*The Book on the Bookshelf* Henry Petroski, 2010-12-01 From the author of the highly praised *The Pencil* and *The Evolution of Useful Things* comes another captivating history of the seemingly mundane: the book and its storage. Most of us take for granted that our books are vertical on our shelves with the spines facing out, but Henry Petroski, inveterately curious engineer, didn't. As a result, readers are guided along the astonishing evolution from papyrus scrolls boxed at Alexandria to upright books shelved at the Library of Congress. Unimpeachably researched, enviably written, and charmed with anecdotes from Seneca to Samuel Pepys to a nineteenth-century bibliophile who had to climb over his books to get into bed, *The Book on the Bookshelf* is indispensable for anyone who loves books.

Bookshelf Lydia Pyne, 2016-01-28 *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. Every shelf is different and every bookshelf tells a different story. One bookshelf can creak with character in a bohemian coffee shop and another can groan with gravitas in the Library of Congress. Writer and historian Lydia Pyne finds bookshelves to be holders not just of books but of so many other things: values, vibes, and verbs that can be contained and displayed in the buildings and rooms of contemporary human existence. With a shrewd eye toward this particular moment in the history of books, Pyne takes the reader on a tour of the bookshelf that leads critically to this juncture: amid rumors of the death of book culture, why is the life of the bookshelf in full bloom? *Object Lessons* is published in partnership with an essay series

in The Atlantic.

I Will Judge You by Your Bookshelf Grant Snider, 2020-04-14 A look at the culture and fanaticism of book lovers, from the beloved New York Times illustrator and creator of Incidental Comics. It's no secret, but we are judged by our bookshelves. We learn to read at an early age, and as we grow older we shed our beloved books for new ones. But some of us surround ourselves with books. We collect them, decorate with them, are inspired by them, and treat our books as sacred objects. In this lighthearted collection of one- and two-page comics, writer-artist Grant Snider explores bookishness in all its forms, and the love of writing and reading, building on the beloved literary comics featured on his website, Incidental Comics. *I Will Judge You by Your Bookshelf* is the perfect gift for bookworms of all ages. "This playful, self-aware collection of strips and gags on the joys and frustrations of reading and writing is equal parts lighthearted and sincere . . . The panels range from gently clever to surprisingly profound to laugh-out-loud." —Publishers Weekly "A prescient book for these times." —Newsarama

*Forbidden Bookshelf's Resistance in America Collection* Nancy Howell Lee, Peter Dale Scott, Bertram Gross, 2017-06-13 From creeping capitalism to abortion to government corruption, these three books shed light on controversial topics that are too often left in the dark. Curated by NYU professor Mark Crispin Miller, the Forbidden Bookshelf series resurrects books from America's repressed history. All touching on bold and debated topics, these three books are more relevant today than ever. *Friendly Fascism*: Bertram Gross, a presidential adviser in the New Deal era, explores the insidious way that capitalist politics could subvert America's constitutional democracy. First published over three decades ago, this book predicted the threats and realities that occur when big business and big government become bedfellows, while demonstrating how US citizens can build a truer democracy. *The Search for an Abortionist*: Nancy Howell Lee's eye-opening account reveals the dangerous and illegal options for women seeking an abortion before *Roe v. Wade*. Based on interviews with 114 women, this groundbreaking work takes an intimate look at the abortion process. *Dallas '63*: Peter Dale Scott exposes the deep state, an intricate network within the American government, linking Wall Street influence, corrupt bureaucracy, and the military-industrial complex. Since World War II, its power has grown unchecked, and nowhere has it been more apparent than at Dealey Plaza on November 22, 1963. Scott details the CIA and FBI's involvement in the JFK assassination, and shows how

events like Watergate, the Iran–Contra affair, and 9/11 are all connected to this behind-the-scenes web of corruption.

Benchmarks Algis Budrys, 1985 Over the years since 1965, Algis Budrys has emerged as the leading critic of modern speculative fiction: insightful, eclectic, and notoriously uninhibited. *Benchmarks* collects the material that started it—all 54 Galaxy Bookshelf book-review columns Budrys created for the now-vanished Galaxy Magazine. Written for what was then the world’s leading SF periodical, these legendary summations and summary judgments coincided with the period when newsstand-borne science fiction and fantasy were evolving from pulp toward literature. Budrys’ Galaxy reviews trace an incisive, sometimes wickedly acerbic path through that sparsely charted literary territory. Budrys defines his standards and his function in his own words: “A book should be good. A bird should fly. “Writers of imperfect, tousled books should be made aware that standards of breeding and grooming exist. I strive to fulfill that function.”

The Sailor's Bookshelf James Stavridis, 2021-12-15 Admiral Stavridis, a leader in military, international affairs, and national security circles, shares his love of the sea and some of the sources of that affection. *The Sailor's Bookshelf* offers synopses of fifty books that illustrate the history, importance, lore, and lifestyle of the oceans and

of those who “go down to the sea in ships.” Stavridis colors those descriptions with glimpses of his own service—“sea stories” in popular parlance—that not only clarify his choices but show why he is held in such high esteem among his fellow sailors. Divided into four main categories—The Oceans, Explorers, Sailors in Fiction, and Sailors in Non-Fiction—Admiral Stavridis’ choices will appeal to “old salts” and to those who have never known the sights of the ever-changing seascape nor breathed the tonic of an ocean breeze. The result is a navigational aid that guides readers through the realm of sea literature, covering a spectrum of topics that range from science to aesthetics, from history to modernity, from solo sailing to great battles. Among these eclectic choices are guides to shiphandling and navigation, classic fiction that pits man against the sea, ecological and strategic challenges, celebrations of great achievements and the lessons that come with failure, economic competition and its stepbrother combat, explorations of the deep, and poetry that beats with the pulse of the wave. Some of the included titles are familiar to many, while others, are likely less well-known but are welcome additions to this encompassing collection. Admiral Stavridis has chosen some books that are relatively recent, and he recommends other works which have been around much longer and deserve recognition.

Bookshelves in the Age of the COVID-19 Pandemic Corinna Norrick-Rühl,Shafquat Towheed,2022-10-05 Bookshelves in the Age of the COVID-19 Pandemic provides the first detailed scholarly investigation of the cultural phenomenon of bookshelves (and the social practices around them) since the start of the pandemic in March 2020. With a foreword by Lydia Pyne, author of *Bookshelf* (2016), the volume brings together 17 scholars from 6 countries (Australia, Canada, Germany, the Netherlands, the UK, and the USA) with expertise in literary studies, book history, publishing, visual arts, and pedagogy to critically examine the role of bookshelves during the current pandemic. This volume interrogates the complex relationship between the physical book and its digital manifestation via online platforms, a relationship brought to widespread public and scholarly attention by the global shift to working from home and the rise of online pedagogy. It also goes beyond the (digital) bookshelf to consider bookselling, book accessibility, and pandemic reading habits.

Sayers, to the dramatic alchemy of C.S. Lewis, J.R.R.
