**Bookkeeping Basics** Lisa M. Venkatrathnam,Debra L Ruegg,2003-03-15 Bookkeeping Basics No trained bookkeeper on staff? No problem. Many nonprofits don't have a trained bookkeeper on staff. This crucial function goes to whoever has the time and the willingness to do it. Lack of accounting training or background is not only frustrating for the individual, but also potentially risky for the nonprofit. Bookkeeping Basics will enable you to successfully meet the basic bookkeeping requirements of your organization. It gives you the knowledge and skills to track the financial activity of your nonprofit in a way that brings order out of chaos, safeguards the organization's assets, and provides useful information for making sound decisions. Clearly defines what you most need to know In plain language, the book explains concepts and processes you most need to know, including: single-versus double-entry bookkeeping; cash versus accrual basis accounting; posting financial transactions; keeping a paper trail of source documents; preparing a trial balance; creating financial statements; establishing internal controls; preparing for your annual audit; and closing out your fiscal year. Step-by-step instructions, clear definitions of terms, and detailed examples help you put concepts into actions. Reproducible forms include an accounts payable register, accounts receivable register, accounts receivable register, general ledger, financial summary form, grant tracking form, internal controls activity flow chart, and an audit preparation checklist. Bottom line: If you're the bookkeeper for your nonprofit—by choice or default—this book is for you!

It is particularly relevant to professional accountancy organizations. It is also intended for policy makers and regulators who determine which organizations are licensed to certify professional accountants and related specializations, for example, audit professionals. The purpose of the guide is to • increase understanding of the gap between the current skills of many accountants in some regions and the skills that are relevant in increasingly digitized and globalized economies; • convey the essential features of Competency-Based Accounting Education, Training, and Certification (CBAETC); • provide a common reference framework for organizations pursuing CBAETC and the consultants working with them; • assist countries in developing in-country plans and implementing in-country processes that produce accountants with higher-order skills relevant to their economy's rapidly evolving needs; and • improve financial reporting, auditing, and regulation. This guide complements and builds on International Education Standards (IES™) of the International Accounting Education Standards Board™ (IAESB™).
