, concentration, senses and emotions to 're-create' - not 'imitate' - logical, believable and truthful behavior on stage and in film. Building on nearly 30 years of teaching internationally and at the Lee Strasberg Theatre and Film Institute in New York and Los Angeles, Lola Cohen details a series of specific exercises in order to provide clear instruction and guidance to this preeminent form of actor training. By integrating Strasberg's voice with her own tried and tested style of teaching, Cohen demonstrates what can be gained from the exercises, how they can inform and inspire your learning, and how they might be applied to your acting and directing practice. As a companion to The Lee Strasberg Notes (Routledge 2010), a transcription of Strasberg's own teaching, The Method Acting Exercises Handbook offers an unparalleled and updated guide to this world renowned technique.

Devi2Diva: Become A Fierce & Fearless Force For Change Priya Florence Shah,2019-09-15 About the Book In India, Devi means Goddess. Unfortunately, Indian women are expected - by society, family and peers - to express the best qualities of the Goddess, while being treated like lesser beings. A Diva is a woman who is unafraid of expressing herself and choosing her own life path, who doesn't look to other people or to society for approval. This Book and course will transform you from a Devi, a woman who conforms to society's expectations - to a Diva, someone who chooses to live life by her own values and ideals. Who chooses what is right for her over what is expected of her. You'll learn to stop measuring yourself by other people's expectations and accept yourself fully and completely for who you are and choose to be. You'll learn how to throw off the shackles of your own limiting beliefs, rewrite your life story and design your destiny. Are you ready to transform yourself from Devi2Diva? About the Author Priya Florence Shah is a former journalist, publisher of Naaree.com, and digital marketing consultant. The Cinema of Attractions Reloaded Wanda Strauven,2006 Twenty years ago, noted film scholars Tom Gunning and André Gaudreault introduced the phrase "cinema of attractions" to describe the essential qualities of films made in the medium's earliest days, those produced between 1895 and 1906. Now, The Cinema of Attractions Reloaded critically examines the term and its subsequent wide-ranging use in film studies. The collection opens with a history of the term, tracing the collaboration between Gaudreault and Gunning, the genesis of the term in their attempts to explain the spectacular effects of motion that lay at the heart of early cinema, and the pair's debts to Sergei Eisenstein and others. This reconstruction is followed by a look at applications of the term to more recent film productions, from the works of the Wachowski brothers to virtual reality and video games. With essays by an impressive collection of international film scholars--and featuring contributions by Gunning and Gaudreault as well--The Cinema of Attractions Reloaded will be necessary reading for all scholars of early film and its continuing influence.

Production Studies Vicki Mayer,Miranda J. Banks,John T Caldwell,2009-09-10 Behind-the-scenes stories of ranting directors, stingy producers, temperamental actors, and the like have fascinated us since the beginnings of film and television. Today, magazines, websites, television programs, and DVDs are devoted to telling tales of trade lore--from on-set antics to labor disputes. The production of media has become as storied and mythologized as the content of the films and TV shows themselves. Production Studies is the first volume to bring together a star-studded cast of interdisciplinary media scholars to examine the unique cultural practices of media production. The all-new essays collected here combine ethnographic, sociological, critical, material, and political-economic methods to explore a wide range of topics, from contemporary industrial trends such as new media and niche markets to gender and workplace hierarchies. Together, the contributors seek to understand how the entire span of media producers--ranging from high-profile producers and directors to anonymous stagehands and costume designers--work through professional organizations and informal networks to form communities of shared practices, languages, and cultural understandings of the world. This landmark collection connects the cultural activities of media producers to our broader understanding of media practices and texts, establishing an innovative and agenda-setting approach to media industry

Producing Bollywood Tejaswini Ganti, 2012-03-07 These efforts have been enabled by the neoliberal restructuring of the Indian state and economy since 1991.

Pretty Rosalind Galt, 2011-06-07 Film culture often rejects visually rich images, valuing simplicity, austerity, or even ugliness as more provocative, political, and truly cinematic. Although cinema challenges traditional ideas of art, this opposition to the decorative continues a long-standing aesthetic antipathy to feminine cosmetics, Oriental effeminacy, and primitive ornament. Inheriting this patriarchal and colonial perspective along with the preference for fine over decorative art, filmmakers, critics, and theorists tend to denigrate cinema's colorful, picturesque, and richly patterned visions. Condemning this exclusion of the pretty from masculine film culture, Rosalind Galt reevaluates received ideas about the decorative impulse from early film criticism to classical and postclassical film theory. The pretty embodies lush visuality, dense mise-en-scène, painterly framing, and arabesque camera movements—styles increasingly central to world cinema. From European art house cinema to the films of Wong Kar-wai and Santosh Sivan, from handmade experimental films to the popular pleasures of *Moulin Rouge!* and *Amelie*, pretty is a vital element of contemporary cinema, using visual exuberance to communicate distinct sexual and political identities. Inverting the logic of anti-pretty thought, Galt firmly establishes the decorative image as a queer aesthetic, a singular representation of cinema's perverse pleasures and cross-cultural encounters. Creating her own critical tapestry from perspectives in art and film theory and philosophy, Galt reclaims prettiness as a radically transgressive style, woven with the threads of political agency.

The Routledge Companion to Cinema & Gender Kristin Lené Hole, Dijana Jelača, E. Ann Kaplan, Patrice Petro, 2016-11-10 Comprised of 43 innovative contributions, this companion is both an overview of, and intervention into the field of cinema and gender. The essays included here address a variety of geographical contexts, from an analysis of cinema. Islam and women and television under Eastern European socialism, to female audience reception in Nigeria, to changing class and race norms in Bollywood dance sequences. A special focus is on women directors in a global context that includes films and filmmakers from Asia, Africa, Australia, Europe, North and South America. The collection also offers a solid overview of feminist contributions to thinking on genre from the chick flick to the action or Western film, to film noir and the slasher. Readers will find contributions on a variety of approaches to spectatorship, reception studies and fandom, as well as transnational approaches to star studies and essays addressing the relationship between feminist film theory and new media. Other topics include queer and trans* cinema, eco-cinema and the post-human. Finally, readers interested in the history of film will find essays addressing the methodological dimensions of feminist film history, essays on silent and studio era women in film, and histories of female filmmakers in a variety of non-Western contexts.

Wages of Violence Thomas Blom Hansen, 2018-06-05 When Bombay changed its name to Mumbai in 1995, it was the culmination of a long process that transformed India's primary symbol of modernity and cultural diversity into a site of intense ethnic conflict and violent nationalism. *Wages of Violence* is a startling account of how the city's atmosphere, dominant public languages, and power structures have changed since the 1960s. The book centers on how Shiv Sena, a militant Hindu movement, has advanced a new, 'plebeian' political culture and has undermined democratic rule in India's premier city. Drawing on a large body of archival material and conversations with people from all walks of life, Thomas Blom Hansen paints a vivid picture of this dynamic and violent movement. Challenging conventional views of recent trends in Indian politics, Hansen shows that the xenophobic public culture of today's Mumbai has deep roots in the region's history and its contested identities. We are also given revealing insights into the city's Muslim communities and the authorities' understanding and control of the ethno-religious subcultures in the city. Hansen argues cogently that Shiv Sena's success represents the violent possibilities of the 'vernacularization' of democracy in India. Unfolding at a juncture where the globalization of India's economy is having a deepening impact on the lives of ordinary people, this is a story that resonates with the directions urban growth is taking both elsewhere in India and beyond.

Shades of Difference Evelyn Nakano Glenn, 2009-01-23 *Shades of Difference* addresses the widespread but little studied phenomenon of colorism—the preference for lighter skin and the ranking of individual worth according to skin tone. Examining the social and cultural significance of skin color in a broad range of societies and historical periods, this insightful collection looks at how skin color affects people's opportunities in Latin America, Asia, Africa, and North America. Is skin color bias distinct from racial bias? How does skin color preference relate to gender, given the association of lightness with desirability and beauty in women? The authors of this volume explore these and other questions as they take a closer look at the role Western-dominated culture and media have played in disseminating the ideal of light skin globally. With its comparative, international focus, this enlightening book will provide innovative insights and expand the dialogue around race and gender in the social sciences, ethnic studies, African American studies, and gender and women's studies.

The Color Complex Kathy Russell, Kathy Russell-Cole, Midge Wilson, Ronald E. Hall, 1993 Presents a powerful argument backed by historical fact and anecdotal evidence, that color prejudice remains a devastating divide within black America.

Digital Visual Effects in Cinema Stephen Prince, 2011-12-07 *Avatar*. *Inception*. *Jurassic Park*. *Lord of the Rings*. *Ratatouille*. Not only are these some of the highest-grossing films of all time, they are also prime examples of how digital visual effects have transformed Hollywood filmmaking. Some critics, however, fear that this digital revolution marks a radical break with cinematic tradition, heralding the death of serious realistic movies in favor of computer-generated pure spectacle. *Digital Visual Effects in Cinema* counters this alarmist reading, by showing how digital effects-driven films should be understood as a continuation of the narrative and stylistic traditions that have defined American cinema for decades. Stephen Prince argues for an understanding of digital technologies as an expanded toolbox, available to enhance both realist films and cinematic fantasies. He offers a detailed exploration of each of these tools, from lighting technologies to image capture to stereoscopic 3D. Integrating aesthetic, historical, and theoretical analyses of digital visual effects, *Digital Visual Effects in Cinema* is an essential guide for understanding movie-making today.

Is the Goddess a Feminist? Alf Hiltebeitel, Kathleen M. Erndl, 2000-11 American and Indian scholars of religion, anthropology, women's studies, and psychology look at the complex relationship between the living worship of female divinities and women in India. In keeping with the multiplicity, especially of Hinduism but also Buddhism and Jainism, the anthology presents a number of sometimes conflicting views rather than a consistent account. Only authors are indexed. c. Book News Inc.

The Predicament of Blackness Jemima Pierre, 2013 What is the meaning of blackness in Africa? This title tackles the question of race in West Africa through its post-colonial manifestations. Pierre examines key facets of contemporary Ghanaian society, from the pervasive significance of 'whiteness' to the practice of chemical skin-bleaching to the government's active promotion of Pan-African 'heritage tourism'.
