The Unabomber Bryan Denson,2019-06-25 A new true-crime series that follows FBI agents behind the scenes as they work to keep Americans safe. The Unabomber was a lone-wolf terrorist who carried out fourteen bombings that left three people dead and another twenty-three injured. A cunning genius, he dodged his FBI pursuers for nearly two decades, terrifying Americans from coast to coast. Agent Kathy Puckett, a spy hunter and highly trained psychologist, served as the turning point in the FBI's efforts to understand the mind of the faceless killer. Her insights helped send more than a hundred agents to a remote cabin in the mountains of western Montana on April 3, 1996. There the FBI captured Theodore J. Kaczynski, engineer of the most notorious bombing spree in U.S. history. Bryan Denson presents the story of the FBI's investigation of the Unabomber and the agent who helped bring him to justice.

The Triple Agent Joby Warrick,2012-05-01 NATIONAL BESTSELLER • From the Pulitzer-Prize winning reporter, a stunning narrative account of the mysterious Jordanian who penetrated both the inner circle of al-Qaeda and the highest reaches of the CIA, with a devastating impact on the war on terror. Warwick is a brilliant reporter...A gripping true-life spy saga.—Los Angeles Times In December 2009, a group of the CIA’s top terrorist hunters gathered at a secret base in Khost, Afghanistan, to greet a rising superspy: Humam Khalil al-Balawi, a Jordanian double-agent who infiltrated the upper ranks of al-Qaeda. For months, he had sent shocking revelations from inside the terrorist network and now promised to help the CIA assassinate Osama bin Laden’s top deputy. Instead, as he stepped from his car, he detonated a thirty-pound bomb strapped to his chest, instantly killing seven CIA operatives, the agency’s worst loss of life in decades. In *The Triple Agent*, Pulitzer Prize-winning reporter Joby Warrick takes us deep inside the CIA’s secret war against al-Qaeda, a war that pits robotic planes and laser-guided missiles against a cunning enemy intent on unleashing carnage in American cities. Flitting precariously between the two sides was Balawi, a young man with extraordinary gifts who managed to win the confidence of hardened terrorists as well as veteran spymasters. With his breathtaking accounts from inside al-Qaeda’s lair, Balawi appeared poised to become America’s greatest double-agent in half a century—but he was not at all what he seemed. Combining the powerful momentum of *Black Hawk Down* with the institutional insight of Jane Mayer’s *The Dark Side*, Warrick takes the readers on a harrowing journey from the slums of Amman to the inner chambers of the White House in an untold true story of miscalculation, deception, and revenge.

Mohamed Osman Mohamud was an American citizen, a college student at Oregon State University, and a wannabe terrorist. His dream was to go to Yemen, train with al-Qaeda, and travel to Afghanistan to kill U.S. soldiers. But first, he plotted to detonate a massive bomb at a Christmas tree lighting ceremony in downtown Portland. Agent Ryan Dwyer ran the sting operation to see how serious Mohamed was. He and an Arabic-speaking partner, joined by FBI personnel—including two undercover operatives posing as al-Qaeda terrorists—worked month after month to get to know him and keep the people of Portland safe. Brodie's BOMBS AND BOMBINGS Jim Smith,2015-11-23 Bombs and Bombings is the definitive text regarding the construction of bombs and the motivation for bombings in the U.S. Although some law enforcement-sensitive material is excluded from this book, it still presents a thorough understanding of why bombs and bombings remain a constant threat. The chemistry of explosives and how such affects the performance of explosives are an essential part of the text. The reader is taken through a short course on explosive engineering and the chemistry of explosives. A brief history of bombings provides insight as to how improvised explosive devices were used to shape history and how the situations of the early 1900s are repeating themselves today. While many believe that suicide bombings are something seen only in the Middle East, this text explores the suicide bombings in the U.S. and the motivation of the bombers. Various profiles of several famous bombers such as the Unabomber and the Mad Bomber are reviewed along with other psychological issues that might inspire bombers. The use of bombs to disperse radioactive materials in the radiation dispersion device configuration is addressed along with the technique used to disperse chemical and biological agents with explosives. Booby traps, especially those targeting law enforcement, are explained, and methods to detect booby traps are developed to allow a rudimentary understanding of the process. Methods to identify clandestine laboratories manufacturing explosives or other drugs such as methamphetamine are identified providing the reader with an understanding of the items to identify and differentiate the types of laboratories. Numerous bombings are examined providing an insight as to why and how the attacks were successful. Mitigation techniques such as using alcohol resistant aqueous film-forming foam to suppress blast and fragment formation are explained along with deployment methods. The text is richly

illustrated with photographs depicting IEDs, explosives, and booby traps to assist in the identification of suspicious objects, suspect packages, or potential mail bombs. The book provides an overview that those involved in law enforcement, security, and counterterrorism will find elucidating and beneficial in bomb-related operations and mitigation efforts.

Texas Bomber Ernest Francis Schanilec, 2018-04-26 Texas Bomber By: Ernest Francis Schanilec Tom and Samantha Hastings, warm weather Minnesotans and winter Texans, are currently enjoying the balmy climate at Texas Palms Resort in Donna, Texas. Their stay is interrupted by a stranger named Nick, who offers Tom a part-time job: ferrying oil tanker truckers from Texas Palms across the border to Progreso, Mexico, where they will set off on their run to Bloomington, Minnesota. Tom quickly accepts, but Samantha soon has concerns about the legitimacy of the job. Her reservations deepen when first one man and then another are murdered at Texas Palms, blown up in their golf carts. Both men are far from being innocent victims. They seem to belong to a rival organization seeking to interfere with the company Tom works for. The scenario is reminiscent of what Sammy saw in *The Godfather*, but will Tom listen to her concerns, or will he too meet a gruesome fate?

Boots in the Ashes Cynthia Beebe, 2020-02-25 The thrilling career of ATF agent Cynthia Beebe is told through the lens of six high-profile cases involving bombings, arson, and the Hell's Angels. *Boots in the Ashes* is the memoir of Cynthia Beebe's groundbreaking career as one of the first women special agents for the Bureau of Alcohol, Tobacco, Firearms and Explosives, (ATF). A smart and independent girl growing up in suburban Chicago, she unexpectedly became one of the first women to hunt down violent criminals for the federal government. As a special agent for 27 years, Beebe gives the reader first-hand knowledge of the human capacity for evil. She tells the story of how, as a young woman, she overcame many obstacles on her journey through the treacherous world of illegal guns, gangs, and bombs. She battled conflicts both on the streets and within ATF. But Beebe learned how to thrive in the ultra-masculine world of violent crime and those whose job it is to stop it. Beebe tells her story through the lens of six major cases that read like crime fiction: four bombings, one arson fire and a massive roundup of the Hell's Angels on the West Coast. She also shares riveting never before revealed trial testimonies, including killers, bombers, arsonists, victims, witnesses and judges.

Foreign Agent Brad Thor, 2021-10-05 In a safe house near the Syrian border, a clandestine American operations team readies to launch a dramatic mission months in the making. Their target: the director of social media for ISIS, Abu Muslim al-Naser. Multiple analysts, as well as a senior congresswoman, are in country to monitor the raid, but before the team can launch, the safe house is attacked. What unfolds in the bloody aftermath is a political and public relations nightmare. As horrific videos of the Americans are published on the Internet, the blame-storming back in Washington goes into full swing, focusing on how the intel for the raid was developed and how it might have leaked. As the search for answers mounts, half spy, half covert counterterrorism operative Scot Harvath quickly finds himself at the center of the storm. Working for a private intelligence agency contracted by both the CIA and the DoD, it was Harvath who pinpointed al-Naser. But how could ISIS have known the Americans were coming, much less where they would be staging? There has to be more to it; something everyone - especially the politicians - is missing.

Ticking Time Bomb Joseph I. Lieberman, 2011-05 The Fort Hood massacre, on Nov. 5, 2009, which left 13 dead and 32 wounded, could have been prevented. Evidence of accused killer Nidal Hasan's growing drift toward violent Islamist extremism was on full display during his military medical training, although his superiors took no punitive action. He suggested Muslim Americans in the U.S. military might be prone to commit fratricide. But, a slipshod FBI invest. into Hasan, coupled with internal disagreements and flaws in the agency's intelligence operations also contributed to the government's failure to prevent the attack. This report tracks Hasan's growing radicalization in the years before the attack and the numerous failures of the military to take action against him. A print on demand report.

Pizza Bomber Jerry Clark, Ed Palattella, 2012-11-06 The bizarre, true story of a robbery gone wrong and the explosive murder that shocked the nation—as seen on Netflix's docuseries *Evil Genius*. For the first time, two of the people who followed the story from the beginning—Jerry Clark, the lead FBI Special Agent who cracked what became known as the Pizza Bomber case, and investigative reporter Ed Palattella—tell the complete story of what happened on August 28, 2003. In the suburbs of Erie, Pennsylvania, a pizza delivery man named Brian Wells was accosted by several men who locked a time bomb around his neck. They then ordered him to rob a bank. After delivering the money, he would receive clues to help him disarm the bomb. It was one of the most ingenious bank robbery schemes in history, known as Collarbomb by the FBI. It did not go according to plan. Wells, picked up by police shortly after the robbery, never found the clues he needed. Investigating the crime after his grisly death, the FBI soon discovered that Wells was not, in fact, an innocent victim. He was merely the first co-conspirator to fall in a bizarre trail of death following the crime... INCLUDES PHOTOS

Jihad in Brooklyn Samuel M. Katz, 2005-01-04 The true story of a potentially devastating terrorist plot in New York City—and the heroes who risked their lives to prevent it. On the morning of July 31, 1997, two young Palestinian men living in Brooklyn, New York, were prepared to sacrifice themselves as martyrs to their bloody cause. Their plan—to board a subway filled with commuters, wait until the train was traveling through the tunnel under the East River, and then detonate a shrapnel-covered explosive belt they had built in their tenement apartment. The attack would have killed hundreds, possibly even thousands, while sending the city—and the country—into a state of panic. This is the inspiring, startling, and frightening true story of how the NYPD learned of the impending attack and made a daring predawn raid on the terrorist hideout. The gripping series of events began with an Egyptian immigrant who, learning of the plan, alerted the police. Coordinating an assault with limited resources and manpower, seven brave members of the NYPD moved in—reaching the terrorists when they literally had their fingers on the trigger—saving countless lives, preventing a disaster that would have paralyzed New York City, and alerting the nation that, in today's world, violence and terror could begin at home.

A LAW ENFORCEMENT AND SECURITY OFFICERS' GUIDE TO RESPONDING TO BOMB THREATS Jim Smith, 2014-04-01 This newly revised edition is designed to integrate information in a clear and concise format to allow law enforcement to respond to bomb threats, bomb incidents, or chemical-biological-radiological events. The reader will find the information in this book useful as a general guide to develop local protocols to meet these occurrences. With the current threat, increased vigilance and knowledge is mandatory among all law enforcement and security officers to have a working knowledge of bombs, explosives and other threats for their own protection. Among the topics

discussed include the basic techniques for risk assessment and target and hazard identification. These are essential components in relating to the probability of a bombing attack and the potential outcome of such an attack. The common methods of bomb delivery, bomb construction and methods of triggering are also demonstrated. Letter bombs, vehicle bombs and high-risk facilities such as aircraft, airports, medical facilities and schools are examined as well as the utilization of chemical, biological and radiological devices and the unique hazards associated with these devices. This book also includes a section for emergency medical service personnel in treating those injured from blast, overpressure, shrapnel and chemical agents. This text is not a replacement for trained and well-equipped bomb technicians but is designed to allow the first responder to make identification of suspect items and take appropriate action until well-equipped bomb technicians arrive on the scene.
